The Framers' Coup Michael J. Klarman, 2016-09-16 Americans revere their Constitution However most of us are unaware how tumultuous and improbable the drafting and ratification processes were As Benjamin Franklin keenly observed any assembly of men bring with them all their prejudices their passions their errors of opinion their local interests and their selfish views One need not deny that the Framers had good intentions in order to believe that they also had interests Based on prodigious research and told largely through the voices of the participants Michael Klarman's *The Framers Coup* narrates how the Framers' clashing interests shaped the Constitution and American history itself The Philadelphia convention could easily have been a failure and the risk of collapse was always present Had the convention dissolved any number of adverse outcomes could have resulted including civil war or a reversion to monarchy Not only does Klarman capture the knife's edge atmosphere of the convention he populates his narrative with riveting and colorful stories the rebellion of debtor farmers in Massachusetts George Washington's uncertainty about whether to attend Gunning Bedford's threat to turn to a European prince if the small states were denied equal representation in the Senate slave states' threats to take their marbles and go home if denied representation for their slaves Hamilton's quasi-monarchist speech to the convention and Patrick Henry's herculean efforts to defeat the Constitution in Virginia through demagoguery and conspiracy theories *The Framers Coup* is more than a compendium of great stories however and the powerful arguments that feature throughout will reshape our understanding of the nation's founding Simply put the Constitutional Convention almost didn't happen and once it happened it almost failed And even after the convention succeeded the Constitution it produced almost failed to be ratified Just as importantly the Constitution was hardly the product of philosophical reflections

by brilliant disinterested statesmen but rather ordinary interest group politics Multiple conflicting interests had a say from creditors and debtors to city dwellers and backwoodsmen The upper class overwhelmingly supported the Constitution many working class colonists were more dubious Slave states and nonslave states had different perspectives on how well the Constitution served their interests Ultimately both the Constitution's content and its ratification process raise troubling questions about democratic legitimacy The Federalists were eager to avoid full fledged democratic deliberation over the Constitution and the document that was ratified was stacked in favor of their preferences And in terms of substance the Constitution was a significant departure from the more democratic state constitutions of the 1770s Definitive and authoritative The Framers Coup explains why the Framers preferred such a constitution and how they managed to persuade the country to adopt it We have lived with the consequences both positive and negative ever since

September 11th proves the greatest threat to the United States is from foreign terrorists But the attacks on Fraunces Tavern Oklahoma City and the Boston Marathon were all executed by domestic terrorists Blindness or denial is an Achilles heel Is your husband brother father or best friend a terrorist Could they be part of a conspiracy that puts you and everyone you love in danger No No They are law abiding American citizens who would never hurt anyone on purpose How do you plan and execute a terrorist attack so devastating it makes Americans tremble How do you prevent the vast law enforcement resources of the United States from discovering your plans What can you do to ensure that no American feels safe anywhere The Mayan calendar mysteriously ends on December 21 2012 Domsday prophecies are everywhere Would that be a good day to trigger Armageddon The most dangerous people are the ones you suspect the least Is there a hidden side to that man tenderly holding your baby his baby or to that friend letting you sob on his shoulder or to that dad who taught you right from wrong and kissed you when you scraped your knee How do you find a terrorist who leaves no clues He could be anyone anywhere He might even be your partner helping you investigate the attacks The most devastating acts happen out in the open and are perpetrated by the people you least suspect Who are they Where are they **Poor's** ,1925 *Official Gazette*
