## **Rebuilding Romania Energy Efficiency And Economic Transition:**

**Rebuilding Romania** Walter C. Patterson,1994 **Bulgaria, Hungary, Romania, the Czech Republic, and Slovakia** Britannica Educational Publishing,2013-06-01 Bulgaria Hungary Romania the Czech Republic and Slovakia share a remarkably similar trajectory on their individual paths to becoming the nations they are today Each had ties to the Roman Byzantine and Ottoman empires in earlier times all became Eastern bloc countries in the 20th century and all successfully emerged from Communist rule in the late 20th and early 21st centuries These multi layered lands where folk traditions still exist alongside the hallmarks of modern life and the remnants of communist rule are the subjects of this sweeping tome

**Eastern Europe Since 1970** Bulent Gokay,2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region

*Donor Coordination of Economic Assistance to Eastern Europe* Gerrit Stratmann,2000 A major restriction to Western aid efforts has been a lack of coordination This book delves into the determinants of successful cooperation between bi and multilateral donor agencies at the example of Western aid to Eastern Europe in the period from 1990 to 1996 In raising the assumption that networking between international organizations cannot be stimulated by appealing to norm oriented behavior but is contingent upon the existence of common interests the idealist view of international relations is seriously challenged Comparing different assistance sectors energy telecoms mass privatization agriculture statistics central banking environment and education it is shown that donor coordination is a form of collective action initiated by donors in response to sectoral market failure which is perceived as significant because it threatens the non attainment of basic goals or inflicts own projects with high costs or risks

**Dilemmas of Transition** Susan Baker,Petr Jehlicka,2015-02-12 This volume explores the impact of democratization and marketization on the environment in East Central Europe The essays investigate how the twin processes of change affect the physical environment the expression of environmental interest and environmental management policies

**Environmental Problems in East-Central Europe** Frank Carter,David Turnock,2002-09-26 In this new edition the progress made in the last decade to solve the environmental problems described in the first edition is assessed The attempts to bring environmental legislation into line with West European norms is also described Environmental Problems of East Central Europe looks at air and water pollution modern farming water supplies waste

management and landscape protection These topics are placed within economic social and political profiles as spending on a clean environment must be reconciled with welfare spending and the safeguarding of jobs European Union assistance civil society and the work of environmental NGOs are also discussed All of these matters are considered within the context of the wider geographical area and then by each individual country including the previously communist states lying to the west of the Soviet Union now with the former federal states of Czechoslovakia and Yugoslavia broken up into seven different entities and a review of the former Soviet Union with particular reference to the Baltic States Environmental Problems in East Central Europe provides a wealth of up to date reference material with a vast amount of supporting literature on environmental conditions and the functioning of civil society and a map of each country The environment is being taken seriously by them all such is the influence of the Rio sustainability agenda in general and the EU environmental acquis in particular The book reveals that Eastern Europe is not a blighted area but in some respects has a higher biodiversity than Western Europe Although there is enormous waste and inefficiency in energy use people actually consume relatively little and the East therefore has some lessons for the West in terms of managing on the bases of fair share of the earth s resources

**The East European Economy in Context** David Turnock,2003-09-02 Since 1989 the former communist countries of Eastern Europe have witnessed a profound and dramatic upheaval The economic coherence of this region formerly maintained through the adoption of the Soviet system of government has fractured In The East European Economy in Context Communism and Transition David Turnock examines the transition from communist to free market economies both within and between the states of Eastern Europe As well as containing an informative survey of the impact of communism The East European Economy in Context provides Political profiles of individual countries A clear study of the contrasts between northern and balkan groups Summaries of regional variations in the transition process An exploration of the new state structures and resources Discussion of political stability inter ethnic tensions and progress in economic change **East**

**Central Europe and the Former Soviet Union** David Turnock,2024-11-01 Since 1898 the former communist countries of Eastern Europe have gained international prominence The continuing socio economic transition and the instability evident in areas like the Caucasus and Former Yugoslavia have drawn the western world into uneasy interactions with the region At the same time closer commercial and cultural contacts are providing opportunities for rewarding relationships which have now resulted in many of these countries joining the EU This book provides detailed coverage of the transition from communism to a market economy Covering the whole range of East Central European and former Soviet Union countries it charts the diversity within the region offering in depth coverage of specific areas as well as a broad view of development across the region The book is organised into three comprehensive sections the historical socio economic and environmental The socio economic section considers the critical issues of restructuring to effect the transition from central planning to a market economy while the historical material provides an essential context for the constraints and opportunities affecting the region

The environmental section places emphasis on results of environmental neglect inherited from communism as well as looking to the future implications of EU directives on the problems of biodiversity and pollution in the region Journal of Scientific & Industrial Research ,1995 International Bibliography of Economics 1994 British Library of Political and Economic Science at the London School of Economics,1995 The IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences **Global Energy Transitions, with Emphasis on the Last Five Years of the Century** ,1996

Reconstructing the Balkans Derek R. Hall,Darrick Danta,1996-10-21 The past few years have seen the re emergence of the Balkans as the cockpit of Europe The break up of Yugoslavia the regional conflict between ethnic groups the creation of new states like Slovenia and the transformation of existing ones like Albania have made the area of prime importance in geopolitical terms once again Reconstructing the Balkans looks at the complex and rapidly changing human geography of the Balkans and considers the cultural social and political geographies of the region and its neighbours It provides both an examination of the history of the Balkans emphasising ethnicity and nationality issues and an evaluation of the historical and geographical roots of contemporary Balkan disputes from a range of national viewpoints Written by acknowledged experts in the field the book assesses some of the geographical consequences of the region s conflicts and analyses the post socialist restructuring reconstruction and reconfiguration regionwide and country by country It also gives projections of likely regional development trends This is a unique book as it represents diverse viewpoints from a wide range of ethnic national and disciplinary approaches It draws upon expertise from the USA the UK and everyone concerned with the Balkan regions making it essential reading for analysts and consultants in banks funding agencies and government departments It will also be of interest to advanced students of European Studies Geography International Relations Politics Development and History

The Energy Economy in Central and Eastern Europe in Transition ,1995 *New Scientist* ,1995 *Making Romania Fit and Resilient for the Net-Zero Transition* Augustus J Panton,2023-12-13 Romania is on track to become fit for 55 reducing its absolute emissions by 55 percent relative to 1990 by 2030 consistent with the European Green Deal However becoming carbon neutral by 2050 in an economically resilient and competitive manner would require an accelerated decarbonization path especially in the transport and building sectors two emission intensive sectors that are projected to raise Romania s carbon footprint over time The analysis presented in this paper shows that complementing the existing decarbonization measures with further national carbon pricing instruments in these sectors could put Romania on track to carbon neutrality Crucially these complementary measures would incentivize green private investment and boost energy security while enhancing Romania s resilience and unlocking its potential in the global green value chains **Central and South-Eastern Europe 2003** Europa Publications,2002 An in depth survey of the region presenting the latest economic and political developments It includes expert comment on issues of regional importance up to date statistics a directory of institutes and

companies and political profiles      **New Scientist and Science Journal** ,1995      **Central and South-Eastern Europe**  
**2004** Europa Publications,2003 Comprises a general survey of the region country surveys political profiles of the region and  
information on international and regional organizations and research institutes      *Balkan Reconstruction* Daniel  
Daianu,Thanos Veremis,2014-06-03 Focusing scholarly attention on a little known area of Europe the book brings together  
analysts with an insider s view to examine the short and long term challenges facing the region the intricate relationship  
between politics and economics and the irrelevance of quick fixes in the postwar reform of Southeast Europe      **Climate**
