A Theological and Philosophical Orientation

Question Of Meaning A Theological And Philosophical Orientation

Christopher Spinks

Question Of Meaning A Theological And Philosophical Orientation:

The Question of Meaning Gerhard Sauter, 1995 In this penetrating study of the concept of meaning Gerhard Sauter shows that contrary to popular belief the human quest for meaning is a relatively recent development arising only after the deconstruction of metaphysics at the end of the nineteenth century The Oxford Handbook of Eschatology Jerry L. Walls, 2007-12-03 Eschatology is the study of the last things death judgment the afterlife and the end of the world Through centuries of Christian thoughtfrom the early Church fathers through the Middle Ages and the Reformationthese issues were of the utmost importance In other religions too eschatological concerns were central After the Enlightenment though many religious thinkers began to downplay the importance of eschatology which in light of rationalism came to be seen as something of an embarrassment The twentieth century however saw the rise of phenomena that placed eschatology back at the forefront of religious thought From the rapid expansion of fundamentalist forms of Christianity with their focus on the end times to the proliferation of apocalyptic new religious movements to the recent and very public debates about suicide martyrdom and paradise in Islam interest in eschatology is once again on the rise In addition to its popular resurgence in recent years some of the worlds most important theologians have returned eschatology to its former position of prominence The Oxford Handbook of Eschatology will provide an important critical survey of this diverse body of thought and practice from a variety of perspectives biblical historical theological philosophical and cultural This volume will be the primary resource for students scholars and others interested in questions of our ultimate existence The Bible and the Crisis of **Meaning** Christopher Spinks, 2007-08-30 Many of the most pressing issues in theology and the church today depend greatly on the understanding of the bible Recent debates on the theological interpretation of scripture have emerged which consider whether the meaning of scripture should concern theologians and church leaders at all The Bible and the Crisis of Meaning is an account of these debates in examining the concept of meaning in current proposals of theological interpretation The concept of meaning is educed either from the supposed nature of the texts and their authors or from the function of the texts in religious communities Thus approaches to theological interpretation become debates between ontological and pragmatic strategists Stephen Fowl and Kevin Vanhoozer have embraced the term theological interpretation for their separate projects but their ideas of what this means and how meaning is a part of it differ greatly Christopher Spinks describes their respective concepts of meaning and argues for a more holistic concept that allows theological interpreters to understand their craft not so much as a discovery of intentions or the creation of interests but as a conversation in which truth is mediated Sibvls, Scriptures, and Scrolls Joel Baden, Hindy Najman, Eibert J.C. Tigchelaar, 2016-10-11 This volume a tribute to John J Collins by his friends colleagues and students includes essays on the wide range of interests that have occupied John Collins s distinguished career Topics range from the ancient Near East and the Hebrew Bible to the Dead Sea Scrolls and Second Temple Judaism and beyond into early Christianity and rabbinic Judaism The contributions deal with issues of text and

interpretation history and historiography philology and archaeology and more The breadth of the volume is matched only by the breadth of John Collins s own work The Christology of John Macquarrie Vernon L. Purdy, 2009 The Christology of John Macquarrie comprehensively scrutinizes the life and writings of Scottish born systematic theologian and philosopher John Macquarrie 1919 2007 in an attempt to comprehend and evaluate his Christology The author examines the people e q Heidegger Schleiermacher the philosophical and theological positions and the writings that formed Macquarrie s thinking One major influence was his commitment to modern critical theology including the premise that in the modern world the only acceptable Christological tenets are those that can stand up to the scrutiny of modern critical reasoning The work concludes that this commitment profoundly shaped Macquarrie's theology especially his Christology The book also discusses Macquarrie's evaluation and criticisms of the Christology of other theologians e g Kierkegaard Moltmann Pannenberg and others concluding that Macquarrie's understanding of the Christian faith and the person of Jesus Christ is consonant with modern liberal Anglo Catholicism This idea furthers the argument that Macquarrie's reluctance to accept traditional incarnational categories suggests that his Christology is a modern form of Adoptionism Meaningful Care J. Stolk, Theo A. Boer, R. Seldenrijk, 2013-03-14 It is crucial for the quality of care of people with mental retardation that care providers experience their work as meaningful A complexity however is the fact that this care is divided amongst a range of professions This book addresses issues of meaning meaning of care and meaning of life from all the different professional perspectives involved Such a multidisciplinary approach is unique and has never before been followed The book contains the results of a series of interviews in which parents of people with mental retardation were asked what they conceive to be meaningful care The results are placed in relation to experiences and conceptions of professional caregivers Moreover the study analyzes the cultural philosophical and theological significance of the concept meaningful care Finally the book explores the relevance of this concept for practical professions such as medical care social work educational psychology pedagogic counseling and pastoral care Scholarly depth is combined with experiential knowledge of professional practice Hence this book is an outstanding source of reflection for all those who work professionally with people with mental retardation The Sense of the Faith in History John J. Burkhard, 2022-02-05 2023 Catholic Media Association Second Place Award Theology History of Theology Church Fathers and Mothers While taught by Vatican II the sense of the faith sensus fidei has had little official impact in the Catholic Church What would the church look like if it took this conciliar teaching to heart To address this neglect John Burkhard locates the historical roots of the teaching and its emergence at Vatican II It attempts to better understand the sense of the faith in the light of other fundamental teachings of the council and challenges the hierarchical church to invite all the faithful to rightfully participate in the prophetic ministry of the whole church closely allied with Pope Francis s call for a more synodal church Apostolicity Then and Now John J. Burkhard, 2015-05-15 Apostolicity Then and Now explores apostolicity from its origin to today Apostolicity is a fundamental mark of the church referring to Jesus faith

given to carried on and taught unaltered by a continuous line of apostles This book primarily focuses on how apostolicity pertains to the church as a whole and views apostolic succession in light of how apostolicity is applicable to the church Scriptural historical theological and ecumenical contexts provide a thorough study that includes worldviews and their impact on apostolicity Chapters are Who Were the Apostles Why the Early Churches Understood Themselves as Apostolic Apostolicity in History Apostolicity and the Theologians Apostolicity and the Classical and Modern Worldviews Apostolicity in a Postmodern World Apostolicity in Ecumenical Dialogue and Apostolicity in an Ecumenical Church And Jacob Digged a Well Theodore M. Snider, 2012-05 The subject of Christology has been a struggle for the church from the very beginning It has resulted in divisions crusades inquisitions persecutions and a wide range of creeds Each group claims it possesses the truth a truth revealed to them a particular turn on belief they alone rightly proclaim In And Jacob Digged a Well author Pastor Theodore M Snider provides a commentary on religion where it s been where it s headed and how it fits in the modern world He seeks to answer this question why do we believe what we believe Snider discusses how scientific and technological discoveries have changed not only our worldviews but also our Godviews and how consciousness and brain research are altering the way we understand each other and how beliefs are formed He compiles a diverse amount of information on topics relevant to both secular and religious audiences including creationism evolution intelligent design and artificial intelligence through historical scientific cognitive and psychological avenues And Jacob Digged a Well reminds us that natural may not be as clear as we once thought Faith in the twenty first century needs to look quite different from the past Mission Shaped by Promise Jukka A. Kääriäinen, 2012-10-03 Utilizing resources from Martin Luther and the century Lutheran tradition this study offers an understanding of the gospel as promise as key to addressing the challenge of relating the missio Dei to a generous constructive approach toward the religious other In its construction of a Lutheran missiology it retrieves and reappropriates four resources from the Lutheran tradition the gospel as promise the law gospel distinction a theology of grace as promise of mercy fulfilled and a theology of the cross utilizing the hiddenness of God The law of God as accusing yet webbing humanity to its Creator the gospel as the comforting promise of mercy and the hiddenness of God as mystifying form the overarching framework within which the Lutheran missiology presented here seeks to engage the religious other by dialectically relating gospel proclamation and dialogue Such a view of mission shaped by promise offers the paradox of God being both revealed and hidden in the cross as a distinctive contribution to an interreligious dialogue centered on the ambiguity and hiddenness of God **Living with God** Carlo Leget,1997 What is the relation between human life on earth and life after death in the theology of Saint Thomas Aguinas 1224 5 1274 In this study this question is dealt with from the perspective of the foundations dynamism and perfection of the human relationship with God It is shown how Aguinas negative theological analysis of life as a name of God works out in qualifying his account of both human life on earth and life after death as two interrelated modes of living with God Written at an accessible level and having the width of

a thematic study on the key word life this book can also be read as an introduction to the theology of Thomas Aguinas Rediscovering God's Grand Story James M. Roseman, 2017-09-15 In the passage to modernity we in the West have lost the ability to see things whole We ve closed our minds to all things transcendent and default to unbelief and can t make sense of the persistent echoes of the voice of God that reverberate in our souls In Rediscovering God's Grand Story James Roseman picks up the strands of science philosophy history the arts and theology and reweaves the tapestry to see a coherent story that makes the best sense of the world and provides real meaning and significance to our lives God's Grand Myth We see that the signals of transcendence that confound our culture of doubt are a universal language and vocabulary of the heart echoing the voice of God and in the very Judeo Christian story we so readily jettison is found the Author enabling us to see the world whole again This essay tells why the story and promise of Christianity is so hard to hear today but won t go away Could it be that as T S Eliot wrote in the mid twentieth century at the end of all our exploring will be to arrive where we started and know the place for the first time Approaching New Testament Texts and Contexts Lars Hartman, 2013 Collection of texts published previously Creativity and Spirituality Maureen Miner, Martin Dowson, 2017-02-01 The volume was developed to address conceptual relational and formational questions around the phenomena of creativity and spirituality from a multidisciplinary perspective We acknowledge the complexity of each phenomenon and the need for multiple perspectives in a number of ways First different chapters are written from psychological theological or philosophical perspectives Second multiple research perspectives are considered across empirical and phenomenological methods of inquiry Finally multiple associations between creativity and spirituality are evaluated From such multiple perspectives the theme of this volume emerges Both creativity and spirituality are important for individual and societal flourishing but we know little about fostering both in the 21st century Some ways of fostering them are psychologically harmful and need to be avoided New ways of protecting people as they engage in creative and spiritual endeavours are needed In particular formal training in both creativity and spirituality within the sphere of higher education should be developed in the light of current research However new research that integrates multiple perspectives and examines creativity and spirituality together is needed for training that avoids harm and promotes individual and social flourishing The book will be valuable for educators in all disciplines of higher education because it justifies and explicates training in creativity and spirituality within all areas of higher education Further it discusses how such training might best be included within andragogical practice. The book will be useful for researchers of creativity and spirituality because it gives an overview of contemporary research issues and findings and proposes a new philosophical theological perspective for integrative research in these areas Students in fields of creativity theology and spirituality will use the book as a synthesis of contemporary theories and research relating to both creativity and spirituality and for direction in post graduate research More broadly Christians and others who appreciate the creative and performing arts will find much to challenge their thinking and deepen their awareness of spirituality within

human creativity Game Over? Christophe Chalamet, Andreas Dettwiler, Mariel Mazzocco, Ghislain Waterlot, 2017-09-11 Modern science informs us about the end of the universe game over is the message which lies ahead of our world Christian theology on the other hand sees in the end not the cessation of all life but rather an invitation to play again in God's presence Is there a way to articulate together such vastly different claims Eschatology is a theological topic which merits being considered from several different angles This book seeks to do this by gathering contributions from esteemed and fresh voices from the fields of biblical exeges is history systematic theology philosophy and ethics How can we make sense today of Jesus and the New Testament's eschatological message How did he his early disciples and the Christian tradition envision the end of the world Is there a way for us to articulate together what modern science tells us about the end of the universe with the biblical and Christian claims about God who judges and who will wipe every tear Eschatology has been at the heart of Christian theology for 100 years in the West What should we do with this legacy Are there ways to move our reflection forward in our century Scholars and other interested readers will find here a wealth of insights The End of the World and the Ends of God John Polkinghorne, Michael Welker, 2000-02-01 In this provocative collection of essays scientists theologians ethicists and biblical scholars look at eschatology through their various lenses Pro Ecclesia ,1999 God and Meaning Joshua W. Seachris, Stewart Goetz, 2016-09-08 Over the past decade there has been a growing interest among analytic philosophers in the topic of life s meaning What is striking about this surge of work is that nearly all of it is by naturalists theorizing from non theistic starting points This book answers the need for a theistic philosophical perspective on the meaning of life Bringing together some of the leading thinkers in analytic philosophy of religion and theology God and Meaning touches on important issues in metaphysics epistemology ethics philosophy of religion and biblical theology that intersect with life's meaning In particular What does the question What is the meaning of life mean How can we know if life has meaning and what that meaning is Might God enhance life s meaningfulness in some ways but detract from it in others Is the most meaningful life one of perfect happiness What is the relationship between eternity and life s meaning How does the Old Testament book of Ecclesiastes illumine the topic Should we hope that a kind of transcendent meaning exists Presenting a state of the art assessment of current philosophical positions on these and many other questions God and Meaning is an invaluable resource for all students and scholars of the philosophy of religion **Living without a Why Paul O** Ingram, 2015-04-30 In this book Paul O Ingram adds his voice to a long list of writers seeking to relate Christian tradition to the hard realities of this post Christian age of religious and secular pluralism As a Lutheran Ingram thinks grace flows over this universe like a waterfall So he brings Christian mystical theology into a discussion of the meaning of grace Alfred North Whitehead's philosophical vision provides a language that serves as a hermeneutical bridge by which historians of religions can interpret the teachings and practices of religious Ways other than their own without falsification and by which theologians can appropriate history of religions research as a means of helping Christians advance in their own faith journeys The purpose of the journey of faith is what Whitehead called creative transformation The contemporary theological tradition that has most systematically and coherently followed Whitehead s lead in its reflection on non Christian Ways is process theology which is perhaps the only liberal or progressive theological movement now active in the twenty first century *The Philosopher's Index*, 2008 Vols for 1969 include a section of abstracts

Question Of Meaning A Theological And Philosophical Orientation Book Review: Unveiling the Power of Words
