Spiritual Masters of the World's Religions Victoria Kennick, Arvind Sharma, 2012-12-28 What is a spiritual master? *Spiritual Masters of the World's Religions* offers an important contribution to religious studies by addressing that question in the context of such themes as charismatic authority, role models, symbolism, and categories of religious perception. The book contains essays by scholar-practitioners on the topic of spiritual masters in Judaic, Christian, Islamic, Hindu, Sikh, Buddhist, Confucian, and Daoist traditions. It provides a full spectrum of exemplars, including founders, spiritual masters who highlight cultural themes, and problematic figures of modern times. To define spiritual master, the work of Max Weber, Mircea Eliade, Daniel Gold, and Bruce Lincoln is referenced to provide a balanced notion that includes both religionist and reductionist perspectives. This book takes readers from the past spiritual masters to the future of masters of any sort, posing food for thought about the future of master-disciple relationships in an emerging age of egalitarian sentiments. **The Way of**

Reverie and Reality Yanning Wang,2013-12-18 This is a study of Chinese gentry women's poems on the theme of travel written during the late imperial period ca 1600 1911 when Chinese women's literature and culture flourished as never before It challenges the clichéd image of completely secluded and immobile women anxiously waiting inside their prescribed feminine space the so called inner quarters for the return of traveling husbands or other male kin The travel poems discussed in this book while not necessarily representative of all of the women writers of this period point to the fact that many of them longed to explore the world through travel as did so many of their male counterparts Sometimes they were able to actualize this desire for travel and sometimes they were forced to resort to imaginary armchair travel In either case women writers often used poetry as a means of recording their experiences or delineating their dreams of traveling outside the inner quarters and indeed sometimes far away from the inner quarters With its promise of adventure and fulfillment and above all a broadening of one's intellectual and emotional horizons travel was an important and until now understudied theme of late imperial women's poetry
