*The Economic History of Italy 1860-1990* Vera Zamagni, 1993-10-28 This book gives a full account of the economic and social history of Italy since unification in 1860, with an introduction covering the previous period since the Middle Ages. *The Economic History of Italy* represents a scholarly and authoritative account of Italy's progress from a rural economy to an industrialized nation. The book makes a broad division of the period into three parts: the take off 1860-1913, the consolidation in the midst of two wars and a world depression 1914-47, and the great expansion 1948-1990. Professor Zamagni traces the growth of industrialization and argues that despite several advanced areas, Italy only became an industrialized nation after the Second World War and that during the 1980s the South was still clearly behind the rest of the country. Zamagni analyses data both from a macroeconomic position, looking at the growth of the finance sector or the role of the State, and from a microeconomic position, when she draws conclusions from the changing population structure or from the actions of individual businesses. Professor Zamagni reveals that even though the population more than doubled during this time, the level of national income rose 19 fold to move Italy from a peripheral status in Europe to a central position as a prosperous country. A central theme of the book is Professor Zamagni's argument that the Italian economy has been successful not by any great individuality of its own, but by being flexible enough to incorporate the successes of other countries, Japan's integrated business network, for example, or Germany's financial structure. She places the industrialization of Italy in the international context by comparing Italy's GDP and other measures of prosperity at different times to the USA, Japan, the UK, France and Germany. The book is based on original field work by the author and the many detailed but small scale studies existing in Italian. Quantitative trends are described in more than 70 tables of data, while the book provides appendices containing chronologies of main events in various sectors and biographies.

Tales from Italy M. Drever, 2007-12 These stories memoirs and anecdotes represent an image of life in Italy that I developed as I grew up in its deepest south in the fifties and sixties I wrote them for my son my youngest sister and my nephews all born in England so that they might have a deeper understanding of their cultural heritage About the author The second child of a family of six children I was born in Gioia del Colle province of Bari in Puglia Italy The first fifteen years of my life were uneventful marked by routines common to the community I grew up in I assumed as a child that every family had someone who was ill my elder brother John was born with a congenital heart disease and that it was the role of the father to be away from home to earn a living for the family I had a peaceful first fifteen years marked by my father s visits home from England In 1964 at the age of fifteen I came to England with my family speaking no English My prospects were not good unless I learned English fast And so I did Four years later I gained a place at university where I studied modern languages After many

years of teaching French and Italian at many levels including teacher training I now work as an independent education consultant I have been married to my great fun loving husband Angus for thirty three years We have a wonderful son Jonathan who is so proud of his Italian heritage He speaks Italian with a nonchalant easiness and Lucy his delightful partner who has drawn the cover to this book taught herself Italian too so that they can explore together more of Jonathan's Italian culture

The Roman Family in Italy Beryl Rawson, Paul Richard Carey Weaver, 1999 The family continues to be seen as a central institution in Roman as well as modern Western society The Roman family is often used as a stereotype sometimes of severity sometimes of decadence with its decline often cited as a cause of wider decline and fall Definitions and concepts continue to be modified and nuanced however as the availability of new evidence and new methodologies make possible a much less simplistic picture In this volume the study of family draws on a wide range of disciplines to develop the intertwined themes of status sentiment and space For example on status there are contributions about Junian Latins and a survey of senators monuments while sentiment is represented by a gloomy but convincing picture of old age and a paper on the sentimental ideal which argues that conflict as well as concord is a feature of family life Space is represented among others by the contribution on who commemorates whom in Roman Italy pointing up the regional variations in custom and the difficulties in tracing complete families The final contributions focus on the house how people lived in the Roman house the use of rooms and the artefacts that might indicate this use The book makes use of many types of evidence from the legal and literary to the iconographical and archaeological Visual and material evidence play an important role in reconstructing real lives in considerable colour and variety The book moves beyond the city of Rome to the rest of Roman Italy and even into the provinces just as Roman culture moved outwards and mingled with other cultures Chronologically too there are new directions towards the later Empire and Christianity So although the contributors do not abandon any of the territory already gained in Rome nor literary and epigraphical sources nor the late Republic or early Empire there is an exciting sense of new discovery
