Marriage By The:

Marriage by Capture in the Book of Judges Katherine E. Southwood, 2017-03-24 In this book Katherine E Southwood offers a new approach to interpreting Judges 21 Breaking away from traditional interpretations of kingship feminism or comparisons with Greek or Roman mythology she explores the concepts of marriage ethnicity rape and power as means of ethnic preservation and exclusion She also exposes the many reasons why marriage by capture occurred during the post exilic period Judges 21 served as a warning against compromise submission to superficial unity between the Israelites and the Benjaminites Any such unity would result in drastic changes in the character culture and values of the ethnic group Israel The chapter encouraged post exilic audiences to socially construct those categorised as Benjaminites as foreigners who do not belong within the group thereby silencing doubts about the merits of unity

Letourneau, 2022-08-21 In The Evolution of

Marriage and of the Family Ch Letourneau presents a comprehensive exploration of the sociocultural and historical shifts that have shaped familial structures and marital practices throughout human history With a keen analytical lens Letourneau employs a blend of ethnographic studies and sociological theories articulating a narrative that critiques traditional notions of marriage while situating them within larger frameworks of social evolution economic changes and gender roles The work s literary style is characterized by clarity and rigor making it accessible yet intellectually stimulating for readers as it also situates marriage and family dynamics within the broader discourse of anthropology and social science in the late 19th century Ch Letourneau was a prominent French sociologist and anthropologist whose work often engaged with the intersection of social structures and evolutionary theory His scholarly background is evident in his meticulous research which reflects Enlightenment ideals of progress and the scientific scrutiny of societal evolution His personal experiences and observations in a rapidly industrializing society propelled him to challenge established norms around marriage and family framing them as fluid constructs rather than static institutions This essential reading is highly recommended for scholars students and anyone interested in understanding the complexities of human relationships and their historical development Letourneau s insightful analysis fosters deep reflections on contemporary marital norms and familial expectations
