Intercultural Communication Youd Sinh Chao, 2012-10

With so many individuals couples and families now living in the United States from diverse cultural and educational backgrounds there are various communication styles among the different ethnic groups that play a key role in determining the success and failure of today's marriages and family relationships Throughout the years of personal struggles as a formal political refugee from Southeast Asia the author survived many levels of challenges such as escaping from Laos to Thailand to be freed from political persecution surviving in a refugee camp from sicknesses and hunger coming to America with zero English skill in order to become a language instructor marriage and family counselor and Mien language and cultural consultant The combined years of his research and personal experiences in working with individuals couples and families from different cultural social and educational settings he has the honor and privilege to write this book with practical implications for individuals couples parents pastors community leaders counselors educators and researchers

Family Interaction Ralph H. Turner, 1970

Understanding Marriage, Family, and Intimate Relationships Jerry D. Lehman, 2005 This introductory textbook is for students who are interested in learning about and establishing healthy marriage family and intimate relationships With divorce rates high and relationships fragile books and courses are needed that help students address important issues regarding relationships The readers of this text examine many important and relevant issues through the lens of theory and research and do so using a written format that is readable understandable and easy to apply to one's life It was written so that each chapter has information that readers will find helpful as they attempt to establish and maintain meaningful healthy relationships There are questions throughout each chapter that help readers focus not only on the material but also on how the material relates to their present and past relationship and family situations The text provides material on the research of John Gottman the object relations theory of Harville Hendrix the solution focused approach of Michele Weiner Davis and the PREP approach to conflict management of Markman Stanley and Blumberg These and other topics discussed are very relevant to students concerns and are addressed in greater depth than found in most other texts The emphasis is not just on couple relationships but also on family relationships Therefore in this book there is extensive coverage of family systems theory and the influence of family rules and family structure on the development of families There is also material on how change produces transitions in family life that must be assimilated into the family structure for example when a couple has their first child Thus both couple and family issues are addressed throughout the book For instructors who want to focus their courses on marriage family and intimate relationships this book would be an ideal choice A study guide for students and instructional material for instructors can be obtained by visiting www.understandingrelationships.net

Explaining Family Interactions Mary Anne Fitzpatrick, Anita L. Vangelisti, 1995-06-09

Explaining Family Interactions represents a unique collection that may stand alone or complement a traditional textbook. The contents reflect the ever changing nature of families and the role communication plays in creating and maintaining family relationships. The collection captures the wide universe of family experience as represented in fine scholarship. Kathleen M Galvin, Northwestern University. What relationship exists between family structure and communication? How do communication patterns between family members change over time? What role does culture play in family communication? In this groundbreaking volume, a stellar team of contributors answers these and other significant questions by offering a detailed review of current research and state of the art ideas concerning both communication processes and family functioning. Contributors explore a rich tapestry of topics including family conflict, courtship and dating relationships, postdivorce relations, communication and family culture, and dual career families, to name but a few. And while contributors each explore different aspects of family communication, all address similar questions and incorporate a range of methodological and/or theoretical positions. Explaining Family Interactions is an ideal resource for all scholars and students in the fields of interpersonal communication, family studies, relationships, family sociology, and social psychology.

Readings in Marriage and Family Interaction J. Joel Moss, Kenneth Lynn Cannon, 1974 Handbook of Marriage and the Family Gary W. Peterson, Kevin R. Bush, 2012-09-14. The third edition of Handbook of Marriage and the Family describes, analyzes, synthesizes, and critiques the current research and theory about family relationships, family structural variations, and the role of families in society. This updated Handbook provides the most comprehensive state of the art assessment of the existing knowledge of family life with particular attention to variations due to gender, socioeconomic, race, ethnic, cultural, and life style diversity. The Handbook also aims to provide the best synthesis of our existing scholarship on families that will be a primary source for scholars and professionals but also serve as the primary graduate text for graduate courses on family relationships and the roles of families in society. In addition, the involvement of chapter authors from a variety of fields including family psychology, family sociology, child development, family studies, public health, and family therapy gives the Handbook a multidisciplinary and interdisciplinary framework. **Marriage and Family Interaction [by] Robert R.
