Scottish East Coast Potteries 1750 1840:

Scottish East Coast Potteries Patrick McVeigh, 1979 *APM - Archeologia Postmedievale, 19, 2015 - Gran Bretagna e Italia tra Mediterraneo e Atlantico: Livorno - 'un porto inglese' / Italy and Britain between Mediterranean and Atlantic worlds: Leghorn - 'an English port'* Hugo Blake, 2017-09-08 Livorno fu una creazione postmedievale di notevole successo. Diventò il più grande porto di transito del Mediterraneo e creò il concetto di porto franco in Europa. Costruita dai Granduchi Medici prosperò come la più importante base commerciale nel Mediterraneo per i Poteri nord atlantici. Tra questi il principale fu inglese, la cui Royal Navy garantì il suo successo commerciale e il predominio britannico nel Mediterraneo, un'area che era ancora la fonte di prodotti e beni di lusso e che forniva un mercato popoloso per le manifatture, i metalli, il pesce, le riesportazioni coloniali ed i servizi di trasporto inglesi. Questo volume raccoglie quattordici contributi che danno prove materiali della relazione della Gran Bretagna con Livorno e la Toscana. Livorno was a remarkably successful post medieval creation which became the greatest transit port in the Mediterranean and pioneered the concept of the free port in Europe. Built by the Medici Grand Dukes it prospered as the main commercial base in the Mediterranean for north Atlantic powers. Principal amongst these were the English whose Royal Navy ensured their commercial success and Britain's dominance of the Mediterranean, an area which was still the source of luxury produce and goods and provided a populous market for British manufactures, metals, fish, colonial re-exports and shipping. This volume brings together fourteen papers highlighting the material evidence of Britain's relationship with Livorno and Tuscany. **Mocha and Related Dipped Wares,**

1770-1939 Jonathan Rickard, 2006 An authoritative guide to the history and craft of this rare and much sought after ceramic ware **English Pottery 1620-1840** Robin Hildyard, 2005-08 Based around the matchless collections of British ceramics in the Victoria and Albert Museum which curators began to assemble as early as the 1840s, this book charts the story of their development from the simple slipware drinking vessel of the seventeenth century to the sophisticated enamelled and transfer printed tableware of the early 1800s. The narrative takes us through successive changes of taste and manners as British potters assimilated and adapted new and often disparate influences from Europe and the Far East. Ceramics ubiquitous, disposable and quintessentially domestic tended to reflect social changes quicker than other branches of the applied arts, for example new fashions in dining and the taking of tea were responsible for major aspects of design and decoration while the rapid rise of the Staffordshire figure enabled it to become a vehicle for satire, religion or the commemoration of wildly popular but ephemeral events such as boxing matches and visits from touring menageries. Keeping carefully chosen pieces illustrated at the forefront of his discussion, Robin Hildyard treats the subject variously by material, form, decoration or by broader theme, sometimes cutting across traditional boundaries in order to look behind established myths and the often misleading evidence of what has survived. The methods and history of manufacture are fully explored from the workshop of the independent village potter to the industrialized nineteenth century factory struggling with the stormy beginnings of trade.

unionism The complex trade in ceramics both at home and abroad and the transition from utilitarian household object to cherished item in collector s cabinet is also examined along with the symbiotic relationship between collector and museum This volume filling the gap in current ceramic literature between narrower scholarly studies and the opulent catalogues of private collections presents an expert and yet highly accessible view of a particularly rich seam of British material culture guiding us from familiar ground into wider and sometimes uncharted territory
