Chicken Paul R. Josephson,2020-05-19 Why has the chicken become the meat par excellence the most plentifully eaten and popular animal protein in the world consumed from Beijing to Barcelona As renowned historian Paul Josephson shows the story of the chicken s rise involves a whole host of factors from art to nineteenth century migration patterns to cold war geopolitics And whereas sheep needed too much space or the cow was difficult to transport these compact lightweight birds produced relatively little waste were easy to transport and could happily peck away in any urban back garden Josephson tells this story from all sides the transformation of the chicken from backyard scratcher to hyper efficient industrial meat product has been achieved due to the skill of entrepreneurs who first recognized the possibilities of chicken meat and the gene scientists who bred the plumpest and most fertile birds But it has also been forced through by ruthless capitalists and lobbyists for big farmer at the expense of animal welfare and the environment With no sign of our lust for chicken abating we re now reaching a crisis point billions of birds are slaughtered every year after having lived lives that are nasty brutish and short The waste from these victims is polluting

rivers and poisoning animals We re now plunging egg first into environmental disaster Alongside this story Josephson tells another of an animal with endearing characteristics who arguably can lay claim to being man s best friend long before the dog reared its snout or the cat came in from the cold Lionized in medieval romances and modern cartoons the chicken s relationship to humanity runs deep by treating these animals as mere food products we become less than human **Setting up and running a small meat or fish processing enterprise** Axtell, B., Fellows, P., 2004-11-06 This second publication in the CTA series of food processing manuals compiled by contributors from several developing countries covers markets and marketing for meat and fish planning production meat processing fish processing quality assurance and legislation and financial management See also 1041 1176 **The Research Experience** Ann Sloan Devlin, 2020-07-30 The Research Experience Planning Conducting and Reporting Research Second Edition is the complete guide to the behavioral science research process The book covers theoretical research foundations guiding students through each step of a research project with practical instruction and help The latest technological tools such as SurveyMonkey Qualtrics and Amazon Mechanical Turk are included to show the increasing influence of the Internet to conduct studies and how research is conducted in the world today Taking students through the process from generating ideas for research to writing and presenting findings helps them absorb and apply the material With its practical emphasis and supporting pedagogy students will be able to successfully design and execute a research project Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides **Butchering Poultry, Rabbit, Lamb, Goat, and Pork** Adam Danforth, 2014-03-11 Slaughter and butcher your own animals safely and humanely with this award winning guide Providing detailed photography of every step of the process Adam Danforth shows you everything you need to know to butcher poultry rabbit lamb goat and pork Learn how to create the proper slaughtering conditions break the meat down and produce flavorful cuts of meat Stressing proper food safety at all times Danforth provides expert advice on necessary tools and helpful tips on freezing and packaging Enjoy the delicious satisfaction that comes with butchering your own meat **Humanish** Justin Gregg, 2025-09-25 Ever glanced at your cat and wondered if they were plotting something Or passed a car and thought it seemed friendly surprised or angry depending on the shape of its headlights Anthropomorphism the irresistible desire to apply human characteristics to animals natural phenomena and even inanimate objects is as natural as breathing And it gets weirder Million dollar industries have sprung up to provide cosmetic enhancements for dogs who ve had the snip their inevitably male owners wracked with guilt that their pets might be missing out on something Similarly Justin Gregg a researcher with the Dolphin Communication Project regularly receives emails from mothers to be convinced that dolphins would make excellent midwives spoiler alert they definitely wouldn t Diving into the strange way anthropomorphism shapes our understanding of the world Gregg offers an eye opening journey through human perception From cinema s obsession with talking animals to the way we interact with
