Pre-Socratics

**AN INTRODUCTION
TO HIS THOUGHT**

By George Joseph Seidel, O.S.B.

Martin Heidegger And The Pre Socratics An Introduction To His Thought

George E. McCarthy, John Paul Jones

Martin Heidegger And The Pre Socratics An Introduction To His Thought:

Martin Heidegger and the Pre-Socratics George Joseph Seidel, 1964 *Infinity in the Presocratics* L. Sweeney, 2012-12-06 Throughout the long centuries of western metaphysics the problem of the infinite has kept surfacing in different but important ways It had confronted Greek philosophical speculation from earliest times It appeared in the definition of the divine attributed to Thales in Diogenes Laertius I 36 under the description that which has neither beginning nor end It was presented on the scroll of Anaximander with enough precision to allow doxographers to transmit it in the technical terminology of the unlimited apeiron and the indeterminate aoriston The respective quantitative and qualitative implications of these terms could hardly avoid causing trouble The formation of the words moreover was clearly negative or privative in bearing Yet in the philosophical framework the notion in its earliest use meant something highly positive signifying fruitful content for the first principle of all the things that have positive status in the universe These tensions could not help but make themselves felt through the course of later Greek thought In one extreme the notion of the infinite was refined in a way that left it appropriated to the Aristotelian category of quantity In Aristotle Phys III 6 8 it came to appear as essentially requiring imperfection and lack It meant the capacity for never ending increase It was always potential never completely actualized The Two Horizons Anthony C. Thiselton, 1980 Parmenides, Plato and Mortal Philosophy Vishwa Adluri, 2010-12-02 In a new interpretation of Parmenides philosophical poem On Nature Vishwa Adluri considers Parmenides as a thinker of mortal singularity a thinker who is concerned with the fate of irreducibly unique individuals Adluri argues that the tripartite division of Parmenides poem allows the thinker to brilliantly hold together the paradox of speaking about being in time and articulates a tragic knowing mortals may aspire to the transcendence of metaphysics but are inescapably returned to their mortal condition Hence Parmenides poem articulates a tragic return i.e. a turn away from metaphysics to the community of mortals In this interpretation Parmenides philosophy resonates with post metaphysical and contemporary thought The themes of human finitude mortality love and singularity echo in thinkers such as Arendt and Schmitt as well Plato Parmenides and Mortal Philosophy also includes a complete new translation of On Nature and a substantial overview and bibliography of contemporary scholarship on Parmenides *Translating Heidegger* Miles Groth, 2017-01-01 In *Translating Heidegger* Groth points to mistranslations as the root cause of misunderstanding Heidegger In this unique study Groth examines the history of the first English translations of Heidegger's works and reveals the elements of Heidegger's philosophy of translation **Romancing Antiquity** George E. McCarthy, John Paul Jones, 1997 In this unique and comprehensive book George McCarthy examines the influence of Greek philosophy literature arts and politics on the development of twentieth century German social thought McCarthy demonstrates that the classical spirit vitalized thinkers such as Weber Heidegger Freud Marcuse Arendt Gadamer and Habermas With the romancing of antiquity they transformed their understanding of the modern self political community and Enlightenment rationality By viewing contemporary social

theory from the framework of the classical world McCarthy argues we are capable of thinking beyond the limits of modernity to new possibilities of human reason science beauty and social justice Route of Parmenides Alexander P.D.

Mourelatos,2008-05-12 Mourelatos study of the fragments of Parmenides poem combines traditional philological reconstruction with the approaches of literary criticism and philosophical analysis in order to reveal the thought structure and expressive unity of the best preserved and most important influential and coherent text of Greek philosophy before Plato Through philosophical philological and literary analysis Mourelatos examines the morphology of images and metaphors in Parmenides text with the aim of articulating and interpreting the poem s key concepts and component arguments Relevant antecedents and parallels from the tradition of epic poetry especially from Homer s Odyssey are explored in depth **The**

Later Poetry of Wallace Stevens Thomas Jensen Hines,1976 This is a study of the development of the middle and later poetry of Wallace Stevens that uses comparisons with the phenomenological methods of Edmund Husserl and Martin

Heidegger to clarify many of the difficulties in the poet s mature work Rhetoric's Earthly Realm Bernard Alan Miller,2011-05-07 Plato privileges the realm of absolute reality and truth above and beyond the world of language discourse and rhetoric For Plato earth harbors the fa ade of mere appearances and the evils of the bewitching powers of language In RHETORIC S EARTHLY REALM HEIDEGGER SOPHISTRY AND THE GORGIAN KAIROS Bernard Alan Miller counters this intellectual legacy with an innovative and thoroughly conceived theory of rhetoric one concerned with earth in its Heideggerian aspect complex and multifaceted at the root of a phenomenology placing the focus on earth as the power of Being itself whereby it is manifest purely as language **Ethical Sense and Literary Significance** Donald R.

Wehrs,2023-07-31 This study blends together ethical philosophy neurocognitive evolutionary studies and literary theory to explore how imaginative discourse addresses a distinctively human deep sociality and by doing so helps shape cultural and literary history Deep sociality arising from an improbable evolutionary history both entwines and leaves non reconciled what is felt to be significant for us and what ethical sense seems to call us to acknowledge as significant independent of ourselves Ethical Sense and Literary Significance connects literary and cultural history without reducing the literary to a mere expression of something else It argues that affective differences between non egocentric and egocentric registers of significance are integral to the bioculturally evolved deep sociality that verbal art addresses often in unsettling and socially critical ways Much imaginative discourse in early societies as well as recent ones brings ethical sense and literary significance together in ways that reveal their intricate but non harmonized internal entwinement Drawing on contemporary scholarship in the humanities and sciences Donald R Wehrs explores the implications of interdisciplinary approaches to topics central to a wide range of fields beyond literary studies including neuroscience anthropology phenomenological philosophy comparative history and social psychology
