Questionnaires In Second Language Research Construction Administration And Processing:

Questionnaires in Second Language Research Zoltán Dörnyei, Tatsuya Taguchi, 2009-12-04 Questionnaires in Second Language Research Construction Administration and Processing is the first guide in the second language field devoted to the question of how to produce and use questionnaires as reliable and valid research instruments It offers a thorough overview of the theory of questionnaire design administration and processing made accessible by concrete real life second language research applications This Second Edition features a new chapter on how an actual scientific instrument was developed using the theoretical guidelines in the book and new sections on translating questionnaires and collecting survey data on the Internet Researchers and students in second language studies applied linguistics and TESOL programs will find this book invaluable and it can also be used as a textbook for courses in quantitative research methodology and survey research in linguistics psychology and education departments

Questionnaires in Second Language Research Zoltán Dörnyei, 2014-04-08 One of the most common methods of data collection in second language research is using questionnaires of various kinds In spite of the wide application of questionnaires in the second language field there does not seem to be sufficient awareness in the profession about the theory of questionnaire design and processing The usual and in most cases false perception is that anybody with a bit of common sense can design good questionnaires and the practice of questionnaire design and use has remained largely uninformed by theory As a consequence it is all too common to see that studies which start out with exciting research questions are spoiled by the application of badly designed questionnaires and or a lack of reliable and valid results due to faulty processing One reason for the lack of sufficient awareness of questionnaire theory among language researchers is the absence of relevant summaries and training materials in the second language literature The purpose of the current book is to fill this gap The book is motivated by very practical purposes namely to help researchers to increase the efficiency of their questionnaires and to avoid possible pitfalls Accordingly special care has been taken to avoid unnecessary jargon to make the text accessible and to relate everything to real life situations Illustrated by concrete examples the book offers a thorough but accessible overview of the theory of questionnaire design and administration and processing with a special view on second language research applications The conclusion summarizes the main points of questionnaire theory in a straightforward checklist that offers an easy to use tool for researchers Researchers and students in TESOL and second language programs and applied linguistics with secondary markets in other language research e g child language will find this book useful

Questionnaires in Second Language Research Zoltán Dörnyei, Jean-Marc Dewaele, 2022-11-21 Questionnaires in Second Language Research is the first state of the art methodological guide for producing and using questionnaires as reliable and valid research instruments in second language studies Zoltán Dörnyei and Jean-Marc Dewaele provide a comprehensive reader friendly overview of the theory of questionnaire design administration and processing made accessible with a detailed how to guide and concrete real life

applications This new edition is thoroughly updated to reflect developments in the field and with recent example studies that focus on considerations challenges and opportunities raised at all stages of the research process by online questionnaires There is also expanded detailed guidance on how to use the IRIS database and how to clean process and analyze questionnaire data prior to determining and reporting findings This is an invaluable resource to students and researchers of SLA applied linguistics psychology and education who are interested in understanding and conducting quantitative L2 research using questionnaires and surveys Questionnaires in Second Language Research Zoltan Dornyei,2023

Migration and Language Education in Southern Europe Eleni Griva, Maria Moutzi, Marina Mattheoudakis, 2021-10-04 The entry of migrant populations to Europe and especially to countries of Southern Europe is expected to drastically change the make up of state school classes as learners of various ages ethnic backgrounds and mother tongues are going to co exist within the same educational setting In Greece in particular the landscape of education has already started changing as a significant number of immigrant students have joined mainstream classrooms This volume maps this new educational reality and its challenges as Greek teachers are required with very limited training and resources to address those students educational and socio emotional needs All chapters are authored by Greek researchers who are actively involved in the study of refugees and immigrants education their needs and their educational linguistic and political rights Despite the fact that education for immigrants and refugees has become the focus of much research on a global level the ongoing rapid rise of immigrant populations in Southern Europe has not been adequately researched This book consequently meets the need for further research and empirical studies in this field

Identity Trajectories of Adult Second Language Learners Cristiana Palmieri, 2018-12-07 This book explores the motivations of adult second language L2 learners to learn Italian in continuing education settings in Australia It focuses on their motivational drives learning trajectories and related dynamics of identity development triggered by the learning process Central to the study are adult L2 learners who are still a largely under researched and growing group of learners and readers will gain a better understanding of the learning process of this specific group of learners and ideas for sustaining L2 adult learning motivation in continuing education settings Furthermore the book discusses the role played by the Italian migrant community in Australia in making Italian a sought after language to learn It explores how a migrant community may influence motivation and highlights and expands on the notion of L2 learning contexts showing the existence of sociocultural environments where second language learning trajectories are affected by the presence of migrant groups

Handbook of Research on Effective Online Language Teaching in a Disruptive Environment LeLoup, Jean W., Swanson, Pete, 2021-11-26 The COVID 19 pandemic radically and rapidly and perhaps forever changed the K 20 educational landscape

In March 2020 K 12 schools and institutions of higher education were forced to pivot quickly to online and remote teaching. This new paradigm resulted in many teachers regardless of content area being unprepared. In the field of second language teaching and learning, world language and TESOL educators require the investigation of techniques used during the global pandemic to ensure continued success in online teaching practice. The Handbook of Research on Effective Online Language Teaching in a Disruptive Environment provides strong and cogent guidance in the use of pedagogically sound methods of online language instruction. This book builds an innovative knowledge base about teaching during disruptive times in the context of K 20 language learning that is supported with empirical evidence. Covering topics such as online work engagement, reflective practice and flipped classroom methods, this handbook serves as a powerful resource for instructors of English language arts and TESOL. TESOL professionals, pre-service teachers, professors, administrators, instructional designers, curriculum developers, students, researchers and academicians.

Language, Aging and Society Lihe Huang, Boyd

Davis, 2024-10-24. This book explores how studies of language and aging can be applied to build an aging friendly society, drawing on the socio-pragmatic turn in language and aging to examine the perspectives of older adults experiencing aging through a linguistic lens. Research on the phenomenon and mechanisms of language in aging can provide older adults with language training, increase their active aging and offer improved information communication channels for an aging society which will bring a series of clinical and social benefits to handle problems in aging and language across the world. This book will be of interest to researchers in linguistics, sociology, gerontology and related fields.

Explicit Learning in the L2 Classroom Ronald P. Leow, 2015-02-20. Explicit Learning in the L2 Classroom offers a unique five-prong theoretical, empirical, methodological, pedagogical and model building approach to the issue of explicit learning in the L2 classroom from a student-centered perspective. To achieve this five-prong objective, the book reports the theoretical underpinnings, empirical studies and the research designs employed in current research to investigate the constructs of attention and awareness in SLA with the objectives to: 1) propose a model of the L2 learning process in SLA that accounts for the cognitive processes employed during this process and 2) provide pedagogical and curricular implications for the L2 classroom. The book also provides a comprehensive treatise of research methodology that is aimed at not only underscoring the major features of conducting robust research designs with high levels of internal validity but also preparing teachers to become critical readers of published empirical research.

Advancing Methodology and Practice Alison Mackey, Emma Marsden, 2015-11-19

Instruments for Research into Second Languages is an accessible introduction to understanding and evaluating existing and emerging methodologies in L2 research. The book provides an introduction to the data collection materials available in the IRIS database. IRIS is an open access searchable repository of instruments used to elicit data for research into second and foreign language learning and teaching. The book is aimed at graduate students, researchers and educators in the fields of Applied Linguistics and Second Language Acquisition. Featuring contributions from top scholars in the field, this dynamic

volume includes empirical research carried out using innovative instruments held in IRIS offering insights into their basic mechanics how and why they are used as well as the challenges they can present The chapters describe the kinds of data evidence about knowledge processing interaction learning and motivation that result from these methods and they discuss conditions that lead to reliable and valid data collection and analysis This unique collection provides researchers professionals and students with up to date responses to practical and theoretical questions about how second language learning and teaching can be investigated using the IRIS database of instruments IRIS was funded by the Economic and Social Research Council and is a long term British Academy Research Project Informal Learning of English at University
