Williams, 2025-04-17 This book is a study of the Left and its politics Through a series of connected essays it tries to outline the specific ideas which make up the politics of the modern Left the politics of Socialism Humanism and Emancipation The book is also an unapologetically political study It argues for the Left for a better Left for a Left that can change the world **Socialist Construction and Marxist Theory** Philip Corrigan, 1978-06-17

Socialisation in Theory and Practice Heinrich Ströbel, 1922 **Social Theory and the Crisis of Marxism** Joe McCarney, 1990 It is frequently asserted that Marxism as an intellectual tradition is in a state of crisis The many defeats and disappointments suffered by socialist movements in the West and the absence of a working model of a fully achieved socialist society have prompted much self questioning In recent times various strands of post Marxist thought have developed which surrender the ideological initiative to the radical right This philosophical reinterpretation of Marxism seeks to explain the nature and historical origins of the current crisis and to point a way forward to rebirth McCarney argues that there are neglected truths about Marxism which need urgently to be restated Rejecting the dominant interpretation that theory is essentially a critique of capitalist society he reaffirms the classical Marxist model in which socialist theory uncovering a rational order emergent within existing society reveals to the agents of socialist change their historical role McCarney's meticulous analysis systematically examines the relationship between theory critique and social agency to be found in classical Marxism in the work of such leading Marxists as Lukacs Adorno and Althusser and in the recent analytical realist accounts of Marxist theory The book concludes that theoretical as well as social or political advance depends upon the fate of the new proletarian movements and identifies the developments in philosophy and political economy which are needed to ensure that Marxism remains a living intellectual force in the contemporary world *Thinkers, Activists, and Politics* R.
