Publisher description **Jan van Eyck**

within His Art Alfred Acres,2023-06-26 A new assessment of the inventive and influential artist Jan van Eyck

Jan van Eyck 1390 1441 was one of the most inventive and influential artists in the entire European tradition The realism of his paintings

continues to astound observers more than six centuries on even though our world is saturated by high resolution images

However viewers today are as likely to be absorbed by Van Eyck's personality as his realism While he sometimes directly

painted himself into his works he also suggested his presence through an array of inscriptions signatures and even a personal motto Incorporating a wealth of new research and recent discoveries within a fresh exploration of the paintings themselves

this book reveals how profoundly Jan van Eyck transformed the very idea of what an artist could be **The Art of Copying**

Art Penelope Jackson,2022-08-26 This book is a study of the history role and significance of copying art Copies have enjoyed

a different status from authentic artworks and though often acknowledged very rarely have they been considered collectively

as a genre in their own right This volume showcases a variety of examples from copies of famous artworks made and used as

props in movies to those made innocently by student artists as part of their training Examining the motivations for making

copies and reflecting on the reception of copies is central to this book Copies have historically filled voids in collections

where some sadly languish and have become a curatorial burden In other cases having a copy assists in conservation projects

and fills the place of a lost work Ultimately by interrogating a copy's role and intent we might ask ourselves if viewing a copy

changes our experience and perception of an artwork **La peinture ancienne et ses procédés** Anne Dubois,2006 Ces

Actes du Colloque XV pour l'étude du dessin sous-jacent et de la technologie dans la peinture Bruges 11 13 septembre 2003

reunissent trente-six études traitant d'œuvres d'art flamand, espagnol, portugais, italien et français Ces études sont suivies

comme dans les Actes précédents d'une bibliographie de l'infrarouge Depuis de nombreuses années on sait que la peinture ancienne est constituée outre d'œuvres dites originales de copies, de repliques et de pastiches produites dans des ateliers

actifs qui faisaient appel à des collaborations Les bases sur lesquelles on avait fondé jadis les catalogues des maîtres sont ébranlées De nombreuses attributions doivent être revues Les auteurs du présent volume ont porté leur effort dans ce sens

examinant d'un œil critique le statut des peintures et les indices qui permettent de reconnaître l'original de la copie Certains auteurs traitent de procédés de copies de l'usage de cartons modèles et papiers perforés mais également de couleurs d'encre et d'enduits de technique picturale D'autres auteurs tentent de préciser le nombre de collaborateurs dans les ateliers D'autres encore s'intéressent à une méthode d'examen comme la radiographie pour l'exploiter afin de distinguer au mieux la main du maître de celle du copiste **Northern Renaissance Art** Susie Nash,2008-11-27 The history of northern Renaissance

art from the late 14th to the early 16th century drawing on a rich range of sources to show how northern European art

dominated the visual culture of Europe in this formative period *Materials, Methods, and Masterpieces of Medieval Art*
Janetta Rebold Benton,2009-08-27 A comprehensive and informed analysis explores the startlingly diverse and sophisticated fine arts in the Middle Ages Materials Methods and Masterpieces of Medieval Art provides a comprehensive and detailed analysis of the work done by artists in western Europe during the Middle Ages Art historian Janetta Rebold Benton uses examples such as the Book of Kells Bury Saint Edmunds Cross and the Bayeux Tapestry and the work of artists such as Jan van Eyck and Giotto to explore the various media available to medieval artists and the ways in which those media were used to create a stunning array of masterworks Although the visual arts of the Middle Ages were extremely colorful today much of that color has diminished or disappeared the pigments and threads faded the gold abraded the silver tarnished Materials Methods and Masterpieces of Medieval Art allows these works to sparkle once more **Conservation of Easel Paintings**

Janet Marstine,Oscar Ho Hing Kay,2021-12-30 Curating Art provides insight into some of the most socially and politically

impactful curating of historical and contemporary art since the late 1990s It offers up a museological framework for understanding watershed developments of curating in art museums Representing the plurality of theory and practice around the expanded field of relational curating the book focuses on curating that prioritises the quality of relationships between people and objects between institutions and people and among people It has wide international breadth with particularly strong representation in East and Southeast Asia including four papers never before translated into English This Asian cluster illuminates the globalisation of the field and challenges dichotomies of East and West while acknowledging distinctions within specific but often transnational cultural spheres The compelling philosophical perspectives and case studies included within Curating Art will be of interest to students and researchers studying curating exhibition development and art museums The book will also inspire current and emerging curators to pose challenging but important questions about their own practice and the relationships that this work sustains

Anonymous Art at Auction Anne-Sophie V.

Radermecker,2021-05-25 Working with a data set accounting for 13 000 auction sales results Anne Sophie V Radermecker explores what contemporary buyers value when purchasing paintings of unknown or uncertain authorship and which variables influence price formation mechanisms in this market segment The principle finding of this book is not only that historical names matter in the art market but so do all other alternative identification strategies that art market players use to label anonymous paintings Indirect names provisional names and spatiotemporal designations function as substitutes for real names that simulate identities create ex post stories around the artworks offered for sale and consequently reduce information asymmetry about an artist s identity with at time quite unexpected effects on price

Making Copies in European Art 1400-1600 ,2018-11-26 Making Copies in European Art 1400 1600 comprises sixteen essays that explore the form and function manner and meaning of copies after Renaissance works of art The authors construe copying as a method of exchange based in the theory and practice of imitation and they investigate the artistic techniques that enabled and facilitated the production of copies They also ask what patrons and collectors wanted from a copy which characteristics of an artwork were considered copyable and where and how copies were stored studied displayed and circulated Making Copies in European Art in addition to studying many unfamiliar pictures incorporates previously unpublished documentary materials
