Universal Chronicles in the High Middle Ages Michele Campopiano, Henry Bainton, 2017 New perspectives on and interpretations of the popular medieval genre of the universal chronicle **Alfonso de la Torre's Visión Deleytable** Luis Girón-Negrón, 2021-07-26 The sources content and fate of the 15th century allegorical fable Visión Deleytable are examined from three angles as a medieval compendium of religious philosophy as a major influence in Spanish literature and as an invaluable historical source on Jewish Christian interactions in medieval Spain The volume is divided into three sections The first part considers Visión's didacticism within the Jewish and Christian frames of education in 15th century Spain The second part includes a review of Visión's philosophical content as a comprehensive articulation of a rationalist Weltanschauung The final section traces its intriguing editorial fate and literary influence through the 17th century in Spain Italy and the Netherlands It is Visión's first systematic study from the dual perspective of a Hispanist and a Hebraist *Imagining Iberia in English and Castilian Medieval Romance* Emily Houlik-Ritchey, 2023-02-06 An innovative comparative study of Middle English and medieval Castilian romance *The Medieval Chronicle 13*, 2020-04-28 Alongside annals chronicles were the main genre of historical writing in the Middle Ages Their significance as sources for the study of medieval history and culture is today widely recognised not only by historians but also by students of medieval literature and linguistics and by art historians The series *The Medieval Chronicle* aims to provide a representative survey of the on going research in the field of chronicle studies illustrated by examples from specific chronicles from a wide variety of countries periods and cultural backgrounds There are several reasons why the chronicle is particularly suited as the topic of a yearbook In the first place there is its ubiquity all over Europe and throughout the Middle Ages chronicles were written both in Latin and in the vernacular and not only in Europe but also in the countries neighbouring on it like those of the Arabic world Secondly all chronicles raise such questions as by whom for whom or for what purpose were they written how do they reconstruct the past what determined the choice of verse or prose or what kind of literary influences are discernable in them Finally many chronicles have been beautifully illuminated and the relation between text and image leads to a wholly different set of questions *The Medieval Chronicle* is published in cooperation with the Medieval Chronicle Society medievalchronicle.org

Queenship and Political Power in Medieval and Early Modern Spain Theresa Earenfight, 2017-03-02 Unlike empresses in Germany and queens in England and France the lives and political careers of most Iberian queens remain largely unknown to non specialists In this collection Theresa Earenfight brings together new research on medieval and early modern Spanish queens that highlights the distinctive political culture that resulted in forms of queenship similar to yet also substantially different from that of northern Europe The essays consider three aspects of queenship and politics the institutional foundations and practice of politics the politics of religion and religious devotion and the literary and artistic representations

of queenship and power Late medieval queens because they often occupied prominent and powerful offices such as the regency in Castile and Portugal and the Lieutenancy in the Crown of Aragon exemplify a unique form of queenship that can best be described as a political partnership Habsburg queens and empresses often excluded from such official political roles were less publicly visible but their power as partner to the king although shrouded remains potent Their political careers were the result of two forces first military circumstances brought about by territorial expansion conquest and second a political culture that did not explicitly prohibit queens from active participation in the governance of the realm The essays in this collection by both newer and well established scholars demonstrate the range and depth of current research on Iberian queenship and prompt a re examination of long held assumptions about women and the exercise of power in pre modern Spain

Memories of Colonisation in Medieval and Modern Castile Rebecca De Souza, 2024-10-31 Memories of Colonisation in Medieval and Modern Castile Rereading and Refashioning al Andalus traces the evolving memory of a dominant al Andalus in medieval Castilian and later modern Spanish literature and its overlap with contemporary formations of collective identity race and nation It presents a series of close readings of neomedievalist literary works that look back to the socioeconomic apogee of al Andalus the tenth century Umayyad Caliphate of Cordoba from the thirteenth to the nineteenth century These works rewrite what has become known as the story of the siete infantes de Lara although it is their Andalusí half brother Mudarra who takes centre stage from the early modern period on In its earliest form it is a story of a weak conflictual county of Castile dependent socioeconomically and morally upon Andalusí intervention This book therefore traces how a story of Castilian weakness is repeatedly rewritten once the reverse colonial dynamic had taken hold and Castile had begun conquering al Andalus Memories of Colonisation asks why Mudarra and the infantes continue to reappear in medieval chronicles from the *Estoria de España* to lesser known regional historiography early modern ballads comedias and nineteenth century Romantic poetry and prose By examining how each of these texts remember tenth century Iberia's fluid geographical and interracial boundaries it explores how they support or challenge dominant contemporary discourses of collective identity race and nation from the neogothic aspirations of thirteenth century Castile to the antisemitism of fifteenth century Toledo expansion in the Mediterranean the Islamophobia of the morisco expulsion and the partisan manipulation of al Andalus under nineteenth century liberalism As the first study of the development of Spanish neomedievalism it explores how this serves as a productive prescient discourse of cultural memory through which chroniclers poets playwrights and authors can look forward It questions the inevitability of Christian Castilian colonial hegemony by invoking a narrative of Christian Iberia's own subjugation by a superior Umayyad Caliphate It also explores how each text exposes the task of reconstructing historical memory in the present and thereby challenges the notion of a stable incontestable past for Castile and Spain

Friendship in Medieval Iberia Antonella Liuzzo Scorpo, 2016-04-15 Private and public relationships frequently labelled as friendships have always played a crucial role in human societies Yet over the centuries ideas and meanings of

friendship transformed adapting to the political and social climates of different periods Changing concepts and practices of friendship characterized the intellectual social political and cultural panorama of medieval Europe including that of thiteenth century Iberia Subject of conquests and Reconquest land of convivencia but also of political instability as well as of secular and religious international power struggles the articulation of friendship within its borders is a particularly fraught subject to study Drawing on some of the encyclopaedic vernacular masterpieces produced in the scriptorium of The Wise King Alfonso X of Castile 1252 84 this study explores the political religious and social networks inter faith and gender relationships legal definitions as well as bonds of tutorship and companionship which were frequently defined through the vocabulary and rhetoric of friendship This study demonstares how the values and meanings of amicitia often associated with classical Roman Visigothic and Eastern traditions were transformed to adapt to Alfonso X s cultural projects and political propaganda This book contributes to the study of the history of emotions and cultural histories of the Middle Ages while also emphasizing how Iberia was a peripheral but still vital ring in a chain which linked it to the rest of Europe while also occupying a central role in the historical and cultural developments of the Western Mediterranean

wisdom was considered by many in the medieval world as the father of culture Between c 300 BCE c 1200 CE various treatises were attributed to the legendary sage becoming known as the Hermetica a combination of diverse philosophical and spiritual systems addressing subjects such as alchemy magic and astrology The Hermetica circulated widely with premodern translations in Latin Hebrew Syriac Persian Arabic and other Eastern languages Whilst these iterations have been thoroughly researched little attention has been paid to the Castilian Hermes the first rendition of the wisdom traditions of Hermes Trismegistus in a Romance language This book follows the ways in which Hermetic knowledge was brought to the Iberian Peninsula showing how Hermes became the philosophical and spiritual inspiration for Christian Arabic and Jewish scholars there Udaondo Alegre unveils the pivotal role of King Alfonso X the Learned of Castile 1252-84 in creating this Spanish Hermes Through the meticulous tracing of source texts and literary influences the author explores the myriad ways in which Hermes crossed religious and linguistic boundaries to embody a composite intellectual identity emblematic of medieval Spain's multicultural ethos Alfonso's court is revealed as the site for a unique convergence of translation and interpretation that shaped a distinctly Hispanic Hermes

Contradictory Muslims in the Literature of Medieval Iberian Christians Marcelo E. Fuentes, 2023-12-03 This book argues that literary and historiographical works written by Iberian Christians between the twelfth and sixteenth centuries promoted contradictory representations of Muslims in order to advocate for their colonization through the affirmation of Christian supremacy Ambivalent depictions of cultural difference are essential for colonizers to promote their own superiority as explained by postcolonial critics and observed in medieval and early modern texts in Castilian Catalan and Portuguese such as the *Cantar de mio Cid* *Cantigas de Santa Maria* *Llibre dels fets* *Estoria de España* *Crónica geral de 1344* *Tirant lo Blanch* and *Os Lusadas* In all these works the contradictions of Muslim enemies allies and subjects allow Christian leaders to prevail and profit through their opposition and collaboration with them Such colonial dynamics of simultaneous belligerence and assimilation determined the ways in which Portugal Spain and later European powers interacted with non Christians in Africa Asia and even the Americas

Iberian Babel: Translation and Multilingualism in the Medieval and the Early Modern Mediterranean ,2022-07-11 This book brings together translation and multilingualism underlining their connection while addressing their evolving history in medieval and early modern Iberia and the Mediterranean Herein lies its novelty and importance bringing together translation and multilingualism and studying them from a trans national point of view Both translation and multilingualism are an integral part of Iberian culture and have shaped its literary traditions and cultural production for centuries contributing to the transmission of knowledge and texts and to the formation of the religious linguistic and ethnic identities that came to define medieval and early modern Iberia Contributors are Jason Busic John Dagenais Emily C Francomano Marcelo E Fuentes Claire Gilbert Roser Salicr i Lluç Anita J Savo and Noam Sienna *The Aesthetics of Melancholia* Luis F. López González,2022-12-02 This book explores the intersection between medicine and literature in medieval Iberian literature and culture Its overarching argument is that thirteenth and fourteenth century Iberian authors revalorized the interconnection between the body the mind and the soul in light of the evolving epistemology of medicine Prior to the reintroduction of classical medical treatises through Arab authors into European cultures mental disorders and bodily diseases were primarily attributed to moral corruption demonic influence and superstition The introduction of novel regimens of health as well as treatises on melancholia into academic institutions and into the cultural landscape provided the tools for newly minted authors to understand that psychosomatic illnesses stemmed from malfunctions of the body s biochemical composition This book demonstrates that the earliest books written in the Iberian vernaculars contain the seeds that effect the shift from a theocentric worldview to a humanistic one The volume features close readings of multiple texts including medical treatises and religious writings and King Alfonso X s Cantigas de Santa Maria Juan Manuel s Conde Lucanor and Juan Ruiz s Libro de buen amor Even though these texts differ in literary genre rhetorical strategy and even purpose this study argues that they collectively employ humoral pathology and melancholic discourses as a means of underscoring the frailty and transience of human life by showing how somatic conditions sicken the body mind and soul unto death
