Seventy Birth Control Clinics:

Birth Control on Main Street Cathy Moran Hajo, 2023-12-11 Unearthing individual stories and statistical records from previously overlooked birth control clinics Cathy Moran Hajo looks past the rhetoric of the birth control movement to show the relationships politics and issues that defined the movement in neighborhoods and cities across the United States Whereas previous histories have emphasized national trends and glossed over the majority of clinics *Birth Control on Main Street* contextualizes individual case studies to add powerful new layers to the existing narratives on abortion racism eugenics and sterilization Hajo draws on an original database of more than 600 clinics run by birth control leagues hospitals settlement houses and public health groups to isolate the birth control clinic from the larger narrative of the moment By revealing how clinics tested treated and educated women regarding contraceptives she shows how clinic operation differed according to the needs and concerns of the districts it served Moving thematically through the politicized issues of the birth control movement Hajo infuses her analysis of the practical and medical issues of the clinics with unique stories of activists who negotiated with community groups to obey local laws and navigated the swirling debates about how birth control centers should be controlled who should receive care and how patients should be treated **Opportunity**, 1930 *Birth Control and American Modernity* Trent MacNamara, 2018-10-11 How did birth control become legitimate in the United States One kitchen table at a time contends Trent MacNamara who charts how Americans reexamined old ideas about money time transcendence nature and risk when considering approaches to family planning By the time Margaret Sanger and other activists began campaigning for legal contraception in the 1910s Americans had been effectively controlling fertility for a century combining old techniques with explosive new ideas *Birth Control and American Modernity* charts those ideas capturing a movement that relied less on traditional public advocacy than dispersed action of the kind that nullified Prohibition Acting in bedrooms and gossip corners where formal power was weak and moral feeling strong Americans of both sexes gradually normalized birth control in private then in public as part of a wider prioritization of present material worlds over imagined eternal continuums The moral edifice they constructed and similar citizen movements around the world remains tenuously intact *Seventy Birth Control Clinics* Caroline Hadley Robinson, 1972 Original ed issued in series *Medical aspects of human fertility* **The Birth Control Movement and American Society** James Reed, 2014-07-14 This is the first comprehensive history of the struggle to win public acceptance of contraceptive practice James Reed traces this remarkable story from its beginnings carefully documenting the roles of the diverse interests that supported birth control including feminists eugenicists and physicians and providing a unique account of the struggles of such pioneers as Margaret Sanger Robert Dickinson and Clarence Gamble to win the support of organized medicine to change laws to open birth control clinics and to improve birth control methods Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These

Ballots, Babies, and Banners of Peace Melissa R. Klapper, 2014-08-22 Ballots Babies and Banners of Peace explores the social and political activism of American Jewish women from approximately 1890 through World War II Written in an engaging style the book demonstrates that no history of the suffrage birth control or peace movements in the United States is complete without analyzing the impact of Jewish women's presence The volume is based on years of extensive primary source research in more than a dozen archives and hundreds of published primary sources many of which have previously never been seen Voluminous personal papers and institutional records paint a vivid picture of a world in which both middle class and working class American Jewish women were consistently and publicly engaged in all the major issues of their day and worked closely with their non Jewish counterparts on behalf of activist causes

Any Friend of the Movement Jimmy Elaine Wilkinson Meyer, 2004 In the 1920s a few Cleveland women perceived a need for reliable birth control They believed that health and social service professionals denied women especially poor and working class women critical health care information Any Friend of the Movement tells the story of these women their actions and the organization they created the direct forerunner of a modern Planned Parenthood affiliate The disparate threads of this particular tale include the suicide of a pregnant woman the gift of a bereaved inventor smuggling contraceptive supplies across state lines and sponsoring ice skating galas to fund the work Any Friend of the Movement breaks new ground in the history of birth control activism in North America Meyer argues that private philanthropy and

voluntary action on the part of clinics like the Maternal Health Association MHA and their clients vitalized the larger movement at its roots and pushed it forward
