Stief, Kristen L. Figgins, Rebecca Day Babcock, 2021-04-01 A vast number of studies have documented the economic and geological effects of oil production but the impact of boom and bust cycles on individuals and communities has received less attention Boom or Bust remedies this gap by highlighting the personal experiences of those directly affected in an economy dominated by oil and natural gas production The Permian Basin is one of the largest oil producing regions in the United States People who live there have benefited from explosive growth only to see opportunities vanish with sudden industry downturns In 2016 the National Endowment for the Humanities funded a grant for the study and collection of energy narratives in this economically volatile region Boom or Bust derives from that community initiative and offers a unique contribution to the developing field of energy humanities The oil field industry may seem to be all about numbers but as Boom or Bust demonstrates residents of oil and gas country whether they work in the oil field or not are at the mercy of an ever shifting economy When the price of oil rises companies move in and newcomers flood the area expanding the employment force And as the population booms so does the infrastructure of cities When prices drop though families must make difficult choices whether to stay put or follow the oil to another location With the ensuing declines in population small businesses close their doors and unemployment levels rise Despite the inevitable declines and despite the increase in alternative energy resources many West Texans feel a sense of pride that borders on patriotism Boom or Bust reveals the full complexity of boomtown culture **Historic Haunts Around Denver** Kevin Pharris, 2012-09-11 The author of The Haunted Heart of Denver goes beyond the city limits to investigate the supernatural surroundings of Colorado's capital In Denver the spirits aren't just penned to the city center No even the suburbs and outlying cities have the kind of history that could give quite a fright to the unsuspecting Folks might be surprised to learn that a house in northwest Denver comes fully equipped with a basement theater and spectral performers as well and former phantom residents still roam their old homestead in what is now an Adams County open space From Westminster's Bowles House Museum where even the ghosts were involved in renovations to Littleton's Melting Pot

restaurant a former Carnegie library that offers diners a side of the supernatural accidental ghost hunter Kevin Pharris explores further tales of supernatural haunts and unexplained phenomena surrounding the Mile High City Includes photos
