Greek and Roman Classics in the British Struggle for Social Reform Henry Stead,Edith Hall,2015-06-18 Greek and Roman Classics in

the British Struggle for Social Reform presents an original and carefully argued case for the importance of classical ideas education and self education in the personal development and activities of British social reformers in the 19th and first six decades of the 20th century Usually drawn from the lower echelons of the middle class and the most aspirational artisanal and working class circles the prominent reformers revolutionaries feminists and educationalists of this era far from regarding education in Latin and Greek as the preserve of the upper classes and inherently reactionary were consistently inspired by the Mediterranean Classics and contested the monopoly on access to them often claimed by the wealthy and aristocratic elite The essays several of which draw on previously neglected and unpublished sources cover literary figures Coleridge the Cockney Classicist poets including Keats and Dickens different cultural media burlesque theatre body building banner art poetry journalism and fiction topics in social reform the desirability of revolution suffrage poverty social exclusion women s rights healthcare eugenics town planning race relations and workers education as well as political affiliations and agencies Chartists Trade Unions the WEA political parties including the Fabians the Communist Party of Great Britain and the Labour Party The sixteen essays in this volume restore to the history of British Classics some of the subject s ideological complexity and instrumentality in social progress a past which is badly needed in the current debates over the future of the discipline Contributors include specialists in English Literature History Classics and Art

Ancient Monuments and Modern Identities Sofia Voutsaki, Paul Cartledge, 2017-04-28 Ancient Monuments and Modern Identities sets out to examine the role of archaeology in the creation of ethnic national and social identities in 19th and 20th century Greece The essays included in this volume examine the development of interpretative and methodological principles guiding the recovery protection and interpretation of material remains and their presentation to the public The role of archaeology is examined alongside prevailing perceptions of the past and is thereby situated in its political and ideological context The book is organized chronologically and follows the changing attitudes to the past during the formation expansion and consolidation of the Modern Greek State The aim of this volume is to examine the premises of the archaeological discipline and to apply reflection and critique to contemporary archaeological theory and practice The past however is not a domain exclusive to archaeologists The contributors to this volume include prehistoric and classical archaeologists but also modern historians museum specialists architectural historians anthropologists and legal scholars who have all been invited to discuss the impact of the material traces of the past on the Modern Greek social imaginary

Ancient Plaster Abbey L. R. Ellis, Emma Payne, 2025-07-02 Ancient Plaster Casting Light on a Forgotten Sculptural Material offers a fresh exploration of plaster in the sculpture of the ancient Mediterranean and beyond Challenging the traditional focus on marble and bronze this volume reveals the crucial role of plaster both in the sculptor s workshop and as a medium for finished sculpture Combining academic insights with contemporary artists perspectives the book also delves into the controversial topic of life casting in antiquity and provides groundbreaking new interpretations of well known plaster objects such as those from the Roman city

of Baiae near Naples With chapters extending the chronological and geographical scope to early modern Europe and contemporary art school contexts the book illuminates plaster s versatility and the continuity of its use across millennia By rehabilitating this material often overlooked or lost to the archaeological record the volume offers a transformative view of ancient sculpture appealing to both scholars and art enthusiasts alike **Cities and the Grand Tour** Rosemary

Sweet,2012-10-04 A fascinating study of how British travellers experienced described and represented the cities they visited on the Grand Tour **Walter Pater and the Language of Sculpture** Lene ?termark-Johansen,2017-07-05 Walter Pater

and the Language of Sculpture is the first monograph to discuss the Victorian critic Walter Pater s attitude to sculpture It brings together Pater s aesthetic theories with his theories on language and writing to demonstrate how his ideas of the visual and written language are closely interlinked Going beyond Pater s views on sculpture as an art form this study traces the notion of relief rilievo and hybrid form in Pater and his view of the writer as sculptor a carver in language Alongside her treatment of rilievo as a pervasive trope Lene termark Johansen also employs the idea of rivalry paragone more broadly examining Pater s concern with positioning himself as an art critic in the late Victorian art world Situating Pater within centuries of European aesthetic theories as never before done Walter Pater and the Language of Sculpture throws new light on the extraordinary complexity and coherence of Pater s writing The critic is repositioned solidly within Victorian art and literature **Casting the Parthenon Sculptures from the Eighteenth Century to the Digital Age** Emma M.

Payne,2021-04-08 Through the 19th century as archaeology started to emerge as a systematic discipline plaster casting became a widely adopted technique newly applied by archaeologists to document and transmit discoveries from their expeditions The Parthenon sculptures were some of the first to be cast In the late 18th century and the first years of the 19th century the French artist Fauvel and Lord Elgin s men conducted campaigns on the Athenian Acropolis Both created casts of parts of the Parthenon sculptures that they did not remove and these were sent back to France and Britain where they were esteemed and displayed alongside other original sections Henceforth casting was established as an essential archaeological tool and grew exponentially over the course of the century Such casts are now not only fascinating historical objects but may also be considered time capsules capturing the details of important ancient works when they were first moulded in centuries past This book examines the role of 19th century casts as an archaeological resource and explores how their materiality and spread impacted the reception of the Parthenon sculptures and other Greek and Roman works Investigation of their historical context is combined with analysis of new digital models of the Parthenon sculptures and their casts Sensitive 3D imaging techniques allow investigation of the surface markings of the objects in exceptionally fine detail and enable quantitative comparative studies comparing the originals and the casts The 19th century casts are found to be even more accurate but also complex than anticipated through careful study of their multiple layers we can retrieve surface information now lost from the originals through weathering and vandalism *Sculpture, Sexuality and History* Jana Funke,Jen Grove,2019-01-04

This book investigates the wide ranging connections between sculpture sexuality and history in Western culture from the eighteenth century to the present Sculpture has offered a privileged site for the articulation of sexual experience and the formation of sexual knowledge As historical objects sculptures also draw attention to the different ways in which knowledge about sexuality is facilitated through an engagement with the past Bringing together contributors from across disciplines including art history classics film studies gender studies history literary studies museum studies queer theory and reception studies the volume presents original readings of sculptural art in relation to antiquarianism aesthetics collecting cultures censorship and obscenity psychoanalysis sexology and the experience and regulation of museum spaces It examines how sculptural encounters were imagined and articulated in literature painting film and science As a whole the book opens up a new understanding of the ways in which sculptures as real or imagined objects have fundamentally shaped approaches to and receptions of the past in relation to sex gender and sexuality Chapters 8 and 10 of this book are available open access under a CC BY 4 0 license at link springer com

The Villa Dei Papiri at Herculaneum Carol C. Mattusch, Henry Lie, 2005 The Villa dei Papiri at Herculaneum buried during the eruption of Mt Vesuvius in A D 79 then rediscovered in 1750 contained a large collection of bronze and marble statuary and busts Before they were published or exhibited the sculptures were restored so as to appear whole it is thus that they helped to shape early modern tastes in classical sculpture The book describes the nature of the ancient sculptures and their impact on the modern public Their chance discovery affected the interpretation of the statues their styles and subjects over the course of the next 250 years The ancient sculptures were copied extensively in reproductions of various sizes and patinas The author traces the popularity of these copies in Europe and America Also presented in the book is a technical study of the production techniques and materials of the sculptures as well as of their modern restoration history Scientific analyses and detailed photographs reveal both how the pieces were cast and pieced together in antiquity and how they were restored in the eighteenth century Even though this collection has been known for two and a half centuries this book covers for the first time the eclectic nature of the sculptures their actual condition and their quality pointing in some cases to mass production
