Gerston, Mary Currin-Percival, Garrick L. Percival, 2022-08-02 California went through a political earthquake of sorts when the state recalled Governor Gray Davis in 2003 In 2021 the state faced another political turning point with the threatened recall of Governor Gavin Newsom Less than two years after Newsom's overwhelming election victory more than two million Californians signed on to the recall effort hoping to expel him from office in a special election How could such a monumental turnabout be possible Normally the political headwinds would be much too strong for a movement to oust a governor who had decisively vanquished his opponent But with the COVID 19 pandemic dominating every aspect of society including politics these weren t normal times Organizing a recall election is a demanding enterprise it takes abundant political energy tremendous amounts of anger with the status guo and mounds of money Yet for the second time in less than two decades such wheels were set in motion What is it that makes California so dynamic yet so fragile This book explains that paradox and in the process enlightens readers about the recall process the challenges of federalism and the pitfalls of direct democracy It examines the underlying conditions that expose a state with poorly linked institutions a bitterly divided society and a governor who had to act under nearly impossible conditions demonstrating his strengths and vulnerabilities along the way It s a story that could happen only in California a state with a history of only stories Designed to be useful in a variety of college courses this book is the first to unveil the Newsom backstory and will appeal to pundits and politicos as well as interested general readers
