course of life in the same way palm lines can't be same for two persons. The great palmist from Paris Disbarsolalas has declared that if anyone in the world gets me two people with same palm lines and I will make my life's will and wealth on his/her name. Everyone in the world has different lines. This is a definite and a universal fact. Every person has got his or her own destiny character. Even the twins have some dissimilarities between them. A palmist works like a doctor. A doctor treats the patient and cures his diseases. A palmist treats the mind of the patient which is more complicated than physical cure. Each body part of every human being created by that supreme God has its own special significance and purpose. God has created palm lines to know the life events. That is the reason finger prints never change but palm lines keep changing at various stages of our life. According to Shastras the first thing one should see in the morning after getting up from the bed is his/her own palm lines. Palmistry is a science, an art as well as a divine knowledge which helps one to understand the path of life. The knowledge of palmistry has been prevalent in Indian society its boundary since ages.
