application of IRT based software like BILOG Parscale Iteman 4 and others to real testing problem solving is confined to an extremely small band of people In this sense PROMS2012 meets an important need in that it provides an excellent introduction of IRT and its application And anyone who is seriously interested in research and development in the field of psychometrics or language testing will find such a symposium and related workshops to be an excellent source of information about the application of Rasch Model PROMS2012 focuses on recent advances in objective measurement and provides an international forum on both the latest research in using Rasch measurement and non Rasch practice
