Marxism And Social Democracy The Revisionist Debate

1896 1898

Marius S. Ostrowski

Marxism And Social Democracy The Revisionist Debate 1896 1898:

Marxism and Social Democracy Henry Tudor, J. M. Tudor, 1988-05-27 This is an anthology in English translation of the major texts concerned with the nineteenth century debates between democratic socialism and revolutionary Marxism The central figure is Eduard Bernstein a leading German social democrat and former associate of Engels who argued that Marx's analysis of society had been overtaken by events and that his doctrine of revolution should be replaced by a policy of evolutionary reform by democratic means The ensuing controversy between Bernstein and his opponents Bebel Kautsky Parvus Rosa Luxemburg and Belfort Bax helped create the split between center and far left which is still a feature of socialist politics in Europe Most of the articles and letters contained in this book have never been translated before so the English speaking reader is able to follow the debate for the first time The debate is analysed in the introduction and the editors also provide detailed annotation and a bibliography This volume will be a critical sourcebook for all serious students of nineteenth century political theory *Marx, Revolution, and Social Democracy* Philip J. Kain, 2023 Marx Revolution and Social Democracy argues that Marx should be understood as a social democrat In response to claims that Marx is either totalitarian utopian or not a democrat Philip J Kain presents a four fold argument concerning the relationship between Marx and social democracy that Marxian socialist society is compatible with a market economy as long as markets are controlled to eliminate alienation that markets can be controlled democratically that Marx accepted a democratic electoral theory of revolution and that Marx and Engels worked actively with the Social Democratic Party of Germany **Circling Marx: Essays 1980-2020** Peter Beilharz, 2020-12-07 Karl Marx circles us and we him This reflects the power of his legacy but it also indicates the nature of the intellectual process We move around objects of interest and insight working by successive approximations Peter Beilharz has been circling Marx for forty years This volume of essays expands the metaphor by working through three circles in the history of Marxism The first works with Marx the second with the classical legacy through to Bolshevism and western marxism the third steps closer to the present in thinkers such as Bauman Heller and Castoriadis Read together these essays represent a lifetime's engagement with Marx and his intellectual consequences **Social Democracy in the Making** Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world's leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make

the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti imperial internationalism *Hendrik de Man and Social Democracy* Tommaso Milani,2020-06-15 The book investigates the intellectual and political trajectory of the Belgian theorist Hendrik de Man 1885 1953 by examining the impact that his works and activism had on Western European social democracy between the two world wars Based on multinational archival research the book highlights how the idea of economic planning became part of a wider effort to address an ideological crisis within the socialist movement and revitalise the latter amidst the Great Depression A heavily controversial figure also because of his subsequent involvement in Belgian wartime collaboration de Man played a pivotal role in challenging traditional Marxist assumptions about the role of the state under capitalism and in promoting transnational exchanges between unorthodox social democrats across Europe Starting from de Man s experience in World War I the book analyses his departure from Marxism his elaboration of an alternative social democratic paradigm his entry in Belgian politics as well as the reception of his thought in France and Britain Eduard Bernstein on the German Revolution Marius S. Ostrowski,2019-11-01 This book presents two major texts and selected shorter writings by the social democratic thinker and politician Eduard Bernstein translated into English in full for the first time The German Revolution A History of the Emergence and First Working Period of the German Republic How A Revolution Perished and articles from Vorwärts and other socialist periodicals Written in the aftermath of the 1918 German Revolution and the end of WWI they address the overthrow of autocratic rule in Germany and provide a live chronicle and retrospective assessment of the Weimar Republic s foundation Bernstein gives a detailed chronology of the German Revolution and its intellectual economic and political context and offers a historical analogy in his account of the 1848 French Revolution which differs in key respects from that of Karl Marx in The Eighteenth Brumaire of Louis Napoleon Drawing on his own experience of the events he describes he revisits the socialist debate over reform or revolution that he himself had provoked at the turn of the 20th century and consciously seeks to wrest ownership of the Revolution s legacy away from the Spartacist and communist left In these works Bernstein exhorts social democrats to rally behind the nascent Republic and resist the siren calls of its militant opponents on radical left and right and he engages with themes of party unity political violence democracy and the role of ideology that have echoed through left theory and strategy ever since **The New Reformism and the Revival of Karl Kautsky** Douglas Greene,2024-06-06 This text offers an authoritative historiography of German socialist theorist Karl Kautsky and his impact on debates about the Russian Revolution and the contemporary left Known as the Pope of Marxism Douglas Greene examines the totality of Kautsky s political career and dissects the fundamental opportunism and passive radicalism that defined his Marxism He later examines the most substantive Marxist critics of Kautsky namely Rosa Luxemburg V I Lenin and Leon Trotsky while offering a critical assessment of the work produced by scholars and activists Lars Lih Eric Blanc and Mike Mcnair seeking to revive Kautsky The New Reformism and the Revival of Karl Kautsky is an important addition to scholarship

on the subject and a valuable resource for those interested in the Russian Revolution German politics socialism Marxism and contemporary left wing debates *The Cambridge History of Communism: Volume 1, World Revolution and Socialism in One Country 1917-1941* Silvio Pons, Stephen A. Smith, 2017-09-21 The first volume of The Cambridge History of Communism deals with the tumultuous events from 1917 to the Second World War such as the Russian Revolution and Civil War the revolutionary turmoil in post World War I Europe and the Spanish Civil War Leading experts analyse the ideological roots of communism historical personalities such as Lenin Stalin and Trotsky and the development of the Communist movement on a world scale against this backdrop of conflict that defined the period It addresses the making of Soviet institutions economy and society while also looking at mass violence and relations between the state workers and peasants It introduces crucial communist experiences in Germany China and Central Asia At the same time it also explores international and transnational communist practices concerning key issues such as gender subjectivity generations intellectuals nationalism and the cult of personality **Thomas Hardy and Empire** Jane L. Bownas, 2016-02-24 Unlike many of his contemporaries Thomas Hardy is not generally recognized as an imperial writer even though he wrote during a period of major expansion of the British Empire and in spite of the many allusions to the Roman Empire and Napoleonic Wars in his writing Jane L Bownas examines the context of these references proposing that Hardy was a writer who not only posed a challenge to the whole of established society but one whose writings bring into question the very notion of empire Bownas argues that Hardy takes up ideas of the primitive and civilized that were central to Western thought in the nineteenth century contesting this opposition and highlighting the effect outsiders have on so called primitive communities In her discussion of the oppressions of imperialism she analyzes the debate surrounding the use of gender as an articulated category together with race and class and shows how in exposing the power structures operating within Britain Hardy produces a critique of all forms of ideological oppression **Contemporary Political Ideologies** Roger Eatwell, Anthony Wright, 1999-03-01 This major new text critically assesses the key political ideologies of the 20th century The 1970s and 1980s witnessed a flowering of new and popular ideologies such as feminism and ecologism and a revival of others notably liberalism The upheavals of the early 1990s have initiated fresh debate amongst major thinkers on the nature of ideology much of it however hostile or polemical Modern Political Ideologies examines in an objective scholarly manner the evolution of key political ideologies and assesses their impact and development during the 20th century This volume is essential reading for all students of politics and indeed anyone who has an interest in current events and wishes to acquire a deeper understanding of the nature scope and ambition of different ideologies
