Marriage Risk:

How to Pick a Mate, The Guide to a Happy Marriage Clifford Rose Adams, 2022-04-06 Excerpt As far as we know this is the first time anyone has written a book attempting to put mate selection on a sensible basis despite the fact that sooner or later almost everybody selects one A good many people resent the idea of an outsider telling them how they should pick a mate They think it smacks of meddling Marriage is something sacred and personal It should not be done according to rules We heartily sympathize Unfortunately however marriages are not made in Heaven Usually people marry by hunch or impulse or because their parents think it is a good match or because they get themselves so deeply involved romantically that marrying seems the only proper thing to do Too frequently such methods merely mess up a couple of people s lives More than a third of all the millions of marriages undertaken in the last ten years are in trouble Many are already dissolved Many more soon will be A great deal of research and counseling has now been done in the field of marriage and the findings validated At Penn State for example hundreds of couples who were tested before marriage at the Marriage Counseling Service are checked periodically after marriage to find how they are making out Of all the marriages which the service predicted would be successful not one has yet ended in divorce or separation Most of the people who went ahead despite the clinic s cautions are already in serious trouble or have been divorced As a result of many such investigations reliable information is available on the kinds of people who make the best mates and on the causes of marriage success and failure In this book we have tried to include those findings which should be most helpful and interesting to all people involved in love or marriage but particularly to people who sooner or later will be taking unto themselves a mate It is not our intention to lay down a set of rules for people to follow But we hope that after reading this book you will be more enlightened in your hunches than you might be otherwise and be a much happier and more desirable mate yourself Cultural Sociology of Divorce Robert E. Emery, 2013-01-24 While the formal definition of divorce may be concise and straightforward legal termination of a marital union dissolving bonds of matrimony between parties the effects are anything but particularly when children are involved The Americans for Divorce Reform estimates that 40 or possibly even 50 percent of marriages will end in divorce if current trends continue Outside the U S divorce rates have markedly increased across developed countries Divorce and its effects are a significant social factor in our culture and others It might be said that a whole divorce industry has been constructed with divorce lawyers and mediators family counselors support groups etc As King Henry VIII s divorces showed divorce has not always been easy or accepted In some countries divorce is not permitted and even in Europe countries such as Spain Italy Portugal and the Republic of Ireland legalized divorce only in the latter quarter of the 20th century This multi disciplinary encyclopedia covers curricular subjects related to divorce as examined by disciplines ranging from marriage and the family to anthropology social and legal history developmental and clinical psychology and religion all through a lens of cultural sociology Features 550 signed entries A to Z fill 3 volumes 1 500 pages in print and electronic

formats offering the most detailed reference work available on issues related to divorce both in the U S and globally Cross References and Further Readings guide readers to additional resources A Chronology provides students with context via a historical perspective of divorce In the electronic version the comprehensive Index combines with Cross References and thematic Reader s Guide themes to provide convenient search and browse capabilities For state and nation entries uniform entry structure combined with an abundance of statistics facilitates comparison between and across states and nations Appendices provide further annotated sources of data and statistics

Diversity in Family Formation Joop de Beer,F. Deven,2013-03-09 The aim of Diversity in Family Formation is to examine changes in the start of the family formation process Rather than giving a rough overview of demographic changes in many countries a comparison of differences in changes in family formation and fertility behaviour between Belgium and The Netherlands is interesting for various reasons First even though the economic and cultural differences between these countries are relatively small there is one important difference Belgium is predominantly Catholic whereas The Netherlands has about equal proportions of Catholics and Protestants Second if the Second Demographic Transition implies that there is one common pattern of change in different European countries and that differences across countries are due to the fact that countries are in a different stage of the transition process and if it is assumed that the transition process started earlier in Protestant countries than in Catholic countries one would expect The Netherlands to be in a further stage of the transition process than Belgium Thus an in depth comparison of changes in family formation and fertility behaviour between both countries may give us more insight in the question of whether there is one common transition process The comparison of fertility and family survey data in both countries brings us to the core question of whether there is one common explanation for differences between countries in various types of fertility and family behaviour under consideration namely fertility regulation the choice of living arrangement after leaving the parental home and the labour force participation of mothers

Lotto John Gilmore,2013-08-09 Did biblical characters gamble in casting lots Did reliance on casting lots encourage gambling Do all risk taking decisions have a gambling element Are Stock Exchange investments a form of gambling As more and more Christians are buying lottery tickets Lotto Is the Lottery Fun or Folly examines and argues cogently the biblical theological historical and ethical dimensions of lotteries It provides up to date information on many of the increasingly popular forms of gambling including charity gambling but with particular emphasis on lotteries It explores theological issues and examines biblical and historical viewpoints often overlooked by other works This book is highly readable style and nonjudgmental in its approach It offers practical and pastorally sensitive advice on the control of gambling and each chapter concludes with discussion questions to prompt further study

Strengthening healthy marriages ,2002 *Transnational Pakistani Connections* Katharine Charsley,2013-11-12 Since restrictions on commonwealth labour immigration to Britain in the 1960s marriage has been the dominant form of migration between Pakistan and the UK Most transnational Pakistani marriages are between cousins or

other more distant relatives lending a particular texture to this transnational social field Based on research in Britain and Pakistan this book provides a rounded portrayal incorporating the emotional motivations for and content of these transnational unions The book explores the experiences of families and individuals involved including the neglected experiences of migrant husbands and charts the management of the risks of contracting transnational marriages as well as examining the consequences in cases when marriages run into conflict Equally however the book explores the attractions of marrying back home and the role of transnational marriage in maintaining bonds between people and places Marriage emerges as a crucial but dynamic and contested element of Pakistani transnational connections This book is of interest to students and scholars in the fields of migration studies kinship the family and South Asian studies as well as social work family law and immigration

NANDINI BASISTHA ,2023-09-03 This book contains thirty three Best Paper Award winning articles presented in the IIHSG International Conference 2021 on Gender Security and Global Politics organised by Interdisciplinary Institute of Human Security Gender Security and Law Gender Security and Governance Gender Security Gender Security Gender Security and Sustainable Development Non Governmental Gender Security Measures Global Agencies for Gender Security Global Parameters for Gender Security Gender Security in Domestic Sphere Child Security Threats Recent Trends and Gender Security and Pandemic Recent Trends I hope that this collection of essays can become a benchmark for the future as well as spur new research agendas and projects that will put the region into a much needed conversation on the recent trends of gender security in world politics The volume is essential reading for social scientists bureaucrats and non governmental political activists interested in gender security It will also appeal to public policy analysts and scholars who have yet to adopt the contribution of critical security and development studies in the analysis of different dimensions of gender security

Punishment and Inequality in America Bruce Western,2006-05-25 Over the last thirty years the prison population in the United States has increased more than seven fold to over two million people including vastly disproportionate numbers of minorities and people with little education For some racial and educational groups incarceration has become a depressingly regular experience and prison culture and influence pervade their communities Almost 60 percent of black male high school drop outs in their early thirties have spent time in prison In *Punishment and Inequality in America* sociologist Bruce Western explores the recent era of mass incarceration and the serious social and economic consequences it has wrought *Punishment and Inequality in America* dispels many of the myths about the relationships among crime imprisonment and inequality While many people support the increase in incarceration because of recent reductions in crime Western shows that the decrease in crime rates in the 1990s was mostly fueled by growth in city police forces and the pacification of the drug trade Getting tough on crime with longer sentences only explains about 10 percent of the fall in crime but has come at a significant cost *Punishment and Inequality in America* reveals a strong relationship between incarceration and severely dampened economic

prospects for former inmates Western finds that because of their involvement in the penal system young black men hardly benefited from the economic boom of the 1990s Those who spent time in prison had much lower wages and employment rates than did similar men without criminal records The losses from mass incarceration spread to the social sphere as well leaving one out of ten young black children with a father behind bars by the end of the 1990s thereby helping perpetuate the damaging cycle of broken families poverty and crime The recent explosion of imprisonment is exacting heavy costs on American society and exacerbating inequality Whereas college or the military were once the formative institutions in young men's lives prison has increasingly usurped that role in many communities Punishment and Inequality in America profiles how the growth in incarceration came about and the toll it is taking on the social and economic fabric of many American communities

Psychological Abuse in Violent Domestic Relations K. Daniel O'Leary, PhD, Roland D. Maiuro, PhD, 2004 This volume addresses the importance of measuring psychological abuse and shows that psychological aggression can be reliably measured Part I identifies measurement issues and contains several scales and inventories for measuring psychological maltreatment Part II discusses the interpersonal dynamics with specific populations including battered women low income women and African American women This remains an important resource in the field of domestic violence

Violence Against Women in Asian Societies Linda Rae Bennett, Lenore Manderson, 2013-09-13 Violence against women is a violation of women's human rights and a priority public health issue It is endemic worldwide While much has been written about it in industrialized societies there has been relatively little attention given to such violence in Asian societies This book addresses the structural and interpersonal violences to which women are subject both under conditions of conflict and disruption and where civil society is relatively ordered It explores sexual violence and coercion domestic violence and violence within the broader community and the state avoiding sensationalised accounts of so called cultural practices in favour of nuanced explorations of violences as experienced in Cambodia Thailand Burma Indonesia Malaysia the Philippines Bangladesh and India
