Department of Finance and Accounts,1913      **River City and Valley Life** Christopher J. Castaneda,Lee M.A. Simpson,2013-12-09 Often referred to as the Big Tomato Sacramento is a city whose makeup is significantly more complex

than its agriculture based sobriquet implies In River City and Valley Life seventeen contributors reveal the major transformations to the natural and built environment that have shaped Sacramento and its suburbs residents politics and economics throughout its history The site that would become Sacramento was settled in 1839 when Johann Augustus Sutter attempted to convert his Mexican land grant into New Helvetia or New Switzerland It was at Sutter s sawmill fifty miles to the east that gold was first discovered leading to the California Gold Rush of 1849 Nearly overnight Sacramento became a boomtown and cityhood followed in 1850 Ideally situated at the confluence of the American and Sacramento Rivers the city was connected by waterway to San Francisco and the surrounding region Combined with the area s warm and sunny climate the rivers provided the necessary water supply for agriculture to flourish The devastation wrought by floods and cholera however took a huge toll on early populations and led to the construction of an extensive levee system that raised the downtown street level to combat flooding Great fortune came when local entrepreneurs built the Central Pacific Railroad and in 1869 it connected with the Union Pacific Railroad to form the first transcontinental passage Sacramento soon became an industrial hub and major food processing center By 1879 it was named the state capital and seat of government In the twentieth century the Sacramento area benefitted from the federal government s major investment in the construction and operation of three military bases and other regional public works projects Rapid suburbanization followed along with the building of highways bridges schools parks hydroelectric dams and the Rancho Seco nuclear power plant which activists would later shut down Today several tribal gaming resorts attract patrons to the area while Old Sacramento revitalizes the original downtown as it celebrates Sacramento s pioneering past This environmental history of Sacramento provides a compelling case study of urban and suburban development in California and the American West As the contributors show Sacramento has seen its landscape both ravaged and reborn As blighted areas rail yards and riverfronts have been reclaimed and parks and green spaces created and expanded Sacramento s identity continues to evolve As it moves beyond its Gold Rush Transcontinental Railroad and government town heritage Sacramento remains a city and region deeply rooted in its natural environment

**The Napa River** Nancy McEnery,Nancy McEnery with the Napa County Historical Society,2012 During the mid 1800s the Napa River brought people to Napa City from around the world attracted by the beauty and bounty of the valley Riverboat captains played a major role in creating the material wealth of the city as their vessels plied the waters of San Francisco Bay carrying freight and passengers As the powerhouse of industry the river attracted several tanneries that needed water to make the now famous Nappa leather Napa became a leather colony with the growth of shoe glove and glue factories The river became a key transportation artery and its channel became the focus of greater dredging to allow larger ships to anchor downtown No longer a natural river able to meander it frequently overran its banks flooding towns Industry agricultural runoff and population growth caused the Napa River to become polluted and neglected into the 20th century Today the Napa River is the centerpiece of downtown renewal A Living River strategy is bringing back its

vitality along with fish and wildlife populations helping the river to regain its importance      **Bulletin** ,1959      **San Francisco Maritime State Historic Park** California.
