Handbook of Community Psychology Julian Rappaport, Edward Seidman, 2012-12-06 As a field progresses people write about their own work in journals chapters and books but periodically the work needs to be collected and organized It needs to be brought together in a format that can both introduce new members to the field and reacquaint continuing members with the work of their colleagues Such a collection also affords an opportunity for the growing number of people with particular expertise to provide a reference for others whose work is

related but differs in focus This is the first Handbook of Community Psychology It contains contributions from 106 different authors in addition to our editorial introductions Its thirty eight chapters including two that are divided into multiple individually authored parts are concerned with conceptual frameworks empirically grounded constructs intervention strategies and tactics social systems design assessment and analysis cross cutting professional issues and contemporary intersections with community psychology Although interrelated each chapter stands on its own as a statement about a particular part of the field and the volume can serve as a reference for those who may want to explore an area about which they are not yet familiar To some extent community psychologists eschew the distinction between researcher and practitioner and regardless of one's primary work environment university small college practice setting government or grassroots organization there is something of interest for anyone who wants to explore the community psychology approach

The Meaning And Measurement Of Support Hans O. Veiel, Urs Baumann, 2014-01-09 Contains papers from an international symposium held at the Werner Reimers Foundation in Bad Homburg Germany in May 1990 They address the concern that social support research has fragmented into separate areas and that there is a lack of definition concerning social support

Sourcebook of Social Support and Personality Gregory R. Pierce, Brian Lakey, I.G. Sarason, 2013-11-11 The work of 47 contributors from the U S Canada and Israel the Sourcebook gives special attention to the complexity of the social support construct expanding the field's theoretical base by seriously reappraising social support research in the context of findings from other fields of psychology and related disciplines Personality processes are specified to account for observed associations between social support and physical well being Several new studies are included which illustrate empirical approaches to exploring these processes And key contributions highlight the great strides made in understanding the links among personal dispositions situational contexts and potentially supportive transactions
