Confronting Nazi evil is the subject of the next installment in the mega bestselling Killing series As the true horrors of the Third Reich began to be exposed immediately after World War II the Nazi war criminals who committed genocide went on the run A few were swiftly caught including the notorious SS leader Heinrich Himmler Others however evaded capture through a sophisticated Nazi organization designed to hide them Among those war criminals were Josef Mengele the Angel of Death who performed hideous medical experiments at Auschwitz Martin Bormann Hitler's brutal personal secretary Klaus Barbie the cruel Butcher of Lyon and perhaps the most awful Nazi of all Adolf Eichmann Killing the SS is the epic saga of the espionage and daring waged by self styled Nazi hunters This determined and disparate group included a French husband and wife team an American lawyer who served in the army on D Day a German prosecutor who had signed an oath to the Nazi Party Israeli Mossad agents and a death camp survivor Over decades these men and women scoured the world tracking down the SS fugitives and bringing them to justice which often meant death Written in the fast paced style of the Killing series Killing the SS will educate and stun the reader The final chapter is truly shocking *Babylon's Banksters* Joseph P. Farrell, 2010 In a fascinating unique and alternative history author of *The Philosophers Stone* Joseph P Farrell outlines the consistent pattern and strategy of bankers in ancient and modern times and their desire to suppress the public development of alternative physics and energy technologies He unravels how financiers usurped the money creating power of the state to substitute a facsimile of money as debt Here Farrell peels back the layers of deception to reveal the possible deep physics that the banksters have used in their financial policies *The Nazi Hydra in America* Glen Yeadon, 2008 This book exposes how US plutocrats launched Hitler then recouped Nazi assets to lay the post war foundations of a modern police state

Investment Treaties and the Legal Imagination Nicolás M. Perrone,2021-01-14 Foreign investors have a privileged position under investment treaties They enjoy strong rights have no obligations and can rely on a highly efficient enforcement mechanism investor state dispute settlement ISDS Unsurprisingly this extraordinary status has made international investment law one of the most controversial areas of the global economic order This book sheds new light on the topic by showing that foreign investor rights are not the result of unpredicted arbitral interpretations but rather the outcome of a world making project realized by a coalition of business leaders bankers and their lawyers in the 1950s and 1960s Some initiatives that these figures planned for did not emerge such as a multilateral investment convention but they were successful in developing a legal imagination that gradually occupied the space of international investment law They sought not only to set up a dispute settlement mechanism but also to create a platform to ground their vision of foreign investment relations Tracing their normative project from the post World War II period this book shows that the legal imagination of these business leaders bankers and lawyers is remarkably similar to present ISDS practice Common to both is what they protect such as foreign investors legitimate expectations as well as what they silence or make invisible Ultimate this book argues that our canon of imagination of adjustment and potential reform remains closely associated with this world making project of the 1950s and 1960s
