Scott Foresman Social Studies Carol Berkin, 2003-06-01 Scott Foresman Social Studies Carol Berkin, Wendell E. Pritchett, Jim Cummins, Steve Sheinkin, Pearson Education, Inc, Scott, Foresman and Company, Pearson/Scott Foresman, 2008 Student textbook and teacher's edition **New York** Carol Berkin, 2004 **The Social Studies Wars** Ronald W. Evans, 2004-01-01 Ronald Evans describes and interprets the continuing battles over the purposes, content, methods, and theoretical foundations of the social studies curriculum. This fascinating volume addresses the failure of social studies to reach its potential for dynamic teaching because of a lack of consensus in the field, links the ever-changing rhetoric and policy decisions to their influence on classroom practice, and helps to clarify the meaning, direction, and purposes of social studies instruction in schools. Schoolbook Nation Joseph Moreau, 2010-02-22 A superior book. Many readers will be surprised to see that today's arguments about history education follow the culture wars that go back to almost the beginning of the republic. Moreau's writing is engaging with brilliant flashes of insight as well as balance and wit. Gary B. Nash, Director of the National Center for History in the Schools. Taking Frances FitzGerald's textbook study *American Studies* as a point of departure, Joseph Moreau in *Schoolbook Nation* challenges FitzGerald's premise that the 1960s were the beginning of the end of the glory days of American history education. Moreau recounts how in the late twentieth century cultural commentators such as historian Arthur Schlesinger Jr. and politician Newt Gingrich preached that a new identity crisis had shaken American history in the sixties and that the grand unified view of our past had given way to various interest groups who dismantled the old national narrative while demanding a more inclusive curriculum for their children. Moreau discovered, however, that American history while grand has never been unified. Delving into more than 100 history books from the last 150 years, the author reveals that the efforts of pressure groups to influence the history curriculum are nearly as old as the mustiest textbook. For those who would influence textbooks and teaching: Protestant elites in the 1870s, Irish Americans in the 1920s, and conservative politicians today, the sky has always been falling. According to Moreau, *Schoolbook Nation* offers a history lesson of its own: when the story of the past is written or rewritten, truth is often a victim. With its comprehensive treatment of the subjects of honesty and politics in the teaching of history, this is an essential book on the side of truth in a complex debate. A Selected and Annotated Bibliography of Recent Air Age Education Textbooks United States. Civil Aeronautics Administration, 1950 **Democratic Education for Social Studies** Anna S. Ochoa-Becker, 2006-12-01 In the first edition of this book published in 1988, Shirley Engle and I offered a broader and more democratic curriculum as an alternative to the persistent back-to-the-basics rhetoric of the 70s and 80s. This curriculum urged attention to democratic practices and curricula in the school if we wanted to improve the quality of citizen participation and strengthen this democracy. School practices during that period reflected a much lower priority for social studies. Fewer social studies offerings, fewer credits required for graduation, and in many cases the job descriptions of social studies curriculum

coordinators were transformed by changing their roles to general curriculum consultants The mentality that prevailed in the nation s schools was back to the basics and the basics never included or even considered the importance of heightening the education of citizens We certainly agree that citizens must be able to read write and calculate but these abilities are not sufficient for effective citizenship in a democracy This version of the original work appears at a time when young citizens teachers and schools find themselves deluged by a proliferation of curriculum standards and concomitant mandatory testing In the 90s virtually all subject areas including United States history geography economic and civics developed curriculum standards many funded by the federal government Subsequently the National Council for the Social Studies issued the Social Studies Curriculum Standards that received no federal support Accountability captured in the No Child Left Behind Act passed by Congress has become a powerful political imperative that has a substantial and disturbing influence on the curriculum teaching and learning in the first decade of the 21st century

Personnel Journal ,1928 *Paul Robert Hanna* Jared R. Stallones,2013-11-01 Analyzing and ultimately placing in context Paul Hanna s vast contributions this book provides a richly textured narrative of his life and his major role in twentieth century American education and the development of modern American education Catalog of Copyright Entries.
