Berger, 2011-06-07 Peter L Berger is arguably the best known American sociologist living today Since the 1960s he has been publishing books on many facets of the American social scene and several are now considered classics So it may be hard to believe Professor Berger's description of himself as an accidental sociologist But

that in fact accurately describes how he stumbled into sociology In this witty intellectually stimulating memoir Berger explains not only how he became a social scientist but the many adventures that this calling has led to Rather than writing an autobiography he focuses on the main intellectual issues that motivated his work and the various people and situations he encountered in the course of his career Full of memorable vignettes and colorful characters depicted in a lively narrative often laced with humor Berger's memoir conveys the excitement that a study of social life can bring The first part of the book describes Berger's initiation into sociology through the New School for Social Research a European enclave in the midst of Greenwich Village bohemia Berger was first a student at the New School and later a young professor amidst a clique of like minded individuals There he published The Social Construction of Reality with colleague Thomas Luckmann one of his most successful books followed by The Sacred Canopy on the sociology of religion also still widely cited The book covers Berger's experience as a globe trekking sociologist including trips to Mexico where he studied approaches to Third World poverty to East Asia where he discovered the potential of capitalism to improve social conditions and to South Africa where he chaired an international study group on the future of post Apartheid society Berger then tells about his role as the director of a research center at Boston University For over two decades he and his colleagues have been tackling such important issues as globalization the secularization of Europe and the ongoing dialectic between relativism and fundamentalism in contemporary culture What comes across throughout is Berger's boundless curiosity with the many ways in which people interact in society This book offers longtime Berger readers as well as newcomers to sociology proof that the sociologist s attempt to explain the **Transformation by Integration** Perry Schmidt-Leukel, 2009 A number of people world is anything but boring experience their own spiritual lives as being inspired by more than one religious tradition This title looks at a number of issues involved what it means theologically to move beyond tolerance towards a genuine appreciation of other religions and how multi religious identity can be assessed theologically On the Scope and Truth of Theology Robert Cummings Neville, 2006-06-05 This is the first volume of Robert Cumming Neville's magnum opus Theology as Symbolic Engagement Neville is the premier American systematic theologian of our time His work is profoundly influenced by Paul Tillich Friedrich Schleiermacher and the American pragmatists John Dewey and Charles Sanders Pierce From Tillich he takes the notion of religion art and morality as symbol and the notion that religion is the substance of culture and culture the form of religion Thus theology is symbolic engagement with cultural forms and Neville explores the ways that such engagement occurs among various religious traditions One of the most important tasks in theology is to devise ways of testing correcting or affirming claims that we had been unable to question before This book will argue that system in theology is not merely correlating assertions but rather building perspectives from which we can render the various parts of theology vulnerable for assessment In fact one of the unique features of this book is its engagement with other religions Such dialogue has been a feature of Neville's work from the beginning Theology as Symbolic Engagement breaks the boundaries of systematic theology

and moves away from the static character that characterizes such enterprises from Barth onward Instead Neville s book showcases the dynamic character of all theology The hallmark of this entire project is its effort to show theology to be The Anthem Companion to Peter Berger Jonathan B. hypothetical and to make it vulnerable to correction Imber, 2023-01-10 Peter L Berger 1929 2017 was among the most prominent sociologists of the past half century He co authored with Thomas Luckmann The Social Construction of Reality considered to be a modern classic of social science His work on social theory the sociology of religion third world development and the role of capitalism in modern life define his enduring importance as a leading figure in social science Berger established an international reputation for his various studies of economic development in different parts of the world including Central America and South Africa the Church Paul M. Zulehner, 2018-04-01 Scepticism disappointment renunciation the situation of the church seems more volatile than ever Paul M Zulehner however is convinced that it is not the church that is in crisis but the changing times demand a reshaping In a run through the history of the Christian Church and Culture he shows that Christianity has often come to crossroads at which renewal and departure were necessary. The key to rebirth he sees in powerful visions In the gospel and in art in poetry and myth he finds stimuli which encourage finding new pathways With this book Zulehner gives Christians incentives for a church committed to the future Meditating true to life and practical his vision calls for a resurrection of the church Live Today perhaps we have so much discontent in some parts of the worldwide church because we lack motivating visions Structures are indispensable for the incarnation of a vision in history But they are not a substitute for visions The present church reorganisation concerns more structures than visions We speak more about money than God Of course Churches have to make structural adjustments And only if these are done the Churches start thinking about visions As Saarinen teaches we should look at things the other way round **Sociology** Anthony Giddens, Philip W.
