Searle** Dirk Franken, Attila Karakus, Michel, Jan G. Michel, 2013-05-02 John R. Searle is one of the world's leading philosophers. During his long and outstanding career he has made groundbreaking and lasting contributions to the philosophy of language, to the philosophy of mind as well as to the nature, structure and functioning of social reality. This volume documents the 13th Münster Lectures on Philosophy with John R. Searle. It includes not only 11 critical papers on Searle's philosophy and Searle's replies to the papers but also an original article by John R. Searle on his overall philosophical enterprise entitled 'The Basic Reality and the Human Reality'. I think Münster is probably unique among contemporary universities in its ability to produce such a high level of philosophical production from their philosophy students. John R. Searle. *Last Thoughts* Henri Poincaré, 1900 Henri Poincaré is a

mathematician physicist philosopher and engineer born April 29 1854 in Nancy and died July 17 1912 in Paris He has carried out works of major importance in optics and in infinitesimal calculus His advances on the problem of the three bodies make him a founder of the qualitative study of systems of differential equations and chaos theory he is also a major precursor of the theory of special relativity and the theory of dynamical systems Henri Poincaré is considered one of the last great universal scholars mastering all branches of mathematics of his time and some branches of physics This book gathers here various articles and lectures that Henri Poincaré himself intended to form the fourth volume of his works of philosophy of science All the previous ones had already appeared in this collection It would be useless to recall their prodigious success The most illustrious of modern mathematicians has been an eminent philosopher one of those whose books profoundly influence human thought It is probable that if Henri Poincaré himself had published this volume he would have modified certain details removed some repetitions But it seemed to us that the respect due to the memory of this great death forbade any editing of his text

**Paid to Think** David Goldsmith, 2012-10-23 Have you ever thought about the fact that a craftsman has more and better tools to solve challenges on the job than the leader of a business or organization does Leadership tools are usually defined as computers spreadsheets data and even experience but in reality leaders need thinking tools that are hard to come by so they find themselves hunting and pecking for answers in books at seminars through on the job training programs from mentors and at business schools and still they're left with gaps Surely most leaders are good at what they do but the daily challenges of their jobs like accelerating growth increasing productivity driving innovation doing more with less and balancing work with life don't come with some sort of leadership toolkit until now In *Paid to Think* international consultant David Goldsmith presents his groundbreaking approach to leadership and management based on research revealing the twelve specific activities that all leaders perform on a daily basis and he provides you with each activity's accompanying tools and instructions proven to boost your performance and that of your entire organization Take the uncertainty out of everyday leading convert ideas to realities and maximize your intellectual value Learn how decision makers at some of the world's most successful organizations have already used *Paid to Think*'s universal and easily transferable tools regardless of their industries sectors geographic locations or management levels as their greatest advantages in achieving more earning more and living more
