Seeing Mahler: Music and the Language of Antisemitism in Fin-de-Siècle Vienna K.M. Knittel, 2016-04-01. No one doubts that Gustav Mahler's tenure at the Vienna Court Opera from 1897-1907 was made extremely unpleasant by the antisemitic press. The great biographer Henry Louis de La Grange acknowledges that it must be said that antisemitism was a permanent feature of Viennese life. Unfortunately, the focus on blatant references to Jewishness has obscured the extent to which ordinary attitudes about Jewish difference were prevalent and pervasive yet subtle and covert. The context has been lost wherein such coded references to Jewishness would have been immediately recognized and understood. By painstakingly reconstructing the language of antisemitism, Knittel recreates what Mahler's audiences expected, saw and heard given the biases and beliefs of turn of the century Vienna. Using newspaper reviews, cartoons and memoirs, Knittel eschews focusing on hostile discussions and overt attacks in themselves, rather revealing how and to what extent authors call attention to Mahler's Jewishness with more subtle language. She specifically examines the reviews of Mahler's Viennese symphonic premieres for their resonance with that language as codified by Richard Wagner, though not invented by him. An entire chapter is also devoted to the Viennese premieres of Richard Strauss's tone poems as a proof text against which the reviews of Mahler can also be read and understood. Accepting how deeply embedded this way of thinking was, not just for critics but for the general population, certainly does not imply that one can find antisemitism under every stone. What Knittel suggests ultimately is that much of early criticism was unease rather than objective reactions to Mahler's music, a new perspective that allows for a re-evaluation of what makes his music unique, thought provoking and valuable.

Siren Songs Mary Ann Smart, 2014-12-25. It has long been argued that opera is all about sex. *Siren Songs* is the first collection of articles devoted to exploring the impact of this sexual obsession and of the power relations that come with it on the music, words and staging of opera. Here a distinguished and diverse group of musicologists, literary critics and feminist scholars address a wide range of fascinating topics from Salome's striptease to hysteria to jazz and gender in Italian, English, German and French operas from the eighteenth to the twentieth centuries. The

authors combine readings of specific scenes with efforts to situate these musical moments within richly and precisely observed historical contexts Challenging both formalist categories of musical analysis and the rhetoric that traditionally pits a male composer against the female characters he creates many of the articles work toward inventing a language for the study of gender and opera The collection opens with Mary Ann Smart's introduction which provides an engaging reflection on the state of gender topics in operatic criticism and musicology It then moves on to a foundational essay on the complex relationships between opera and history by the renowned philosopher and novelist Catherine Clement a pioneer of feminist opera criticism Other articles examine the evolution of the trouser role as it evolved in the lesbian subculture of fin de siècle Paris the phenomenon of opera seria's absent mother as a manifestation of attitudes to the family under absolutism the invention of a hysterical voice in Verdi's *Don Carlos* and a collaborative discussion of the staging problems posed by the gender politics of Mozart's operas The contributors are Wye Jamison Allanboock Joseph Auner Katherine Bergeron Philip Brett Peter Brooks Catherine Clement Martha Feldman Heather Hadlock Mary Hunter Linda Hutcheon and Michael Hutcheon M D Lawrence Kramer Roger Parker Mary Ann Smart and Gretchen Wheelock

Modernism and the Cult of Mountains: Music, Opera, Cinema Christopher Morris, 2016-04-15 Adopting and transforming the Romantic fascination with mountains modernism in the German speaking lands claimed the Alps as a space both of resistance and of escape This new cult of mountains reacted to the symptoms and alienating forces associated with modern culture defining and reinforcing models of subjectivity based on renewed wholeness and an aggressive attitude to physical and mental health The arts were critical to this project none more so than music which occupied a similar space in Austro-German culture autonomous pure sublime In *Modernism and the Cult of Mountains* opera serves as a nexus shedding light on the circulation of contesting ideas about politics nature technology and aesthetics Morris investigates operatic representations of the high mountains in German modernism showing how the liminal quality of the landscape forms the backdrop for opera's reflexive engagement with the identity and limits of its constituent media not least music This operatic reflexivity in which the very question of music's identity is repeatedly restaged invites consideration of musical encounters with mountains in other genres and Morris shows how these issues resonate in Strauss's *Alpine Symphony* and in the Bergfilm mountain film By using music and the ideology of mountains to illuminate aspects of each other Morris makes an original and valuable contribution to the critical study of modernism
