Seven Great Encyclicals:

Seven Great Encyclicals Catholic Church. Pope, 1963 **Seven Great Encyclicals, Labor, Education, Marriage, Reconstructing the Social Order, Atheistic Communism, World Social Problems, World Peace** Catholic Church. Pope, 1963 *Seven Great Encyclicals* Catholic Church. Pope, 1963 Lonergan's Early Economic Research Bernard J. F. Lonergan, Michael Shute, 2010-01-01 Lonergan's Early Economic Research delves into the origins of Bernard Lonergan's economic theory through his own writing on the subject Michael Shute provides transcriptions of many of Lonergan's private files on economics for a deeper understanding of his groundbreaking macroeconomic theory An introduction by the editor contextualizes the works which also serve as archival materials relevant to the companion volume Lonergan's Discovery of the Science of Economics Organized around specific themes such as dialectic of history methodology economic history and price equilibrium the book makes available a substantial amount of previously unpublished texts Materials include Lonergan's earliest notes on economics prior to his move to Rome in 1933 the complete surviving portion of An Essay in Fundamental Sociology and notes on economists Heinrich Pesch and Lionel Robbins among others These early works show that Lonergan built his economic discoveries on the methodological developments that he founded in his writings on the philosophy of history *Theories of the Labor Movement* Simeon Larson, Bruce Nissen, 1987 A collection of readings respecting both the history a labor theories and the variety of theoretical points of view concerning the labor movement Respecting both the history a labor theories and the variety of theoretical points of view concerning the labor movement this collection of readings includes selections by Karl Marx V I Lenin William Haywood Georges Sorel Stanley Aronowitz John R Commons Sidney and Beatrice Webb Thorstein Veblen Henry Simons and John Kenneth Galbraith among others Intending this as a text for classroom use Larson and Nissen have arranged the readings according to the social role assigned to the labor movement by each theory The text's major divisions consider the labor movement as an agent of revolution as a business institution as an agent of industrial reform as a psychological reaction to industrialism as a moral force as a destructive monopoly and as a subordinate mechanism in pluralist industrial society Such groupings allow for ready comparison of divergent views of the origins development and future of the labor movement Seven great encyclicals: labor, education, marriage, reconstruct Catholic Church. Pope, 1963 **John Paul II and Moral Theology** Charles E. Curran, Richard A. McCormick, 1998 A collection of articles that survey contemporary papal teaching on moral theology dealing specifically with economics gender sexuality and life issues **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1965 Includes Part 1 Number 2 Books and Pamphlets Including Serials and Contributions to Periodicals July December **Wealth and Our Commonwealth** William H. Gates, 2016-02-16 The Man Bites Dog story of over 1 000 high net worth individuals who rose up to protest the repeal of the estate tax made headlines everywhere last year Central to the organization of what Newsweek tagged the billionaire backlash were two visionaries Bill Gates Sr cochair of the Bill and Melinda Gates

Foundation the largest foundation on earth and Chuck Collins cofounder of United for a Fair Economy and Responsible Wealth and the great grandson of meat packer Oscar Mayer who gave away his substantial inheritance at the age of twenty six Gates and Collins argue that individual wealth is a product not only of hard work and smart choices but of the society that provides the fertile soil for success They don't subscribe to the Great Man theory of wealth creation but contend that society's investments such as economic development education health care and property rights protection all contribute to any individual's good fortune With the repeal proposed by the Bush administration we might be facing the future that Teddy Roosevelt feared where huge fortunes amassed and untaxed would evolve into a dangerous and permanent aristocracy Repeal would drop federal revenues 294 billion in the first 10 years 27 some 750 billion would be lost in the second decade not to mention that the U S Treasury estimates that charitable contributions would drop by 6 billion a year But what about all those modest families that would lose the farm Gates and Collins expose the fallacy of this argument pointing out that this is largely a myth and that the very same lobbies and politicians who are crying cows have opposed other legislation that would actually have helped small farmers Weaving in personal narratives history and plenty of solid economic sense Gates and Collins make a sound and compelling case for tax reform not repeal

Pope Pius XII on the Economic Order Rupert J. Ederer, 2011-06-06 In Pope Pius XII on the Economic Order economist Rupert J Ederer explores the views of Eugenio Pacelli who served as pope during the tumultuous period of 1939 to 1958 Prodigious in his output Pius XII produced 40 encyclicals 19 highly regarded Christmas messages and series of addresses to groups and organizations laying the groundwork for the economic views of his successors According to Ederer it is safe to say that no Roman pontiff has addressed the problems confronting the social order as frequently and as widely outside the formal structure of encyclicals as Pius XII This applies in a special way to his masterful and prophetic Christmas Messages Through the study of Pius XII's encyclicals and Christmas messages Ederer examines this important pontiff's views on economics and the social order the world of work agriculture and farmers food and population the middle class and the world of money and finance Students and scholars interested in the history of Pius XII's papacy will find in Ederer's analysis an insightful study of Catholic economic thought during an era when nations representing the forces of capitalism fascism and Communism were joined in a fierce battle for dominance
