Paul as a Prototype and Entrepreneur of Christian Identity Vuyani Stanley Sindo,2024-10-31 In this important addition to Pauline scholarship on 1 Corinthians Dr Vuyani Stanley Sindo brings fresh insight to how Paul's use of the in Christ terminology supports his argument on leadership and community Integrating social identity theory with a socio historical approach Dr Sindo examines how identity discourse is an integral part of the leadership discourse in 1 Corinthians 1-4 From this solid base he provides a close and insightful investigation of the interrelationship between leadership and identity This compelling and biblically rooted work will help Christians to understand the dangers of division within the church and how Christian leaders can overcome these divisions by reminding

the community of their common identity in Christ

The Collected Works of Edward Schillebeeckx Volume 5 Edward Schillebeeckx, 2014-09-25 *The Understanding of Faith* 1974 is certainly Schillebeeckx's most incisive English publication on theological hermeneutics. It contains his principal ideas on this subject in which he progressively evolved the hermeneutic thinking that he was to apply in due course in his famous Jesus books. The book centres on two issues: how should the Christian message of God's kingdom be read in our day and age and can a present day interpretation of that message still be considered Christian. In short, what are the possibilities and limits of the understanding of faith in our modern age. Of course hermeneutics as such was not new to Christian theology. Exegetes had been exploring interpretive processes for some time. Schillebeeckx's innovation was to extend hermeneutic thinking to the possibilities and limits of interpreting the entire Christian tradition including its definition in systematic theology. Inspired by the early Jürgen Habermas's new critical theory, Schillebeeckx also expands criticism of ideology in various directions. This was to influence generations of theologians after him right up to the present day.

Christianity and Social Scientific Perspectives on Sport Tom Gibbons, Stuart Braye, 2020-06-29 There has been a dramatic increase in academic research activity and practical initiatives on the topic of sports and Christianity and its cultural significance during the past decade. The Faculty of Health and Life Sciences at York St John University, York, UK, hosted the Inaugural Global Congress on Sports and Christianity (IGCSC) 24-28th August 2016 in collaboration with the Bible Society, at which there were 180 delegates from 22 countries in attendance. For the area of sports studies, the social scientific study of sport, there was a thematic strand at the congress titled Christian sociological perspectives on sport from which a special edition of the journal *Sport in Society* partially emanated. This book is based upon this journal special edition. The papers selected for inclusion in the special edition were purposely eclectic in order to demonstrate the diversity of current research occurring in the area of Christianity and social scientific perspectives on sport. The goal was to bridge divisions between various social science disciplines and theology or religious studies through varied novel and interesting explorations of sport in its various forms. We hope this collection inspires further studies into this area. The chapters in this book were originally published in a special issue in *Sport in Society*.

[The Creator of the Universe](#) Corrado Ghinamo, 2015-05-11 Are science and faith antithetic? Are the new discoveries in science making faith in God totter? Or can science be the basis for strong faith and the belief in a Creator? Discover how *The Creator of the Universe* is the author's original manuscript that gave birth to the book *The Beautiful Scientist*. This amazing book takes an interesting look at science and faith and how the two can work together to prove there is a Creator. Corrado Ghinamo believes it is the very existence of the universe that allows people to see there is a super entity, there is a God. He uses scientific evidence like the Big Bang Theory, the smallest particles of the universe, the galaxies, and what he calls the Super Force to prove just that God does exist. Creation and

evolution are not two separate ideals rather evolution is one of the means that God used and still uses in creating and governing the universe Ghinamo shows that God is a logical necessity to complete the vision of scientist s universe The same goes for people of faith there is scientific evidence that can further the existence of a Creator The Creator of the Universe A Scientific Approach to Christian Faith uses easy to understand language examples from everyday life and an easy to follow structure to prove that the universe far more beautiful and complex than people can imagine was in fact created by God and that evidence and rationality in science can lead to the belief in God

Integrative Approaches to Psychology and Christianity, Fourth Edition

David N. Entwistle,2021-11-03 Since the first edition of Integrative Approaches to Psychology and Christianity was published in 2004 this has become the standard textbook on the topic Now in its fully revised fourth edition Dr Entwistle s book elucidates historical philosophical and practical issues in the integration of psychology and Christianity As in previous editions the current text provides an introduction to many of the worldview issues and philosophical foundations that frame the relationship of psychology and theology includes scholarly reflection on the integration literature and surveys six models of possible relationships between psychology and Christianity ranging from those that are completely opposed to either religion or psychology to intermediate models that assert that some limited interaction between them is possible to viewpoints which suggest that a Christian worldview approach can be used to provide a context for exploring areas of overlapping interest between psychology and Christianity The current edition considers recent advances in both Catholic and Protestant thinking on integration including contemporary questions about what evangelicalism is and is not that shape evangelical reactions to the integration debate New content ranges from information about the contrasting views of Tertullian and Augustine to insights from contemporary psychology about factors that adversely affect the quality and reliability of human thinking to how conflict over COVID 19 has entered contemporary religious debate The book is designed to help readers become aware of the presuppositional backdrops that each of us brings to these issues Questions at the end of each chapter are included to help readers evaluate both the material and their own burgeoning approach to integration This book is ideal as a textbook for

students of psychology and other behavioral and social sciences social work sociology theology counseling pastoral counseling at both the graduate and undergraduate level It is also written for the broader readership of psychologists counselors pastors and others who are interested in integration **A Christian Theology of Science** Paul

Tyson, 2022-08-16 An author on the cutting edge of today's theology and science discussions argues that creedal Christianity has much to contribute to the ongoing conversation This book contains an intellectual history of theology's engagement with science during the modern period critiques current approaches and makes a constructive proposal for how a Christian theological vision of natural knowledge can be better pursued The author explains that it is good both for religion and for science when Christians treat theology as their first truth discourse Foreword by David Bentley Hart
