

MARTIAN GENESIS

The background of the cover is a deep red, textured surface resembling the planet Mars, with a dark, starry space visible at the top. A large, metallic, silver robotic arm extends from the left side, its hand reaching towards the center. In the lower right, a human hand is shown holding a bright red apple. The apple has a small, green, leaf-like shape on its side. The overall composition suggests a theme of creation or conflict between artificial and natural life.

Martian Genesis Steven Henderson, 2014-12-11 There was war in Heaven Aiden Gunn Anthropology professor and former Army Ranger has no use for the nonsense mysticism and self righteousness of religion Science is sufficient to explain all that was is and will be That is until a Mars rover falls into an underground alien structure and a three and a half billion year old message from Aiden s long lost grandfather to young Aiden is discovered With a world on the brink of nuclear war an exploratory team is formed around Aiden and his graduate student Susan and rushed to Mars But other

powers have learned of the discovery on Mars and a race ensues to take and claim the alien structure for themselves As his team attempts to defend the alien edifice Aiden and Susan begin a journey of discovery that will take them back in time to his missing grandfather and the origin of the alien complex to a war that began before the creation of the universe **Moon People 3** Dale M. Courtney, 2010-04-27 Introduction Moon People 3 Thank you for reading my book Moon People 3 My goal in Moon People 3 was to make it as action pact from start to finish just like my first two Moon People books I had to make a Grand Finale so I put everything into Moon People 3 I would also like to talk to you about the Venus genesis in this book for a moment All of the Venus technical data is accurate and the Venus genesis formula is based on an actual analytical possible Venus Genesis It took me a while to figure out a true Venus genesis possibility Because of the real high pressure in the atmosphere and on the surface Also the very high temperatures on the surface If It wasn t for me trying to figure out how to do a genesis on Mars and Venus I would not have believed it possible But now I believe it really can be done on both planets Mars and Venus and other planets and maybe easier than we all thought You know it is true that we can not go beyond our solar system because of distance and time in our life cycle But I submit that we should be concentrating on the planets in our solar system Could you imagine if we could pull off a Venus genesis or even a Mars genesis We could colonize another planet in our solar system Wouldn t that be the ultimate Besides all of the above I hope you don t mind but I just had to add some Action Pack Sci Fi Space Adventure to the mix also and did you hear the latest Amazon rated Moon People 3 with 5 stars I hope you enjoy my book Moon People 3 I really enjoyed writing it for you If you like Moon People 3 I hope you will read 1 And 2 also I know you will enjoy them If you have any questions or comments please e mail me at Fishinghole1112000 yahoo com Thank you for your time and God Bless Author Dale M Courtney Sci Fi Books Moon People Trilogy *The Magical I Ching* J.
