E. van Beek, 2019-05-20 No detailed description available for *The Quest for Purity* *In Pursuit of Purity, Unity, and Liberty* Paul Chang-Ha Lim, 2004-01-01 This contextualised study illuminates the oft misunderstood aspects of Richard Baxter's ecclesiology purity unity and liberty In doing so it sheds further light on the nature of seventeenth century English Puritanism and the quest for the true church and the corresponding conflicts between the Laudians and Puritans **Cargo Cults and Millenarian Movements** G. W. Trompf, 2012-10-25 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series **Ritual Matters** Ute Husken, Christiane Brosius, 2012-08-21 This book explores the interaction of rituals and ritualised practices utilising a cross cultural approach It discusses whether and why rituals are important today and why they are possibly even more relevant than before *Christian Remnant-African Folk Church* Stefan Höschele, 2007-01-01 Tanzanian Adventism exemplifies one of the most fascinating shifts in the history of religions the growth of Christianity in Africa Most striking in this account is the analysis of a minority denomination's transformation to a veritable folk church **The Freedom to Do God's Will** Gerrie ter Haar, James J. Busuttil, 2003 Under the auspices of top international commentators *The Freedom to do God's Will* considers the global impact of fundamentalism on religious traditions including Hinduism Buddhism Mormonism Christianity Judaism and Islam With special reference to human rights issues women's rights and the influence of social factors it brings a new dimension to a field of study often dominated by purely religious or political perspectives whilst challenging received ideas about the violence and conservatism of fundamentalist movements Illustrated with original case studies the ten investigative essays from a multicultural panel of experts each with specific local and academic knowledge of the faiths and issues they discuss offer an intimate and highly specific portrait of why and how fundamentalism occurs *Encyclopedia of Ethics* Lawrence C. Becker, Charlotte B. perspectives of the indigenous people who were affected by it **Beyond Conversion and Syncretism** avid,,Miles Richardson,2011-10-01 The globalization of Christianity its spread and appeal to peoples of non European origin is by now a well known phenomenon Scholars increasingly realize the importance of natives rather than foreign missionaries in the process of evangelization This volume contributes to the understanding of this process through case studies of encounters with Christianity from the perspectives of the indigenous peoples who converted More importantly by exploring overarching general terms such as conversion and syncretism and by showing the variety of strategies and processes that actually take place these studies lead to a more nuanced understanding of cross cultural religious interactions in general from acceptance to resistance thus enriching the vocabulary of religious interaction The contributors tackle these issues from a variety of disciplinary perspectives history anthropology religious studies and present a broad geographical spread of cases from China Vietnam Australia India South and West Africa North and Central America and the Caribbean **Jesus Christ in World History** Jan A. B. Jongeneel,2009 Based on the author s thesis Th D Leiden University 1971 *Salafism in Lebanon* Zoltan Pall,2018-04-05 Examines the entrenchment of Salafism in Lebanese society while also highlighting the movement s transnational links to the Persian Gulf *Translating the Devil* Birgit Meyer,2019-08-06 This book offers an ethnography of the emergence of a local Christianity and its relation to changing social political and economic formations among the Peki Ewe in Ghana Focusing on the Evangelical Presbyterian Church which arose from encounters between the Ewe and German Pietist missionaries the author examines recent conflicts leading to the secession of many pentecostally oriented members which it places in a historical perspective The main argument is that for the Ewe involvement with modernity goes hand in hand with new enchantment rather than disenchantment of the world At the grassroots level the study focuses on the image of the Devil which the missionaries communicated to the Ewe through translation and which currently receives much attention in the Pentecostal churches It is shown that this image played and still plays a crucial role in the local appropriation of Christianity since diabolisation confirmed the existence of local gods and witchcraft and incorporated them into Christian belief as demons Comparing the discourses and practices of mission and Pentecostal churches the study reveals that the latter pay much more attention to Satan especially through deliverance rituals Pentecostalism s increasing popularity thus stems from the fact that it ties into historically generated local understandings of Christianity which despite a declared dislike of non Christian religious practices stand much closer to Ewe religion than missionary Christianity With its emphasis on the hybrid image of the Devil and people s obsessions with occult forces as a way to mediate the attractions and discontents of modernity this book sheds light on a hitherto neglected dimension in studies of African Christianity

African & American Marilyn Halter,Violet Showers Johnson,2014-08-29 Examines what it means to be African and American through the stories of recent West African immigrants African American tells the story of the much overlooked experience of first and second generation West African immigrants and refugees in the United States during the last forty

years Interrogating the complex role of post colonialism in the recent history of black America Marilyn Halter and Violet Showers Johnson highlight the intricate patterns of emigrant work and family adaptation the evolving global ties with Africa and Europe and the translocal connections among the West African enclaves in the United States Drawing on a rich variety of sources including original interviews personal narratives cultural and historical analysis and documentary and demographic evidence African American explores issues of cultural identity formation and socioeconomic incorporation among this new West African diaspora Bringing the experiences of those of recent African ancestry from the periphery to the center of current debates in the fields of immigration ethnic and African American studies Halter and Johnson examine the impact this community has had on the changing meaning of African Americanness and address the provocative question of whether West African immigrants are indeed becoming the newest African Americans *War, Religion and Empire* Andrew Phillips,2010-12-23 What are international orders how are they destroyed and how can they be defended in the face of violent challenges Advancing an innovative realist constructivist account of international order Andrew Phillips addresses each of these questions in *War Religion and Empire* Phillips argues that international orders rely equally on shared visions of the good and accepted practices of organized violence to cultivate cooperation and manage conflict between political communities Considering medieval Christendom s collapse and the East Asian Sinosphere s destruction as primary cases he further argues that international orders are destroyed as a result of legitimation crises punctuated by the disintegration of prevailing social imaginaries the break up of empires and the rise of disruptive military innovations He concludes by considering contemporary threats to world order and the responses that must be taken in the coming decades if a broadly liberal international order is to survive **History Education in Africa** Gideon Boadu,Charles Adabo Oppong,2024-07-12 This collection brings together African scholars in Africa and the diaspora to contribute to scholarly debates about critical issues in history teaching and learning in African schools The book contributes to filling the gap in knowledge on African history associated pedagogies and practices and its consequent effects on research and the declining popularity of history in African Schools Specifically the volume a examines current trends and practices in history education in African schools b unveils the challenges and subtleties of teaching the next generation of teachers and students and c examines classroom practices and opportunities for engagement with historical concepts in African schools The book adds a much needed African voice to the international history education literature and contribute to strengthening the place of history teaching and learning in Africa **2000 Years of Small Groups** Joel Comiskey,2015-10-03 This book explores how God has used small groups throughout church history specifically focusing on the early church to the present time God not only established the early church as a house to house movement but he also has used small groups throughout church history This book chronicles the small group or cell movement from Jesus all the way to the modern day cell explosion Themes include Small Groups In Biblical History Small Groups In Early Christian History Small Groups and Monasticism Small Groups During the

Pre Reformation Period Luther and Small Groups Martin Bucer and Small Groups The Anabaptist Movement Puritan Conventicles Pietism The Moravians The Methodists Modern House Churches Small Groups in North America The Modern Day Cell Church This book will both critique the strengths and weaknesses of these historical movements and apply principles to today's church You will grow in appreciation and understanding of key small group principles from those pioneers who have paved the way You will also learn to value those movers and shakers who faced far greater odds to implement small groups than the difficulties confronted today Many have struggled with the same things you're wrestling with now And just like they found solutions in the face of persecution and trial God will help you to persevere find solutions and ultimately bear abundant fruit for his kingdom and glory **Meeting Jesus at University** Edward Dutton, 2016-12-05

How does university turn students into who they become Why are student evangelicals such a significant and controversial force at so many universities In many countries university has become the main Rite of Passage between the child and adult worlds University can be enjoyable and fascinating but also life changing and traumatic And at the exact time when a student's identity is the most challenged and uncertain student evangelical groups are highly organised on many university campuses to offer students a powerful identity so that the world makes sense once again For some these groups will protect them from the university's assault on their faith For others they will challenge and even change who they are **Meeting Jesus at University** explores universities in six countries Drawing upon detailed fieldwork it examines the largest student evangelical group at each university in order to understand in depth the relationship between the student evangelical group and the university which it aims to convert **Meeting Jesus at University** offers an original contribution to the discussion of Rites of Passage examining what is experienced at university and how university breaks down and remoulds young people It explores why student evangelicals are so active particularly at Britain and America's most prestigious and identity challenging institutions meaning that students at these places are the most likely to find themselves meeting Jesus at university

Laughing Matters Giorgio Baruchello, Ársæll Már Arnarsson, 2023-11-06 The present book addresses the background rationale general structure and particular aims and arguments characterizing our third and last volume about humor and cruelty A guiding foray is provided into the vast expert literature that can be retrieved in the Western humanities and social sciences on these two terms Pivotal thinkers and crucial notions are duly identified highlighted and examined Apposite subsidiary references are also included especially with regard to psychodynamics and clinical psychology existentialism feminism liberalism Marxism and representative recent studies in the philosophy of humor and its cognates The stage is thus set for the exploration and assessment of the conflicts between humor and cruelty unfolding in Part 2 of Volume 3 Being the philosophical terminus of our entire research project Volume 3 counterbalances complements and occasionally complexifies the numerous forms of mutual cooperation between humor and cruelty that the preceding Volume 2 had unearthed and discussed Like Aristotle and Dewey Arnarsson and Baruchello do not define their terms at the outset but instead they

relentlessly pursue the meanings of two ordinary words that everyone vaguely understads to arrive at a critical insight into the concepts these words represent which are both disparate and interrelated Richard Marc Rubin President George Santayana Society Burning Books and Leveling Libraries Rebecca Knuth,2006-05-30 Whether the product of passion or of a cool headed decision to use ideas to rationalize excess the decimation of the world s libraries occurred throughout the 20th century and there is no end in sight Cultural destruction is therefore of increasing concern In her previous book Libricide Rebecca Knuth focused on book destruction by authoritarian regimes Nazis Serbs in Bosnia Iraqis in Kuwait Maoists during the Cultural Revolution in China and the Chinese Communists in Tibet But authoritarian governments are not the only perpetrators Extremists of all stripes through terrorism war ethnic cleansing genocide and other forms of mass violence are also responsible for widespread cultural destruction as she demonstrates in this new book Burning Books and Leveling Libraries is structured in three parts Part I is devoted to struggles by extremists over voice and power at the local level where destruction of books and libraries is employed as a tactic of political or ethnic protest Part II discusses the aftermath of power struggles in Germany Afghanistan and Cambodia where the winners were utopians who purged libraries in efforts to purify their societies and maintain power Part III examines the fate of libraries when there is war and a resulting power vacuum The book concludes with a discussion of the events in Iraq in 2003 and the responsibility of American war strategists for the widespread pillaging that ensued after the toppling of Saddam Hussein This case poignantly demonstrates the ease with which an oppressed people given the collapse of civil restraints may claim freedom as license for anarchy construing it as the right to prevail while ignoring its implicit mandate of social responsibility Using military might to enforce ideals in this case democracy and freedom is futile Knuth argues if insufficient consideration is given to humanitarian security and cultural concerns *Conflict and Violence in the Lake Chad Basin* Emmanuel Chauvin,Olivier Langlois,Christian Seignobos,Catherine Baroin,2025-08-01 Ranging from Boko Haram to the war in the Central African Republic insecurity forms a major factor among societies in the Lake Chad Basin Cameroon Central African Republic Niger Nigeria Chad Marred by conflict and violence these territories are difficult to access and not well known so they tend to be out of reach for scholarly study and development programs The long term and in depth field studies that this volume presents offer a window on conflict analysis based on insights into local dynamics and the lived world of the people themselves
