## Question De Lebence:

Interlopers of Empire Andrew Arsan, 2014 First comprehensive history of Lebanese communities of Francophone West Africa in the colonial period      *Transactional Culture in Colonial Dakar, 1902-44* Rachel M. Petrocelli, 2024 Examines Dakar's transformation from a small colonial capital to a dynamic city highlighting how its resourceful residents challenged French control by forging adaptive economic relationships During a transformative era in the first half of the twentieth century Dakar former capital of French West Africa and present day capital of Senegal evolved from a small colonial capital meant to serve the French administration to a dynamic city shaped not solely by colonial planners but also by its resourceful inhabitants In this important book historian Rachel Petrocelli introduces the concept of transactional culture a set of norms and practices forged by Dakar's residents to navigate life under colonial rule A central element of that culture was transience a defining feature permeating various facets of life in Dakar from commerce and employment to housing and interactions with the state The book uncovers a central dynamic economic relationships in Dakar were continually molded by the ebb and flow of diverse individuals each pursuing their own objectives despite the relentless efforts of the French state to exert control Both Europeans and Africans embraced adaptability in Dakar over fixed residence while immigrant communities implanted themselves and became integral to the city's transactional culture In this examination based on court records and other sources Petrocelli shows that as the French colonial state sought to shape and control Dakar it enacted policies to intentionally limit city dwellers resources Strategies like pawning possessions and taking out credit creatively devising housing and mobilizing identities and affiliations emerged as a result integrating Dakarais of every background These practices persisted long after French rule ended underscoring the enduring impact of Dakar's colonial history      **The Origins of the Lebanese National Idea** Carol Hakim, 2013-01-19 In this fascinating study Carol Hakim presents a new and original narrative on the origins of the Lebanese national idea Hakim's study reconsiders conventional accounts that locate the origins of Lebanese nationalism in a distant legendary past and then trace its evolution in a linear and gradual manner She argues that while some of the ideas and historical myths at the core of Lebanese nationalism appeared by the mid nineteenth century a coherent popular nationalist ideology and movement emerged only with the establishment of the Lebanese state in 1920 Hakim reconstructs the complex process that led to the appearance of fluid national ideals among members of the clerical and secular Lebanese elite and follows the fluctuations and variations of these ideals up until the establishment of a Lebanese state The book is an essential read for anyone interested in the evolution of nationalism in the Middle East and beyond      Managing Cultural Diversity in Asia Jawad Syed, Mustafa F. Ezbilgin, 2010-01-01 This Companion provides an authoritative overview of how cultural diversity is managed in Asia Although the Asian context appears at first sight to be irreconcilably divergent in terms of diversity management approaches the contributing authors seek to explore thematic and geographical demarcations of the notions of cultural diversity and equality at work Managing Cultural Diversity

in Asia not only examines cultural diversity management in a particular geography but also makes a distinct contribution to the wider theory of managing diversity and equality by revealing the significance of context time and place in framing policies and practices of management With empirical and conceptual contributions from eminent scholars from across the Asian continent as well as the Asian diaspora this volume highlights practices of equality and diversity management in settings across Asia and reveals the key drivers and implications of such practices This important and path breaking Companion will be an invaluable resource for both undergraduate and research based postgraduate students on international and comparative human resource management employment relations and industrial relations courses

**Stability and the Lebanese State in the 20th Century** Tarek Abou Jaoude, 2022-08-25 Explaining state building failures in Lebanon during the 20th century this book looks at the relationship between legitimacy and stability in the country since the creation of the state in 1920 The presence of legitimacy is considered necessary to any successful state building endeavour This book argues that the Lebanese state failed to achieve any meaningful form of legitimacy from its inception in 1920 to its near collapse during the civil war However by analysing different eras of Lebanese history throughout the different presidential terms the author challenges the general understanding of stability and governance to show that the absence of legitimacy and society support actually contributed to the persistence of the Lebanese state More than this the evidence shows that Lebanese state was at its most stable when it was regarded as illegitimate The wider implicit question thus asked in the book revolves around a case where illegitimacy within the state is what ensures its stability and survival Based on primary sources including national archives and collections institutional documents personal memoirs newspapers and journals this book provides a rich survey on the development and functioning of Lebanese political institutions

**The Redeployment of State Power in the Southern Mediterranean** Sylvia I. Bergh, 2016-04-08 The effects of neoliberal economic reforms in the Southern Mediterranean are now widely regarded as a main underlying cause of the Arab uprisings An often neglected dimension is that of the reforms implications for local governance The contributions to this edited volume examine how state power is being re articulated but also challenged at sub national levels in Morocco Egypt Jordan Israel Lebanon and Turkey They explore the effects of neoliberal economic and local governance reforms such as decentralization public private partnerships and outsourcing in the area of public service delivery poverty alleviation and labor market reforms on local patronage networks public accountability and state society

relations The findings show that such reforms are often subordinated to established patterns of political contestation among actors who seize on the opportunities that reforms offer to advance their political agendas thereby illustrating the local specificity of actually existing neoliberalisms The book thus fills an important knowledge gap by combining public policy and management theories with those on patron client networks and public accountability at the local level and situating them within the critical literature on neoliberalism This book was published as a special issue of Mediterranean Politics

Inventing Lebanon Kais M. Firro,2002-10-24 This study examines the history behind an idea a new polity of Greater Lebanon It shows how under the powerful influence of the French Mandate various groups of the local elite attempted to create what amounted to a new Lebanese nationalism carving the state into Maronite Christian Sunni and Shiite power bases The results only accentuated the divisions already inherent in this multi ethnic and multi faith society and were to pave the way for the instability and wars that have plagued the country ever since *Nabih Berri and Lebanese Politics* O.

Haiti s proximity to the United States and its considerable importance to our own history Haiti barely registered in the historic consciousness of most Americans until recently Those who struggled to understand Haiti s suffering in the earthquake of 2010 often spoke of it as the poorest country in the Western hemisphere but could not explain how it came to be so In recent years the amount of scholarship about the island has increased dramatically Whereas once this scholarship was focused on Haiti s political or military leaders now the historiography of Haiti features lively debates and different schools of thought Even as this body of knowledge has developed it has been hard for students to grasp its various strands Haitian History presents the best of the recent articles on Haitian history by both Haitian and foreign scholars moving from colonial Saint Domingue to the aftermath of the 2010 earthquake It will be the go to one volume introduction to the field of Haitian history helping to explain how the promise of the Haitian Revolution dissipated and presenting the major debates and questions in the field today *The Arab State and Neo-Liberal Globalization* Laura Guazzone,Daniela Pioppi,2022-07-01

Now available in paperback this collection of essays offers an alternative approach to the study of today s Arab states by focusing on their participation in neo liberal globalization rather than on authoritarianism or Islam The effects of the restructuring of traditional state power engendered by globalization are analyzed separately through updated empirical

research into the political economic and security processes of each country considered Egypt Lebanon Morocco and Saudi Arabia are the case studies selected to represent different paths towards a shared model of a new Arab state which far from representing an exceptional case of resilience against global trends may be seen in many instances as typifying their effects The book offers both an overall conceptualization of change affecting the Arab states domestically and internationally and a series of in depth case studies by country and functional areas It is extremely timely when viewed within the context of the current political unrest and unprecedented change within the Middle East This paperback edition includes a new preface which links the author s research to the current Arab Spring crisis
