**Critical Thinking and Communication** Barbara Warnick,Edward S. Inch,1994 Legal Argumentation and Evidence Douglas Walton,2010-11-01 A leading expert in informal logic Douglas Walton turns his attention in this new book to how reasoning operates in trials and other legal contexts with special emphasis on the law of evidence The new model he develops drawing on methods of argumentation theory that are gaining wide acceptance in computing fields like artificial intelligence can be used to identify analyze and evaluate specific types of legal argument In contrast with approaches that rely on deductive and inductive logic and rule out many common types of argument as fallacious Walton s aim is to provide a more expansive view of what can be considered reasonable in legal argument when it is construed as a dynamic rule governed and goal directed conversation This dialogical model gives new meaning to the key notions of relevance and probative weight with the latter analyzed in terms of pragmatic criteria for what constitutes plausible evidence rather than truth **Posthumanism and Deconstructing Arguments** Kieran O'Halloran,2017-04-21 Posthumanism and

Deconstructing Arguments Corpora and Digitally driven Critical Analysis presents a new and practical approach in Critical Discourse Studies Providing a data driven and ethically based method for the examination of arguments in the public sphere this ground breaking book Highlights how the reader can evaluate arguments from points of view other than their own Demonstrates how digital tools can be used to generate ethical subjectivities from large numbers of dissenting voices on the world wide web Draws on ideas from posthumanist philosophy as well as from Jacques Derrida Gilles Deleuze and Felix Guattari for theorising these subjectivities Showcases a critical deconstructive approach using different corpus linguistic programs such as AntConc WMatrix and Sketchengine Posthumanism and Deconstructing Arguments is essential reading for lecturers and researchers with an interest in critical discourse studies critical thinking corpus linguistics and digital humanities

**Argumentation and Advocacy**,2006 Moral Engagement in Public Life Sharon L. Bracci,Clifford G. Christians,2002 Ethical evaluation of language and action has relied historically on the western monocultural assumptions of classical ethical theory But persistent contemporary critiques undermine the moral force of ethical agency as individualistic autonomous and rationalistic Contributors to Moral Engagement in Public Life take up the search for intellectual resources in light of these challenges by explicating twelve theorists in moral philosophy and communication ethics Two classical theorists Aristotle and Confucius provide longstanding themes of ongoing relevance and serve as a point of departure for ten contemporary thinkers whose own perspectives are in part a response to classical thought in the current context Together

these theorists expand the conceptual domain crossculturally and internationally for understanding ethical discourse and action in practical and professional life      *Thinking Critically About the Kennedy Assassination* Michel Jacques

Gagné,2022-03-27 *Thinking Critically About the Kennedy Assassination* uses the tools of critical thinking historical research and philosophical inquiry to debunk the many myths and conspiracy theories surrounding JFK s shocking and untimely death As we approach the 60th anniversary of the violent public assassination of President John F Kennedy over half of all Americans surveyed continue to believe that he was killed by a conspiracy involving multiple assassins Through its reasoned and detailed analysis of the content and evolution of JFK conspiracy narratives this book also serves as a comprehensive case study of paranoid reasoning and modern mythmaking The book s opening chapters lay out the official academic consensus concerning the Kennedy assassination better known as the Lone Gunman Theory and discuss the origins of popular interpretations of Kennedy s life and death such as the nostalgic myth of Camelot the unsympathetic Irish Mafia narrative and the many conspiracy theories critical of both Subsequent sections scrutinize the alleged motives of leading conspiracy suspects the ballistic forensic and medical evidence related to JFK s murder and the most popular proofs of an enduring government cover up The book concludes that no clear evidence exists to suggest that JFK was the victim of a conspiracy and ends with a discussion of the causes and consequences of paranoid thinking in contemporary public discourse This volume will appeal to students of history politics psychology and cultural and media studies and to a broader audience interested in American history critical thinking and conspiracy thinking      **Cases on Teaching Critical Thinking through Visual Representation Strategies** Shedletsky, Leonard J.,Beaudry, Jeffrey S.,2014-03-31 One of the most important aspects of a comprehensive education involves teaching students to analyze arguments and form their own opinions based on available information Visual and graphical mapping strategies are useful in helping students to consider problems from a variety of perspectives *Cases on Teaching Critical Thinking through Visual Representation Strategies* brings together research from scholars and professionals in the field of education to provide new insights into the use of visual aids for student development in reasoning and critical thinking This essential reference source will enable academics researchers and practitioners in fields such as education business and technology to more effectively foster students critical thinking skills      **Critical Thinking: The Basics** Stuart Hanscomb,2023-06-28 *Critical Thinking The Basics* is an accessible and engaging introduction to the field of critical thinking drawing on philosophy communication and psychology Emphasising its relevance both to academic literacy and to decision making in a range of contexts this book introduces and explains the knowledge methods and skills needed to identify and avoid poor reasoning reconstruct and evaluate arguments and engage constructively in dialogues Topics covered include The relationship between critical thinking emotions and the psychology of persuasion The role of character dispositions such as open mindedness courage and self knowledge Argument identification and reconstruction Fallacies and argument evaluation This second edition has been revised and updated throughout and includes

an additional chapter on the relationship between critical thinking and emotions There are also new sections on concepts such as the experiential mind and need for cognitive closure and contemporary examples drawn from issues including conspiracy theories the pandemic and misuses of social media With updated and expanded discussion questions exercises and suggestions for further reading at the end of each main chapter this book is an essential read for students approaching the field of critical thinking for the first time and for the general reader wanting to improving their thinking skills and decision making abilities
