delivers such a result that the theory must be seen as an extension of Popper's rational process discarded. In this way we come at the same time close to theory elimination to the border between science and non-science as Popper's naive falsifiability knows only one theory is scientific if it is falsifiable. It is thus in this way the elimination of what is weak. The so-called scientific to bring additional evidence to sophisticated falsifiability in contrast knows only bears in vindication of the theory the theory elimination in combination with the acceptance would thereby take on the character of an unification of an alternative. According to sophisticated falsifiability challengeable certainty of belief religion falsifiability a scientific theory T_1 is only abandoned. Following Popper others such as Kuhn with done if its place is taken by another theory T_2 his paradigm theory have considerably extended which has the following three characteristics 1 the range of thought over what is scientific and T_2 has more empirical content than T_1 the new what is not
