Quest For Measure:

Quests Sylvia Hortense Bliss,1920 A Quest for the Physical Reality of Time Sidi Benzahra Cherkawi,2012-08-01 Some scientists believe that time is physical such as matter and other scientists believe that time is an imagination such as the numbers 1 2 and 3 Did we invent time or was time here in the universe before we came to existence This book answers this question This book also tells the stories of my encounters of physics Nobel laureates such as I I Rabi T D Lee Murray Gell Mann James Rainwater and more BTEC National Sport George Caplan,2007-07 Matches Edexcel s specification which will apply from September 2007 and includes the core units for the Development Coaching and Fitness and Performance and Excellence pathways **Questing** Delia Clark,Steven Glazer,2004 A guide to creating treasure hunts that teach and share the special places in your community The Game Changer Jason Fox,2014-01-21 Use the science of motivation with the power of game design to unlock motivation and drive progress in your organisation There are two conventional ways to approach motivation set goals and try to change attitudes and beliefs which takes a lot of personalised effort or develop incentives and rewards to inspire effort which takes a lot of money This book shows you how to take a third new approach designing the work itself to be inherently motivating Combining the best elements of three distinct fields motivational science game design and agile management this book shows you how to positively influence behaviour through better work and project design This game changing book Gives you a refreshing science based approach to the classic challenge of motivation in the workplace Is ideal for any leader or manager looking to take their workplace culture in a new direction Includes practical advice for creating highly productive motivated and innovative teams Is written by a motivation strategy and design expert who consults on leadership and change management to a wide range of clients from the executives of multinational organisations through to the directors of switched on startups The Game Changer will show you how to unlock creative productive and collaborative work It is the perfect resource for forward thinking leaders in organisations and teams focused on crafting a work culture that gets the best out of their people **Graffiti and Street Art** Konstantinos Avramidis,Myrto Tsilimpounidi,2016-12-08 Graffiti and street art images are ubiquitous and they enjoy a very special place in collective imaginary due to their ambiguous nature Sometimes enigmatic in meaning often stylistically crude and aesthetically aggressive yet always visually arresting they fill our field of vision with texts and images that no one can escape As they take place on surfaces and travel through various channels they provide viewers an entry point to the subtext of the cities we live in while questioning how we read write and represent them This book is structured around these three distinct albeit by definition interwoven key frames The contributors of this volume critically investigate underexplored urban contexts in which graffiti and street art appear shed light on previously unexamined aspects of these practices and introduce innovative methodologies regarding the treatment of these images Throughout the focus is on the relationship of graffiti and street art with urban space and the various manifestations of these idiosyncratic meetings In this book the emphasis is

shifted from what the physical texts say to what these practices and their produced images do in different contexts All chapters are original and come from experts in various fields such as Architecture Urban Studies Sociology Criminology Anthropology and Visual Cultures as well as scholars that transcend traditional disciplinary frameworks This exciting new collection is essential reading for advanced undergraduates as well as postgraduates and academics interested in the subject matter It is also accessible to a non academic audience such as art practitioners and policymakers alike or anyone keen on deepening their knowledge on how graffiti and street art affect the ways urban environments are experienced understood and envisioned

Resilience: Life Events, Trajectories and The Brain Jutta Lindert, Oliver Tuescher, 2021-03-24 *Clinical Neuropsychology and Cognitive Neurology of Parkinson's Disease and Other Movement Disorders* Alexander I. Troster, 2014-10-09

The book provides an up to date account of the neuropsychological cognitive neurological and neuropsychiatric aspects of movement disorders The past ten years have seen an explosion of research covering non motor aspects of Parkinson s disease and more recently movement disorders such as essential tremor dystonia corticobasal syndrome progressive supranuclear palsy and multiple system atrophy It is often these neurobehavioral features that become troubling to the patient they are sometimes difficult to recognize and treat are associated with diminished patient and caregiver quality of life and may hasten disease progression loss of independence and institutionalization This book discusses the most recent diagnostic and treatment guidelines for such cognitive and psychiatric conditions in Parkinson s disease and other movement disorders while providing practical tips and strategies for general assessment The rapid accumulation of research in this field makes it increasingly difficult for one or two people to author a comprehensive text in an expert manner The world class team assembled for this volume succeeds in covering widely diverse areas such as the pathology neuroimaging assessment and treatment of an ever growing set of neurobehavioral features of movement disorders cognitive impairment and dementia depression apathy anxiety psychosis and impulse control disorders The text also surveys fundamental knowledge about basal ganglia function and dysfunction assessment and evaluation techniques applicable to a range of movement disorders and quality of life issues more broadly

Distributed Communities on the Web Peter Kropf, Gilbert Babin, John Plaice, Herwig Unger, 2003-06-29

Communities are groupings of distributed objects that are capable of communicating directly or indirectly through the medium of a shared context To support communities on a wide scale will require developments at all levels of computing from low level communication protocols supporting transparent cess to mobile objects through to distributed operating systems through to high level programming models allowing complex interaction between objects This workshop brought together researchers interested in the technical issues of supporting communities This workshop was the third in the DCW series The rst two entitled D tributed Computing on the Web took place in 1998 and 1999 at the University of Rostock with proceedings published by the University of Rostock Press This year the workshop also incorporated the ISLIP International Symposium on Languages for Intensional Programming symposium

The ISLIP symposia have taken place every year since 1988 and have led to two volumes published by World Scientific: *Intensional Programming I* 1995 and *Intensional Programming II* 2000. While the two conferences emerged from different needs, their focus merged to such an extent that it became clear that a joint conference promised to offer great opportunities.

Faithful Measures Roger Finke, Christopher D.

Bader, 2017-10-10 A venture into the art and science of measuring religion in everyday life. In an era of rapid technological advances, the measures and methods used to generate data about religion have undergone remarkably little change. *Faithful Measures* pushes the study of religion into the 21st century by evaluating new and existing measures of religion and introducing new methods for tapping into religious behaviors and beliefs. This book offers a global and innovative approach with chapters on the intersection of religion and new technology such as smart phone apps, Google Ngrams, crowdsourcing data, and Amazon buying networks. It also shows how old methods can be improved by using new technology to create online surveys with experimental designs and by developing new ways of mining data from existing information. Chapter contributors thoroughly explain how to employ these new techniques and offer fresh insights into understanding the complex topic of religion in modern life. Beyond its quantitative contributions, *Faithful Measures* will be an invaluable resource for inspiring a new wave of creativity and exploration in our connected world.

Invariant Measurement George Engelhard, Jr., 2013-05-07 This introductory text describes the principles of invariant measurement: how invariant measurement can be achieved with Rasch models and how to use invariant measurement to solve measurement problems in the social, behavioral, and health sciences. Rasch models are used throughout, but a comparison of Rasch models to other item response theory (IRT) models is also provided. Written with students in mind, the manuscript was class tested to help maximize accessibility. Chapters open with an introduction and close with a summary and discussion. Numerous examples and exercises demonstrate the main issues addressed in each chapter. Key terms are defined when first introduced and in an end-of-text glossary. All of the book's analyses were conducted with the Facets program. The data sets used in the book, sample syntax files for running the Facets program, Excel files for creating item and person response functions, links to related websites, and other material are available at www.GeorgeEngelhard.com. Highlights include: A strong philosophical and methodological approach to measurement in the human sciences; Demonstrations of how measurement problems can be addressed using invariant measurement; Practical illustrations of how to create and evaluate scales using invariant measurement; A history of measurement based on test score and scaling traditions; Previously unpublished work in analyzing rating data; the detection and measurement of rater errors and the evaluation of rater accuracy; A review of estimation methods, model data fit indices used to evaluate the quality of rater-mediated assessments, rater error and bias, and rater accuracy. Intended as a supplementary text for graduate or advanced undergraduate courses on measurement or test theory, item response theory, scaling theory, psychometrics, advanced measurement techniques, research methods, or evaluation research taught in

education psychology and the social and health sciences the book also appeals to practitioners and researchers in these fields who develop or use scales and instruments Only a basic mathematical level is required including a basic course in statistic

Using and Developing Measurement Instruments in Science Education Xiufeng Liu, 2020-02-01 This book meets a demand in the science education community for a comprehensive and introductory measurement book in science education It describes measurement instruments reported in refereed science education research journals and introduces the Rasch modeling approach to developing measurement instruments in common science assessment domains i e conceptual understanding affective variables science inquiry learning progression and learning environments This book can help readers develop a sound understanding of measurement theories and approaches particularly Rasch modeling to using and developing measurement instruments for science education research This book is for anyone who is interested in knowing what measurement instruments are available and how to develop measurement instruments for science education research For example this book can be a textbook for a graduate course in science education research methods it helps graduate students develop competence in using and developing standardized measurement instruments for science education research Science education researchers both beginning and experienced may use this book as a reference for locating available and developing new measurement instruments when conducting a research study *Proceedings of a Conference Sponsored by NASA Goddard Space Flight Center at Goddard Space Flight Center* ,1999 **Research On Altruism & Love** Stephen Post, 2003-05-15 Research on Altruism and Love is a compendium of annotated bibliographies reviewing literature and research studies on the nature of love An essay introduces each of the annotated bibliographies A variety of literature directly related to science and love issues or supporting those issues is covered in the Religious Love Interfaces with Science section This annotated bibliography is unique in that it approaches the field from a decidedly religious perspective It includes classical expositions of love that continue to influence contemporary scholars including Platos work on eros the work and words of Jesus Aristotle Augustine of Hippo Martin Luther Kierkegaard and Ghandi among others The contemporary discussion includes Anders Nygren s theological arguments in his classic *Agape and Eros* Pitirim Sorokin and others An issue that often emerges in this literature is the question of the nature and definition of love A second annotated bibliography features current empirical research in the field of Personality and Altruism with a focus on social psychology Among the topics covered are the altruistic personality altruistic behavior empathy helping behavior social responsibility and volunteerism Methodologies are diverse and studies include experiments local and national surveys naturalistic observation and combinations of these The Evolutionary Biology annotated bibliography covers the most significant works on altruism and love in the field of biology and evolutionary psychology The fourth and final annotated bibliography in this volume is entitled Sociology of Faith Based Volunteerism Here the focus is on literature on the interface of helping behavior and religious organizations as well as major pieces on voluntary associations Assessing Infiltration and Exfiltration on the

Performance of Urban Sewer Systems Bryan Ellis, Jean-Luc Bertrand-Krajewski, 2010-02-10 Sewer systems constitute a very significant heritage in European cities. Their structural quality and functional efficiency are key parameters to guarantee the transfer of domestic and industrial wastewater to treatment plants without infiltration nor exfiltration. Infiltration of groundwater is particularly detrimental to treatment plant efficiency while exfiltration of wastewater can lead to groundwater contamination. The European research project APUSS (Assessing infiltration and exfiltration on the Performance of Urban Sewer Systems) was devoted to sewer infiltration and exfiltration questions. It was structured in three main Work Areas dealing respectively with i) the development of new measurement methods based on tracer experiments and accounting for detailed uncertainty analyses ii) the implementation of models and software tools to integrate structural and experimental data and to facilitate data display, operational management and decision making processes and iii) the integration of economic and operational questions by means of cost estimation, economic evaluation, performance indicators and multi-criteria methods applied to investment rehabilitation strategies. This final report describes the objectives, methods and main results for each Work Area. References to detailed methods, protocols, reports and tools are given in this final report which will be an invaluable source of information for all those concerned with the performance of urban sewer systems.

Transforming Spirituality F. LeRon Shults, Steven J. Sandage, 2006-06 Explores the concept of spiritual transformation through the lenses of theology and psychology.

Religion, Intolerance, and Conflict Steve Clarke, Russell Powell, Julian Savulescu, 2013-05-30 The relationship between religion, intolerance and conflict has been the subject of intense discussion, particularly in the wake of the events of 9/11 and the ongoing threat of terrorism. This book contains original papers written by some of the world's leading scholars in anthropology, psychology, philosophy and theology, exploring the scientific and conceptual dimensions of religion and human conflict. Authors investigate the following themes: the role of religion in promoting social cohesion and the conditions under which it will tend to do so; the role of religion in enabling and exacerbating conflict between different social groups and the conditions under which it will tend to do so; and the policy responses that we may be able to develop to ameliorate violent conflict and the limits to compromise between different religions. The book also contains two commentaries that distill, synthesize and critically evaluate key aspects of the individual chapters and central themes that run throughout the volume. The volume will be of great interest to all readers interested in the phenomenon of religious conflict and to academics across a variety of disciplines including religious studies, philosophy, psychology, theology, cognitive science, anthropology, politics, international relations and evolutionary biology.

Character Education in America's Blue Ribbon Schools Madonna Murphy, 2002-07-09 Character Education in America's Blue Ribbon Schools is based upon descriptive, documentary and qualitative research conducted on the award-winning school applications in the United States Department of Education's Elementary School Recognition Program, i.e. the Blue Ribbon Schools. The purpose of the program is to focus national attention on schools that are doing an exceptional job with all of their students. Areas studied are developing a solid

foundation of basic skills and knowledge of subject matter and fostering the development of character values and ethical judgment The first edition of this book reported on the first decade of this program from 1985 to 1994 The second edition adds the schools that have won the award from 1996 2001 Included are the Blue Ribbon schools that applied for Special Honors in Character Education and five that actually won that recognition in 1998 1999 This edition finds character education much stronger in American schools in recent years and is full of many promising practices It is a practical book that will guide school administrators teachers parents board members and concerned citizens interested in starting or strengthening the character education focus of their school

Religious Orientation and Authoritarianism in

Cross-cultural Perspective Raymond F. Paloutzian, 2014-10-13 This is a special thematic edition of the International Journal for the Psychology of Religion Volume 9 Number 9 from 1999 The main topic is the religious orientation and authoritarianism in a cross cultural perspective If research such as that published in this journal issue were extended to other cultures and peoples it would facilitate international dialogue about the research on religious orientation which has been a cornerstone of Western empirical psychology of religion for the past 30 years The articles assembled in this issue of the journal present data from non Western populations and the results of a translation of religious orientation measures into a language other than English Data sets in the four articles in this issue come from Canada Ghana The United States and Poland
