Francesco Berto, 2012-10-17 This profound exploration of one of the core notions of philosophy the concept of existence itself reviews then counters via Meinongian theory the mainstream philosophical view running from Hume to Frege Russell and Quine summarized thus by Kant Existence is not a predicate The initial section of the book presents a comprehensive introduction to and critical evaluation of this mainstream view The author moves on to provide the first systematic survey of all the main Meinongian theories of existence which by contrast reckon existence to be a real full fledged property of objects that some things possess and others lack As an influential addition to the research literature the third part develops the most up to date neo Meinongian theory called Modal Meinongianism applies it to specific fields such as the ontology of fictional objects and discusses its open problems laying the groundwork for further research In accordance with the latest trends in analytic ontology the author prioritizes a meta ontological viewpoint adopting a dual definition of meta ontology as the discourse on the meaning of being and as the discourse on the tools and methods of ontological enquiry This allows a balanced assessment of philosophical views on a cost benefit basis following multiple criteria for theory evaluation Compelling and revealing this new publication is a vital addition to contemporary philosophical ontology      *The Matthean Community and the World* James P. Grimshaw, 2008 This study of the Matthean narrative uses the interpretive lens of food exchange to explore the Matthean community's relationship with the wider world While many studies depict this community as withdrawing from or in conflict with the larger society James P Grimshaw's focus on the daily need for food reveals a community that while distinct progressively integrates itself into the larger Jewish and Gentile society and the natural world In addition this view of community corresponds to the view of a God who actively provides for and relates to all creation Grimshaw's alternative portrayal of the Matthean community whose interactions with its surrounding environment are more complex and sustained than often imagined is a compelling interpretation for today's stratified and disconnected world
