Seeds of change Lester Russell Brown,1972 **Seeds of Change** Lester R. Brown,1970 SEEDS OF CHANGE LESTER R. BROWN,1970 **Seeds of change: the green revolution and development in the 1970's, foreword by E.R. Black** Lester Russell Brown, Integrated Rural Development John M. Cohen,1987 **The Green Revolution in the Global South** R. Douglas Hurt,2020-03-03 A synthesis of the agricultural history of the Green Revolution The Green Revolution was devised to increase agricultural production worldwide particularly in the developing world Agriculturalists employed anhydrous ammonia and other fertilizing agents mechanical tilling hybridized seeds pesticides herbicides and a multitude of other techniques to increase yields and feed a mushrooming human population that would otherwise suffer starvation as the world's food supply dwindled In The Green Revolution in the Global South Science Politics and Unintended Consequences R Douglas Hurt demonstrates that the Green Revolution did not turn out as neatly as scientists predicted When its methods and products were imported to places like Indonesia and Nigeria or even replicated indigenously the result was a tumultuous impact on a society's functioning A range of factors including cultural practices ethnic and religious barriers cost and availability of new technologies climate rainfall and aridity soil quality the scale of landholdings political policies and opportunism the rise of industrial farms civil unrest indigenous diseases and corruption entered into the Green Revolution calculus producing a series of unintended consequences that varied from place to place As the Green Revolution played out over time these consequences rippled throughout societies affecting environments economies political structures and countless human lives Analyzing change over time almost decade by decade Hurt shows that the Green Revolution was driven by the state as well as science Rather than acknowledge the vast problems with the Green Revolution or explore other models Hurt argues scientists and political leaders doubled down and repeated the same missteps in the name of humanity and food security In tracing the permutations of modern science's impact on international agricultural systems Hurt documents how beyond increasing yields the Green Revolution affected social orders politics and lifestyles in every place its methods were applied usually far more than once *Agrarian Evolution in a Multiform Structure Society* V. G. Rastyannikov,2024-12-06 India in the 1950s and 1960s with its diversity of economic structures and different levels of regional development offers a unique opportunity to explore a wide range of agrarian evolution within a multiform society Basing his study on an extensive survey of the existing literature as well as on fieldwork conducted in India the author analyses in his book *Agrarian Evolution in a Multiform Structure Society* first published in English in 1981 the roots of the Indian society and suggests future directions He argues that India like many Asian countries exhibits tendencies peculiar to an economy evolving on the basis of dependent capitalist development The author goes on to show how the state in seeking to ease the teething problems of development has assumed a decisive role expressed in terms of the nationalisation of certain sectors of private exploitative property and in the supersession of private interests by public ones The historically inevitable

progress of Indian society is therefore a paradoxical one because its economy exists on the periphery of its system moulding structure world capitalism it has special problems reconciled only by state intervention this in turn makes the development of a capitalist society impossible The result is a unique study of a society which has assumed increasing importance in world affairs **Rural Development** Chaudhry,2023-07-24 Water Resources and Agricultural Development in the Tropics

Christopher J. Barrow,2016-07-01 First published in 1988 There are many excellent texts on water supply and irrigation engineering irrigation economics agricultural development and the problems which often plague such efforts Few syntheses of such writings have been made despite a clear need for them from people interested in water resources and agricultural development students of geography economics development studies and agricultural management administrators planners and aid agency staff This book attempts to provide a broad interdisciplinary introduction for such people Titans of Industrial Agriculture Jennifer Clapp,2025-02-18 How a small handful of giant transnational corporations has come to dominate the farm inputs sector why it matters and what can be done about it Every year hundreds of billions of dollars worth of farm machinery fertilizer seeds and pesticides are sold to farmers around the world Although agricultural inputs are a huge sector of the global economy the lion s share of that market is controlled by a relatively small number of very large transnational corporations The high degree of concentration among these agribusiness titans is striking considering that just a few hundred years ago agricultural inputs were not even marketed goods In Titans of Industrial Agriculture Jennifer Clapp explains how we got from there to here outlining the forces that enabled this extreme concentration of power and the entrenchment of industrial agriculture Clapp reveals that the firms that rose to the top of these sectors benefited from distinct market technology and policy advantages dating back a century or more that enabled them to expand their businesses through mergers and acquisitions that made them even bigger and more powerful These dynamics matter because the firms at the top have long shaped industrial farming practices that in turn have generated enormous social ecological and health impacts on the planet and the future of food systems Beyond analyzing how these problems have arisen and manifested the book examines recent efforts to address corporate power and dominance in food systems and assesses the prospects for change Among the first works to examine deep roots of corporate power in agriculture Titans of Industrial Agriculture helps illuminate just how corporate actors have encouraged the lock in of industrial agriculture despite all its known social and ecological costs **The Development of Aid** Gerard Van Bilzen,2015-01-12 Aid to developing countries

started well before World War II but was undertaken as an ad hoc activity or was delivered by private organizations This changed after the War In his Inaugural Address in 1949 the American President Harry Truman announced a bold new programme for making the benefits of our scientific advances and industrial progress available for the improvement and growth of underdeveloped nations the so called Point IV Plan At that time it was thought that this support would be needed only for a limited number of years comparable to the Marshall Plan assistance to Europe But reality proved to be different

providing aid was a very long term affair Since the Fifties the aid provided has changed at different occasions In the beginning aid concentrated on constructing infrastructure such as roads railways dams and harbours in order to promote industrial development In the Sixties aid to agriculture was added and in the Seventies aid to social sectors Basic Needs was also provided The Eighties brought worldwide debt problems Major donors applied structural adjustment policies some called this the lost decade d cada perdida The Nineties saw the arrival of the first environmental considerations and asked for attention for the role of women and good governance The form of aid changed from projects to programmes and budget support Describing the different aid forms of the last 65 years and analysing why aid changed from time to time are the subjects of this book Professionals and students in the area of international cooperation will benefit from studying this history as at this moment old concepts are reappearing or applied by new donors like China Is the pendulum really swinging back as Louis Emmerij at one point suggested

Agrarian Crossings Tore C. Olsson, 2020-11-03 In the 1930s and 1940s rural reformers in the United States and Mexico waged unprecedented campaigns to remake their countrysides in the name of agrarian justice and agricultural productivity Agrarian Crossings tells the story of how these campaigns were conducted in dialogue with one another as reformers in each nation came to exchange models plans and strategies with their equivalents across the border Dismantling the artificial boundaries that can divide American and Latin American history Tore Olsson shows how the agrarian histories of both regions share far more than we realize He traces the connections between the US South and the plantation zones of Mexico places that suffered parallel problems of environmental decline rural poverty and gross inequities in land tenure Bringing this tumultuous era vividly to life he describes how Roosevelt s New Deal drew on Mexican revolutionary agrarianism to shape its program for the rural South Olsson also looks at how the US South served as the domestic laboratory for the Rockefeller Foundation s green revolution in Mexico which would become the most important Third World development campaign of the twentieth century and how the Mexican government attempted to replicate the hydraulic development of the Tennessee Valley Authority after World War II Rather than a comparative history Agrarian Crossings is an innovative history of comparisons and the ways they affected policy moved people and reshaped the landscape

War on Hunger , **Labor Developments Abroad** , 1972 Agrarian Radicalism in South India Marshall M. Bouton, 2014-07-14 The author finds that agrarian radicalism develops most readily in a way analogous to industrial class struggle through the economic clash of homogeneous and polarized groups within the agrarian sector Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Congressional Record United States. Congress, 1970 The Congressional

Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824, the *Register of Debates in Congress* 1824-1837, and the *Congressional Globe* 1833-1873. **A. I. D. Spring Review of Small Farmer Credit** United States. Agency for International Development, 1973. **Hearings, Reports and Prints of the House Committee on Science and Astronautics** United States. Congress. House. Committee on Science and Astronautics, 1974. *The World Bank and the Poor* A. van de Laar, 1980-05-31. The authors of a recent textbook on the Economics of Development P. A. Yotopoulos and J. B. Nugent 1976 chose as the title of their first chapter *The Record of Economic Development and Disillusionment with Development Economics*. It is striking that dissatisfaction with this young branch of the tree of economics has become so strong that a textbook treatment of the subject matter takes Disillusionment as its point of departure. True, the Disillusionment chapter is followed by many other chapters; there is after all some thing to be said on development economics that is worth saying, but the wording has changed and frequently the focus as well in comparison to the development economics of the 1950s and sixties. Dissatisfaction and disillusionment may be interpreted optimistically as an inevitable stage in the coming of age process of development economics. Others may say that the search for a new paradigm is the core of the problem. At any rate, there is no room for complacency. It cannot be denied that at least part of the early development theory came into being as a justification ex post of policy measures that for a variety of reasons were judged desirable or essential.

Unemployment and Underemployment in the Rural Sectors of the Less Developed Countries David L. Jessee, John Williams Mellor, Phillips Foster, Russell H. Brannon, United States.
