Grundy, 1992-08-24 The urban poor suffer many problems beyond pressing financial concerns including those involving housing health and family relationships Social welfare agencies struggle to cope with the enormity of need presented by individuals and families The providers frequently lack a framework to guide their priorities and the delivery of services This volume based on the authors close and extensive collaboration with New York s Lower East Family Union affords a substantive insightful and effective approach not only to defining the services needed but also to the delivery thereof It also examines the cognitive and emotional states which the clients bring as they seek help Means are provided for establishing priority of needs assessing the value of preventive services and formulating family specific service responses Potential family dissolution and implicit child welfare concerns are viewed as especially critical and receives extensive constructive discussion Stressed poverty level families often approach helping agencies in a nearly exhausted condition The needs of such clients can only be answered and the last straw avoided if the agencies are structured to identify the most immediate needs and to supply the understanding supportive relationship and the requisite practical assistance This book with its extensive base of experience guides the process wisely It offers informed hope that the awful conditions of the urban poor can be ameliorated through better planned and effective service delivery and caring interventions **Serving with the Urban Poor**, 1998 **Water Service Provision for the Peri-urban Poor in**

**Basic Needs and the Urban Poor** P. J. Richards, A. M. Thomson, 2017-10-12 Originally published in 1984 The diverse problems suffered by the urban poor in Asia and the means by which their welfare levels can be raised are investigated comprehensively in this study All chapters written by specialists deal with a particular subject but the general theme remains that the factors causing urban poverty and low income levels are interconnected and transmitted from one generation to another It is intended that this study will lead to discussion of the problems involved in providing services for the urban poor and result in the increased responsiveness of urban management This title will be of interest to students of urban and development studies

**The Urban Poor in Latin America** Marianne Fay, 2005 About half of the region's poor live in cities and policy makers across Latin America are increasingly interested in policy advice on how to design programmes and policies to tackle poverty This publication argues that the causes of poverty the nature of deprivation and the policy levers to fight poverty are to a large extent site specific It therefore focuses on strategies to assist the urban poor in making the most of the opportunities offered by cities such as larger labour markets and better services while helping them cope with the negative aspects such as higher housing costs pollution risk of crime and less social capital

The Betrayal of the Urban Poor Helene Slessarev, Helene Slessarev-Jamir, 1997 Presents the history from 1960 of how policies allegedly designed to promote the welfare of the urban poor have been half hearted This book shows how little the Civil Rights Act of 1964 and the War on Poverty provided for the urban poor and demonstrates the weakness of job training programs devised at the federal level

Rural-urban Dynamics and the Millennium Development Goals World Bank, International Monetary Fund, 2013 The Global Monitoring Report 2013 Rural Urban Dynamics and the Millennium Development Goals examines rural urban disparities in the achievement of the

Millennium Development Goals MDGs and how urbanization if managed well can contribute to the attainment of these goals The report provides information about the differences in progress toward the MDGs across geographical areas and recognizes that urban populations are better off than their rural brethren However unfettered urbanization can cause migrants and the urban poor to end up in slums where attainment of the MDGs lags GMR 2013 calls for an integrated strategy to better manage the planning connecting financing formula of urbanization Notwithstanding the importance of urbanization in poverty reduction and MDG attainment rural areas remain a huge challenge one that underscores the importance of policies that can improve rural livelihoods The rural urban spectrum ranges from small towns to large cities The general experience is that poverty is lowest in the largest cities and considerably higher in smaller towns The MDGs reflect the basic needs of all citizens and governments should aim to meet them fully in both urban and rural areas However resources are scarce so priorities must be set and trade offs made The report argues that the sequencing of actions be tailored to local conditions when it comes to the degree of urbanization and rural urban differences in MDG outcomes The world has met four global MDG targets New estimates confirm the 2012 reports that MDG 1 a reducing the 1 25 a day poverty rate 2005 purchasing power parity was reached in 2010 falling below half of its 1990 value The world also met part of MDG 7 c to halve the proportion of people without safe access to drinking water in 2010 MDG 7 d to improve significantly the lives of at least 100 million slum dwellers by 2020 was also achieved Finally the first part of MDG 3 a to eliminate gender disparity in primary education was accomplished in 2010 Global progress on the full MDG 3 a to eliminate gender disparity in primary and secondary education is close to being on track Global Monitoring Report 2013 was prepared jointly by the World Bank and the International Monetary Fund with consultations and collaborations with regional development banks and other multilateral partners *Place Matters* Peter Dreier, John H. Mollenkopf, Todd Swanstrom, 2004 Analyzes the problematic trends facing America s cities and older suburbs and challenges us to put America s urban crisis back on the national agenda

Special Studies Subcommittee, 1972 *Problems of the Aging* United States. Congress. House. Committee on Government Operations. Special Studies Subcommittee, 1972 *Urban Waste and Sanitation Services for Sustainable Development* Bas van Vliet, Joost van Buuren, Shaaban Mgana, 2013-11-12 Urban sanitation and solid waste sectors are under significant pressure in East Africa due to the lack of competent institutional capacity and the growth of the region s urban population This book presents and applies an original analytical approach to assess the existing socio technical mixtures of waste and sanitation systems and to ensure wider access increase flexibility and ecological sustainability It shows how the problem is not the current diversity in waste and sanitation infrastructures and services and variety of types and scales of technology of formal and informal sector involvement and of management and ownership modes The book focuses instead on the lack of an integrative approach to managing and upgrading of the various waste and

sanitation configurations and services so as to ensure wider access flexibility and sustainability for the low income populations who happen to be the main stakeholders This approach coined Modernized Mixtures serves as a nexus throughout the book The empirical core addresses the waste and sanitation challenges and debates at each scale from the micro level households to the macro level international support and is based on the results of a five year long interdisciplinary empirical research program It assesses the socio technical diversity in waste and sanitation and provides viable solutions to sanitation and waste management in East Africa This book provides students researchers and professional in environmental technology sociology management and urban planning with an integrated analytical perspective on centralized and decentralized waste and sanitation configurations and tools for improvement in the technology policy and management of sanitation and solid waste sectors
