Marriage Without Children:

Marriage Without Children Diana Burgwyn, 1981 *Families of Two* Laura Carroll, 2000-09-26 According to American Demographics magazine by the year 2010 the number of married couples without children is expected to increase by nearly 50% to nearly 31 million The non profit organization Childless By Choice reports that one in seven married couples in the United States is consciously deciding not to have children For more married couples than ever before their life plan together does not include raising a family Yet as these numbers grow in many ways society continues to frown on the choice not to have children Although more couples are making this decision they often feel misunderstood and face societal misperceptions about themselves their marriage and their choice not to have children Through candid interviews and photographs *Families of Two* Interviews with Happily Married Couples Without Children by Choice takes us into the lives of happily married couples without children by choice It dispels the myths often associated with this choice helps couples who are deciding whether to have children and offers insight to friends and family of couples who have chosen or may choose not to have children *Families of Two* expands our ways of understanding marriage in today's society and gives examples of roadmaps for marriage without children *Families of Two* celebrates the many people who are living lives that do not include parenthood and the many ways to live happily ever after **MARRIAGE WITHOUT A LICENSE: A Completely Moral**

Alternative to Civil Marriage Laura M. Sands, 2011-05-13 By the power vested in me by God and the State of XYZ I now pronounce you husband and wife If you've ever wondered when and how God gave a minister the power to declare two people as married this book is for you If you've ever searched the Bible for a description of a wedding or an exchanging of marriage vows and have come up empty handed this book is for you If you've ever wondered if two people can marry without a marriage license this book is definitely for you Marriage has existed since the beginning of time while the marriage license is a relatively new creation in American culture A marriage license is never mentioned in the Bible and most early American settlers never heard of such a document For as long as men and women have been on earth marriages have taken place How is it then that so many people have come to believe that government involvement is the only way for two people to become married Using biblical scripture as well as legal and historical evidence this book will show you why so many are purposely choosing marriage without a license It presents a strong argument in favor of government free marriage while proving that such is a completely legal and moral alternative to civil marriage Most important however this book will clearly illustrate the fact that marriage as it is depicted in the Bible is a completely separate entity from civil marriage While social and political debate about who has the right to marry rages on it is more important than ever to understand the distinctions between biblical and civil marriage traditions This book goes a long way in highlighting why it is necessary to separate church and state in such matters It further illustrates why so many who view civil marriage through a religious lens are wrong in doing so Sure to spark controversy in the hearts of many *Marriage Without a License* will take you on an historical social and

religious journey that will turn what you thought you knew about marriage upside down Whether you agree or disagree with its contents one thing is for sure after reading this book you will never view civil matrimony in the same light again Visit the Marriage Without a License blog at <http://marriagewithoutalicense.com> *Divorced, without Children* Debra D. Castaldo, 2011-02-14 The topic of women divorced at midlife without children is one that has to date been absent from professional and academic literature though these women make up a considerable and growing portion of our population This book explores the experience meaning and impact of divorce at midlife for women without children and provides insights into the unique stressors and issues confronting these individuals so that the practitioner can better anticipate and meet their needs Clinical considerations and case examples will be presented via the narrative stories of women who have experienced this unusual role in a world that is still primarily centered on marriage and mothering This book provides case examples clinical themes treatment recommendations and suggests coping techniques and strategies Castaldo draws heavily upon social constructionist feminist and narrative perspectives as theoretical frameworks for the book as well as the results of her own qualitative research study She suggests new concepts for women's psychological development including an expanded family life cycle to include a normalized stage of mature single adulthood and a developmental process of autonomous competence for women Other critical coping skills include meaning modification role innovation self nurturing expanded intimacy and attachment and multi diverse industriousness *Ageing Without Children* Philip Kreager, Elisabeth Schröder-Butterfill, 2004 Rapid fertility declines and improved longevity are now shifting the overall balance of population towards older ages in many parts of the world Within this growing population of older people there are many groups with particular needs about which relatively little is known This collection focuses on one such sub population the elderly without children Few would deny that childlessness poses potential human and welfare problems for older people without them What is less well known is that comparative anthropological and historical demographic research indicates that childlessness is a recurring social phenomenon that has affected 1 in 5 older women in many cultures and historical periods High levels of childlessness arise not solely or primarily from biological factors like primary sterility but from a combination of actors Many like non marriage delayed childbearing and pathological sterility reflect the interaction of social and biological influences Also of major importance are factors that remove the support of children from elders lives migration mortality divorce remarriage family enmity social mobility and the pressing demands of family and career on younger generations The papers collected in this volume employ a mixture of quantitative and qualitative methods to define and characterize the experience of ageing without children *Marriage Without Tears* Emma Okorie, 2008-09 MARRIAGE WITHOUT TEARS is a compilation of the marital counseling journals of Apostle Emma Okorie for over three decades Emma does not write or teach out of a desire to be heard but with an unquenchable desire to bring lasting solutions In this book he teaches out of a passion to heal the cancer of matrimonial disharmony He presents down to earth solutions and counsels that will shift your marriage and

Without Children Peggy O'Donnell Heffington, 2023-04-18 A historian explores the complicated relationship between womanhood and motherhood in this timely refreshingly open hearted study of the choices women make and the cards they're dealt Ada Calhoun author of *Why We Can't Sleep* In an era of falling births it's often said that millennials invented the idea of not having kids But history is full of women without children some who chose childless lives others who wanted children but never had them and still others the vast majority then and now who fell somewhere in between Modern women considering how and if children fit into their lives are products of their political ecological and cultural moment But history also tells them that they are not alone Drawing on deep research and her own experience as a woman without children historian Peggy O'Donnell Heffington shows that many of the reasons women are not having children today are ones they share with women in the past a lack of support their jobs or finances environmental concerns infertility and the desire to live different kinds of lives Understanding this history how normal it has always been to not have children and how hard society has worked to make it seem abnormal is key she writes to rebuilding kinship between mothers and non mothers and to building a better world for us all
