Photography after Photography Abigail Solomon-Godeau, 2017-03-23 Presenting two decades of work by Abigail Solomon Godeau *Photography after Photography* is an inquiry into the circuits of power that shape photographic practice criticism and historiography As the boundaries that separate photography from other forms of artistic production are increasingly fluid Solomon Godeau a pioneering feminist and politically engaged critic argues that the relationships between photography culture gender and power demand renewed attention In her analyses of the photographic production of Cindy Sherman Robert Mapplethorpe Susan Meiselas Francesca Woodman and others Solomon Godeau refigures the disciplinary object of photography by considering these practices through an examination of the determinations of genre and gender as these shape the relations between photographers their images and their viewers Among her subjects are the 2006 Abu Ghraib prison photographs and the Cold War era exhibition *The Family of Man* insofar as these illustrate photography's embeddedness in social relations viewing relations and ideological formations *Routledge Library Editions: James Joyce* Various Authors, 2022-07-30 This set reissues 8 books on James Joyce originally published between 1966 and 1991 The volumes examine many of Joyce's most respected works including *Finnegans Wake* *Dubliners* and *Ulysses* As well as providing an in depth analyses of Joyce's work this collection also looks at James Joyce in the context of the Modernist movement as a whole This set will be of particular interest to students of literature *AB Bookman's Weekly*, 1993

Bodily Discursions Deborah S. Wilson, Christine Moneera Laennec, 1996-12-05 *Bodily Discursions* offers a multiplicity of feminist perspectives on the body especially the female body from a variety of disciplines literary history social theory art history cultural studies the history of rhetoric film and literary criticism among others Subjects range from public punishment of outspoken women during the English Renaissance to current responses to the AIDS pandemic in the popular media Contributors include Alice E Adams Susanmarie Harrington Catherine Hobbs Cynthia Huff Cathy Peppers Roberta Schreyer Julie Shaffer Torri L Thompson Angela Wall Deborah S Wilson and Christine Moneera Laennec All of the essays offer variations on the same theme the idea that the body is a site for the production of political ideologies particularly in response to social exigencies and cultural crises However there is no single overarching ideological model here for feminism much less for reading the body in a specific historical or cultural moment *Bodily Discursions* offers instead a number of individual voices on a variety of issues and phenomena as they determine the configuration of the body This book demonstrates that society needs to pay attention to how the body is manipulated if we are to work for social progress and political justice for it is through our bodies that we all must articulate our experience and live our lives This topic is on the cutting edge of scholarship in both feminist and cultural studies It is an important contribution to a rapidly evolving field Elizabeth D Harvey University of Western Ontario **Masculinities in Theory** Todd W. Reeser, 2023-02-06 The new edition of the essential textbook on masculinity and representations of masculinity in the context of gender and cultural studies Popular

dialogues on gender and sexuality have evolved rapidly in recent decades and students are finding new and exciting opportunities to examine gender and sexuality from critical perspectives

Masculinities in Theory: An Introduction Second Edition synthesizes existing approaches to the study of masculinity and presents new theoretical models that enable a deeper and more nuanced investigation of the diverse forms of masculine identity. In this text, students are invited to investigate the constructs of masculinity they encounter in their own lives, offering a way for students to parse the varied and conflicting views on masculinity they may encounter in their communities, in the media, and in history. Now in its second edition, *Masculinities in Theory* has been fully updated to bring this overview of masculinity studies up to date with modern views and contemporary contexts. The text shines a light on new cases for examination drawn from popular culture and current events, including the masculinities of Trump and Putin, Indigenous masculinities, and the influence of the Black Lives Matter movement on concepts of masculinity. An entirely new chapter on trans masculinities is complemented by a thoroughly revised chapter on the experience of affective masculinities. This valuable work covers key theories applicable to gender studies in interdisciplinary humanities and social science programs. Demonstrates the complex nature of masculinity from cultural and theoretical perspectives. Examines how the work of Butler, Derrida, Foucault, and other theorists can be used to interpret and analyze masculinity. Discusses feminist, queer, transgender, postcolonial, and ethnic studies in relation to masculinity. Offering a clear, concise, and comprehensive introduction to the field, *Masculinities in Theory* Second Edition is the ideal textbook for courses on masculinity, as well as general courses in gender studies, sexuality studies, and cultural studies. It is also an excellent resource for interdisciplinary courses in literature, art history, film, communications, linguistics, sociology, anthropology, psychology, history, and philosophy programs.

D. H. Lawrence Greiff, Louis K, 2001. Greiff also evaluates the films as social and cultural documents, showing why they had such an effect on filmmakers and audiences during certain phases in American and Anglo-European history. Significantly, the films were not spread evenly throughout these decades but appeared in clusters.
