The Technology Quarterly and Proceedings of the Society of Arts, 1901 Pastoralism and Socio-technological Transformations in Northern Benin Georges Djohy, 2017 Pastoralists throughout Africa face increasing pressures In Benin governmental development policies and programmes in crop farming are changing power relations between herders and farmers to favour the latter How are the Fulani pastoralists responding to these threats to their existence Georges Djohy explores the dynamics in local use of natural resources and in inter ethnic relations resulting from development interventions He combines the approaches of science and technology studies looking at the co construction of society and technology and political ecology looking at the power relations shaping the dynamics of economic environmental and social change so as to throw light on the forces of marginalisation adaptation and innovation at work in northern Benin Having worked there for many years Djohy has been able to uncover gradual processes of socio technological change that are happening behind the scenes of agricultural development involving mechanisation herbicide use tree planting land registration and natural resource conservation He reveals how farmers are using these interventions as weapons in order to gain more rights over larger areas of land in other words to support indigenous land grabbing from herders who had been using the land since decades for grazing He documents how the Fulani are innovating to ensure their survival e g by using new technologies for

transport and communication developing new strategies of livestock feeding and herd movement and developing complementary sources of household income The Fulani are organising themselves from local to national level to provide technological and socio cultural services manage conflicts and gain a stronger political voice e g to be able to achieve demarcation of corridors for moving livestock through cultivated areas They even use non functioning mini dairies another example of development intervention to demonstrate their modernity and to open up other opportunities to transform their pastoral systems This book provides insights into normally hidden technical and social dynamics that are unexpected outcomes of development interventions

1999 International Symposium on Technology and Society

IEEE Society on Social Implications of Technology, 1999 The theme of the symposium is Women and Technology Historical Societal and Professional Perspectives The roles of women in technology are more diverse controversial and important today than ever before Since the 1950s women have tried to technologically empower themselves particularly by entering the engineering profession They have done so in great numbers although today it is glaringly obvious that women are still underrepresented in engineering Women in the field still face gender based obstacles expectations and biases despite decades of efforts to eradicate these problems These issues are addressed

Pseudo-Science and Society in 19th-Century America Arthur Wrobel, 2021-10-21 Progressive nineteenth century Americans believed firmly that human perfection could be achieved with the aid of modern science To many the science of that turbulent age appeared to offer bright new answers to life s age old questions Such a climate not surprisingly fostered the growth of what we now view as pseudo sciences disciplines delicately balancing a dubious inductive methodology with moral and spiritual concerns disseminated with a combination of aggressive entrepreneurship and sheer entertainment Such sciences as mesmerism spiritualism homoeopathy hydropathy and phrenology were warmly received not only by the uninformed and credulous but also by the respectable and educated Rationalistic egalitarian and utilitarian they struck familiar and reassuring chords in American ears and gave credence to the message of reformers that health and happiness are accessible to all As the contributors to this volume show the diffusion and practice of these pseudo sciences intertwined with all the major medical cultural religious and philosophical revolutions in nineteenth century America Hydropathy and particularly homoeopathy for example enjoyed sufficient respectability for a time to challenge orthodox medicine The claims of mesmerists and spiritualists appeared to offer hope for a new moral social order Daring flights of pseudo scientific thought

even ventured into such areas as art and human sexuality And all the pseudo sciences resonated with the communitarian and women s rights movements This important exploration of the major nineteenth century pseudo sciences provides fresh perspectives on the American society of that era and on the history of the orthodox sciences a number of which grew out of the fertile soil plowed by the pseudo scientists Controlling Technology , African Science Education Jamaine Abidogun,2018-03-15 Based on interrogation and review of historical and current cultural and indigenous knowledge combined with extensive curriculum and classroom analysis this book identifies how indigenous science gender roles may be utilized to provide a more gender balanced and indigenous centered learning experience The book argues for the integration of African indigenous science into the secondary school curriculum as a way to strengthen students science comprehension by affirming their society s science contributions making clear connections between Indigenous and Western science and also as a way to promote female representation in the sciences This book will be of interest to scholars and practitioners of science education African education and indigenous knowledge *The Facts On File Encyclopedia of Science, Technology, and Society: E-N* Rudi Volti,1999 Volume two of a three volume set which contains alphabetically arranged entries that present science and technology in a wider context focusing on the historical cultural economic and sociological aspects of scientific topics Interconnections Between Eastern and Western Cultures 2018-01-28 Chapter Zero The Substitute Preface The Civilization of Sages and Worthies and Modern Civilization Knowledge of Wisdom Chapter One The Level of Worlds The Three Great Worlds of Matter Energy and Information 1 The Relationship between Matter Energy and Information 2 The Law of Period and Cycle 3 The pure information structure with no information structure II Altruism is Human Nature III The Universe is Unified in Ground State Information IV All Appearances are Empty and False Chapter Two The Generation of All Things in the Universe Lecture One Concerning the Evolution of the Universe Lecture Two Theories and Mechanism of Evolution I Evolutionary Theories in Eastern and Western Cultures The Cosmic String theory and Taiji Tu Shuo Exposition on the great wisdom in Yi Jing Emptiness is produced in the great perception Dao produces one the one produces two the two produces three II All Dharmas are the Creation of the Mind Chapter Three Problems Related to Epistemology I Several Problems concerning Epistemology 1 Water Knows proves the non duality of subject and object and unity of heaven and man 2 The pollution of human mind leads to environmental pollution 3 The Sudden insight in the History of Science 4 Direct manifestation and comparative manifestation II Understanding Concerning Time and Space III Sages Theories Concerning Knowledge Understanding of differences Turn consciousness into wisdom go from difference to non difference 3 Zhuang Zi s theory on knowledge 4 Desire based and desire free cognitive channels 5 The pursuit of learning and the pursuit of Dao 6 There is only one Only the self is solely honored Chapter Four Order and Disorder I The Open System II Stay Away from the Equilibrium State III Nonlinear Effect IV Fluctuation Effect V The Division of the Ten Dharma Realms VI Brief Introduction to the Four Basic Laws of Thermodynamics VII Development and Evolution VIII The
