**Contemporary British Art** Grant Pooke, 2012-11-12 The last few decades have been among the most dynamic within recent British cultural history Artists across all genres and media have developed and re fashioned their practice against a radically changing social and cultural landscape both national and global This book takes a fresh look at some of the themes ideas and directions which have informed British art since the later 1980s through to the first decade of the new millennium In addition to discussing some iconic images and examples it also looks more broadly at the contexts in which a new post conceptual generation of artists those typically born since the late 1950s and 1960s have approached and developed aspects of their professional practice Contemporary British Art is an ideal introduction to the field To guide the reader the book is organised around genres or related practices painting sculpture and installation and film video and performance The first chapter explores aspects of the contemporary art market and some of the contexts within which art is made supported and exhibited The chapters that discuss various genres of art practice also mention books that may be useful to support further reading Extensively illustrated with a wide range of work both known and less well known from artists such as Chris Ofili Rachel Whiteread Damien Hirst Banksy Anthony Gormley Jack Vettriano Sam Taylor Wood Steve McQueen and Tracey Emin and many more *The Efficacy of Intimacy and Belief in Worldmaking Practices* Urmila Mohan, 2023-11-17 This book explores efficacious intimacy as an embodied concept of worldmaking and a framework for studying belief practices in religious and political domains The study of how beliefs make and manifest power through their sociality and materiality can reveal who or what is considered effective in a particular socio cultural context The chapters feature case studies drawn from diverse religious and political contexts in Asia Africa and the Americas and explore practices ranging from ingesting sacred water to resisting injustice In doing so the authors analyze emotions and affects and how they influence dynamics of proximity and distance Taking an innovative approach to the topic of intimacy the book offers a fascinating examination of how life worlds are constructed by material practices It will be of interest to scholars of anthropology religion and material culture *Scale in Contemporary Sculpture* Rachel Wells, 2017-07-05 The first book to devote serious attention to questions of scale in contemporary sculpture this study considers the phenomenon within the interlinked cultural and socio historical framework of the legacies of postmodern theory and the growth of global capitalism In particular the book traces the impact of postmodern theory on concepts of measurement and exaggeration and analyses the relationship between this philosophy and the sculptural trend that has developed since the early 1990s Rachel Wells examines the arresting international trend of sculpture exploring scale including American precedents from the 1970s and 1980s and work by the Young British Artists Noting that the emergence of this sculptural trend coincides with the end of the Cold War Wells suggests a similarity between the quantitative ratio of scale and the growth of global capitalism that has replaced the former status quo of qualitatively opposed systems This study also claims the allegorical nature of scale in contemporary sculpture outlining its potential for critique or complicity in a system dominated by quantitative criteria of value In a period characterised by

uncertainty and incommensurability Wells demonstrates that scale in contemporary sculpture can suggest the possibility of and even an unashamed reliance upon comparison and external difference in the construction of meaning

*The Contemporary Museum* Simon Knell, 2018-10-11 The Contemporary Museum issues a challenge to those who view the museum as an artefact of history constrained in its outlook as much by professional institutional and disciplinary creed as by the collections it accumulated in the distant past Denying that the museum can locate its purpose in the pursuit of tradition or in idealistic speculation about the future the book asserts that this can only be found through an ongoing and proactive negotiation with the present the contemporary This volume is not concerned with any present but with the peculiar circumstances of what it refers to as the global contemporary the sense of living in a globally connected world that is preoccupied with the contemporary To situate the museum in this world of real and immediate need and action beyond the reach of history the book argues is to empower it to challenge existing dogmas and inequalities and sweep aside old hierarchies As a result fundamental questions need to be asked about such things as the museum's relationship to global time and space to systems and technologies of knowing to the life well lived to the movement and rights of people and to the psychology permanence and organisation of culture Incorporating diverse viewpoints from around the world The Contemporary Museum is a follow up volume to Museum Revolutions and as such should be essential reading for students in the fields of museum and heritage studies cultural studies communication and media studies art history and social policy Academics and museum professionals will also find this book a source of inspiration

Wilk, 2006 Have you ever heard of the cream effect or witnessed the power of cultural backdraft Have you watched the slow process of fossilization or used the tactics of cultural stealth You might be waiting for just the right word to describe what you have seen and done This collection revitalizes the study of the cultural processes of stability and change The 25 essays invent new processes for a rapidly changing world They illustrate how different perspectives enrich cultural analysis and add a bit of playfulness and experimentation to a longstanding academic issue The authors from anthropology European ethnology sociology and cultural studies are peeking into blind spots and looking under the furniture in order to understand why and how some kinds of social life become visible while so many others remain unseen This book will inspire researchers and students to develop new approaches in cultural analysis This is a reprint of the journal *Ethnologia Europaea* Journal of European Eth
