### **Heirloom Seeds and Their Keepers** Virginia D.

Nazarea, 2005-05-01 Farmers and gardeners have long appreciated a wide variety of plants and have nurtured them for meals healing and exchange But diversity too often has been surrendered to monocultures of fields and spirits predisposing much of modern agriculture to uniformity and consequently vulnerability Today it is primarily at the individual level such as growing and saving a strange old bean variety or a curious looking gourd that any lasting conservation actually takes place As scientists grapple with the erosion of genetic diversity of crops and their wild relatives old timey farmers and gardeners continue to save propagate and pass on folk varieties and heirloom seeds Virginia Nazarea focuses on the role of these seedsavers in the perpetuation of diversity She thoughtfully examines the framework of scientific conservation and argues for the merits of everyday conservation one that is beyond programmatic design Whether considering small scale rice and sweet potato farmers in the Philippines or participants in the Southern Seed Legacy and Introduced Germplasm from Vietnam in

the American South she explores roads not necessarily less traveled but certainly less recognized in the conservation of biodiversity Through characters and stories that offer a wealth of insights about human nature and society Heirloom Seeds and Their Keepers helps readers more fully understand why biodiversity persists when there are so many pressures for it not to The key Nazarea explains is in the sovereign spaces seedsavers inhabit and create where memories counter a culture of forgetting and abandonment engendered by modernity A book about theory as much as practice it profiles these individuals who march to their own beat in a world where diversity is increasingly devalued as the predictability of mass production becomes the norm Heirloom Seeds and Their Keepers offers a much needed scientifically researched perspective on the contribution of seedsaving that illustrates its critical significance to the preservation of both cultural knowledge and crop diversity around the world It opens new conversations between anthropology and biology and between researchers and practitioners as it honors conservation as a way of life *Official Gazette of the United States Patent and Trademark Office*

auditoriums in cramped cars across North Dakota and Montana and by train over the once fertile steppes of the Volga Amid the post World War I food insecurity Soviet and American agricultural experts relied on transnational networks bridging ideological differences As Soviets traveled across the US agricultural regions and Americans plowed steppes in the southern Urals and the lower Volga both groups believed that innovative solutions could be found beyond their own national borders Soviets were avidly interested in American technology and American agricultural experts perceived the Soviet Union to be an ideal setting for experimenting with and refining modern farm systems and organizational practices As Seeds of Exchange shows agricultural modernization was not the exclusive domain of Western countries

*Pilgrimage to Broken Mountain* Alan R. Sandstrom, Pamela Effrein Sandstrom, 2023-01-20 An ethnographic study based on decades of field research Pilgrimage to Broken Mountain explores five sacred journeys to the peaks of venerated mountains undertaken by Nahua people living in northern Veracruz Mexico Punctuated with elaborate ritual offerings dedicated to the forces responsible for rain seeds crop fertility and the well being of all people these pilgrimages are the highest and most elaborate form of Nahua devotion and reveal a sophisticated religious philosophy that places human beings in intimate contact with what Westerners call the forces of nature Alan and Pamela Sandstrom document them for the younger Nahua generation who live in a world where many are lured away from their communities by wage labor in urban Mexico and the United States Pilgrimage to Broken Mountain contains richly detailed descriptions and analyses of ritual procedures as well as translations from the Nahuatl of core myths chants performed before decorated altars and statements from participants Particular emphasis is placed on analyzing the role of sacred paper figures that are produced by the thousands for each pilgrimage The work contains drawings of these cuttings of spirit entities along with hundreds of color photographs illustrating how they are used throughout the pilgrimages The analysis reveals the monist philosophy that underlies Nahua religious practice in which altars dancing chanting and the paper figures themselves provide direct access to the sacred In the context of their pilgrimage traditions the ritual practices of Nahua religion show one way that people interact effectively with the forces responsible for not only their own prosperity but also the very survival of humanity A magnum opus with respect to Nahua religion and religious practice Pilgrimage to Broken Mountain is a significant contribution to several fields including but not limited to anthropology Indigenous literatures of Mesoamerica Nahuatl studies Latinx and Chicanx studies and religious studies

**An Anthropological Study of Spirits** Christine S. VanPool, Todd L. VanPool, 2023-05-28 This book discusses the cultural importance of spirits what spirits want and how humans interact with them using examples from around the world and through time Examples range from the vengeful spirits of the Zulu that cast lightning bolts from clear skies to punish wrongdoers to the benevolent Puebloan Kachina that encourage prosperity safety and rain in the arid American Southwest The case studies illustrate how humans seek to cooperate or counteract spirits to heal the physical and spiritual ailments of their people to divine the truth or to gain resources Building from their cross cultural analyses the authors further discuss how our physiology and psychology impact our interaction with the spirits Readers will come away with an appreciation of the beauty and power of the spirits that continue to shape the lives of people around the world

**Garden of the Soul** Mark Mah, 2014-03-13 The

stories of Jesus placed in the context of the familiar and factual are filled with metaphors that audiences can understand and appreciate. Metaphors not only inform and persuade but also fire up readers' imaginations and get them involved as participants. Humans are primed to think and feel metaphorically and so *Garden of the Soul* aims to metaphorically explore five landscapes that feature prominently in the Bible. Each metaphorical landscape throws light on an aspect of spiritual life. The bountiful garden speaks of growth, the flowing river calls for unceasing prayer, the raging sea mirrors the turbulence of a journey of faith, the barren desert transforms by emptying life's clutter, and the high mountain challenges readers to scale its peak to glimpse a transcendent vision of God. This book will inform, enrich, and challenge readers' spiritual lives throughout their journey from garden to mountain.

*Saving More Than Seeds* Catherine Phillips, 2016-04-01 *Saving More Than Seeds* advances understandings of seed people relations with particular focus on seed saving. The practice of reusing and exchanging seeds provides foundation for food production and allows humans and seed to adapt together in dynamic socio-natural conditions. But the practice and its practitioners are easily taken for granted even as they are threatened by neoliberalisation. Combining original ethnographic research with investigation of an evolving corporate seed order, this book reveals seed saving not only as it occurs in fields and gardens but also as it associates with genebanking, genetic engineering, intellectual property rights, and agrifood regulations. Drawing on diverse social sciences literatures, Phillips illustrates ongoing practices of thinking, feeling, and acting with seeds, raising questions about what seed people relations should accomplish and how different ways of relating might be pursued to change collective futures.

*Dwellings of Enchantment* Bénédicte Meillon, 2020-10-27 *Dwellings of Enchantment: Writing and Reenchanting the Earth* offers ecocritical and eco-poetic readings that focus on multispecies dwellings of enchantment and reenchant our rapport with the more-than-human world. It sheds light on the marvelous entanglements between humans and other life forms coexisting with us, entanglements that when fully perceived call onto humans to shift perspectives on both the causes and solutions to current ecological crises. Working against the disenchantment of humans' relationships with and perceptions of the world entailed by a modern ontology, this book illustrates the power of eco-poetics to attune humans to the vibrant matter both within and outside of us. Braiding indigenous with non-indigenous worldviews, this book tackles eco-poetics emerging from varying locations in the world. It underscores the postmodernist re-mythologizing processes going on in many eco-poetic texts via magical realist modes and mythopoeia.
