

Marxism, Socialism, and Democracy in Latin America

RICHARD L. HARRIS

LATIN AMERICAN PERSPECTIVES SERIES, NO. 8
Westview Press

Marxism In Latin America

Luis E. Aguilar

Marxism In Latin America:

Marxism in Latin America from 1909 to the Present Michael Lowy, Paul Le Blanc, 2006-02 This anthology of writings by Latin American Marxists in the twentieth century features theoretical sociological historical and economic studies as well as documents centering on the political struggles throughout the continent From publisher description *Mariátegui and Latin American Marxist Theory* Marc Becker, 1993 Jos Carlos Mari tegui the Peruvian political theorist of the 1920s was instrumental in developing an indigenous Latin American revolutionary Marxist theory He rejected a rigid orthodox interpretation of Marxism and applied his own creative elements which he believed could move a society to revolutionary action without the society having to depend upon more traditional economic factors His interpretation of Peruvian history had a profound effect upon subsequent social movements throughout Latin America This volume reviews the essential elements of Mari tegui s thought and important influences on his intellectual development It demonstrates the role he played in defining a Latin american identity the nature of his intellectual contribution to the development of indigenous revolutionary movements in Latin America and the influence he had on successful revolutionary movements in Cuba and Nicaragua An understanding of Mari tegui s thought is fundamental to understanding the nature of revolutionary changes in Latin America *Marxist Thought in Latin America* Sheldon B. Liss, 1984 **Marxism in Latin America** Luis E. Aguilar, 1968 *Marx and Latin America* José M. Aricó, 2013-12-10 In a work centred on Marx s harsh biography of Sim n Bol var Jos Aric examines why Latin America was apparently excluded from Marx s thought challenging the allegation that this expressed some Eurocentric prejudice Aric shows how the German thinker s hostility towards the Bonapartism and authoritarianism he identified in the Liberator coloured his attitude towards the continent and the significance of its independence processes Whilst criticising Marx s misreading of Latin American realities Aric demonstrates contemporaneous countervailing tendencies in Marx s thought including his appraisal of the revolutionary potentialities of other peripheral extra European societies As such Aric convincingly argues that Marx s work was not a dogma of linear progress but a living contradictory body of thought constantly in development English translation of the Marx y Am rica Latina edition Fondo de Cultura Econ mica 2010 **Translating Marx** Martín Cortés, 2019-10-07 To speak of Latin American Marxism is to announce a problem To what extent can Marxism a theoretical universe forged from nineteenth century European experiences also be productive for grasping other realities How can we begin to make sense of the historical disconnection between that specific corpus of ideas and Latin America s popular movements Mart n Cort s addresses these questions by considering the trajectory and works of Jos Aric who sought to rethink and disseminate in Spanish not only the works of Marx himself but also those of foundational socialist thinkers such as Antonio Gramsci Guided by an interest in Marxism s renovation Cort s explores Aric s vital contributions to key topics in political theory such as the nation the state the political subject and hegemony **Marxism, Socialism, and Democracy in Latin America** Richard L. Harris, 2019-03-04 At a time

when the validity of Marxism is being questioned because of the collapse of the Communist regimes in Eastern Europe Richard Harris examines the relevance of Marxism and socialism for Latin America and the Caribbean Dr Harris discusses recent revolutionary regimes and attempts at socialist transformation in the region in terms of Marxist theory comparing them with the historical experiences of the Soviet Union China Yugoslavia and Vietnam The author argues that Marxist theory offers a framework for understanding recent revolutionary transformations as well as the contradictions and limitations of existing democratic regimes in the region Particular attention is given to revolutionary Cuba the Allende administration in Chile the Popular Revolutionary Government in Grenada the Sandinista regime in Nicaragua and contemporary leftist parties and movements throughout Latin America He contends that democratization and the solution of the region's economic and social problems require a democratic socialist project *Latin American Marxisms in Context* Peter Baker, Irina Feldman, Mike Geddes, 2019-06-19 In recent decades the global North has been engulfed by neoliberalism Neoliberal ideas have dominated the economy and public policies and have become deeply entrenched as common sense Latin America has not been immune to this trend However at the same time governments and popular mobilizations across the continent have actively resisted and challenged neoliberalism Countries such as Venezuela and Bolivia have sometimes been grouped under the label of a pink tide denoting their leftist alignment and their resistance to the Washington led neoliberal consensus This opposition to neoliberal development patterns in Latin America has gone beyond social democratic reformism to a revival of Marxist theoretical perspectives and political practices This book provides an insight into the rich diversity of Latin American Marxism historically and contemporarily Given the global interest in the revival of radicalism in Latin America it will appeal to a wide audience and should be of interest to non Marxist as well as Marxist scholars with interests in topics from political economy to cultural theory **National Marxism in Latin America** Harry E. Vanden, 1986

The Latin American Revolution Donald Clark Hodges, 1974 *Marxism and the Transition to Socialism in Latin America* Richard Legé Harris, 1987 *National Marxism in Latin America* Harry E. Vanden, 1986 **Accumulation and Subjectivity** Karen Benezra, 2022-03-01 Since the 1970s sociocultural analysis in Latin American studies has been marked by a turn away from problems of political economy Accumulation and Subjectivity challenges this turn while reconceptualizing the relationship between political economy and the life of the subject The fourteen essays in this volume show that in order to understand the dynamics governing the extraction of wealth under contemporary capitalism we also need to consider the collective subjects implied in this operation at an institutional juridical moral and psychic level More than merely setting the scene for social and political struggle Accumulation and Subjectivity reveals Latin America to be a cauldron for thought for a critique of political economy and radical political change beyond its borders Combining reflections on political philosophy intellectual history narrative law and film from the colonial period to the present it provides a new conceptual vocabulary rooted in the material specificity of the region and for this very reason potentially translatable to other historical contexts

This collection will be of interest to scholars of Marxism Latin American literary and cultural studies and the intellectual history of the left

Revolution in the Revolution? Régis Debray, 2017-10-03 Revolution in the Revolution is a brilliant pragmatic assessment of the situation in Latin America in the 1960s First published in 1967 it became a controversial handbook for guerrilla warfare and revolution read alongside Che's own pamphlets and remains fully as important as the writings of Guevara Lucid and compelling it spares no personage no institution and no concept taking on not only Russian and Chinese strategies but Trotskyism as well The year it was published Debray was convicted of having been part of Guevara's guerrilla group and sentenced to 30 years in prison He was released in 1970 following an international campaign which included appeals by Jean Paul Sartre Andr Malraux General Charles de Gaulle and Pope Paul VI

Latin America Ronald H Chilcote, Joel Edelstein, 1986

Marx and Freud in Latin America Bruno Bosteels, 2012-08-21 This book assesses the untimely relevance of Marx and Freud for Latin America thinkers alien to the region who became an inspiration to its beleaguered activists intellectuals writers and artists during times of political and cultural oppression Bruno Bosteels presents ten case studies arguing that art and literature the novel poetry theatre film more than any militant tract or theoretical essay can give us a glimpse into Marxism and psychoanalysis not so much as sciences of history or of the unconscious respectively but rather as two intricately related modes of understanding the formation of subjectivity

In the Red Corner Mike Gonzalez, 2019-07-23 Jos Carlos Mari tegui 1894 1930 is widely recognized across Latin America as one of the most important and innovative Marxist thinkers of the twentieth century Yet his life and work are largely unknown to the English speaking world In this gripping political biography the first written in English Mike Gonzalez introduces readers to the inspiring life and thought of the Peruvian socialist

Marx and Latin America José Aricó, 2015 An important rebuttal of those who accuse Marx of Eurocentrism through a close reading of his views on Latin America

Constructing Twenty-First Century Socialism in Latin America S. Motta, M. Cole, 2014-06-05 In Constructing Twenty First Century Socialism The Role of Radical Education Motta and Cole explore the role of the politics of knowledge and pedagogy in the reinvention of socialism for the twenty first century Through a critical analysis of Brazil Colombia and Venezuela they deconstruct the mechanisms of neoliberal control as an epistemological project of monologue closure and violence against all others The authors develop an affirmative engagement with the traditions practices and politics which seek to challenge this closure through the policies of the counter hegemonic government of Venezuela the struggles of social movements in Brazil and Colombia and the daily resistance of critical educators working in formal educational settings in all three countries This mapping and analysis not only contribute to struggles for alternatives to capitalism in Latin America but are translatable to other contexts The book theorizes that with the exhaustion of neoliberalism it is time to pedagogize the political and politicize the pedagogical in order to create worlds beyond capitalism

The Soul of Latin America Howard J. Wiarda, 2003-01-01 To understand Latin America's political culture and to understand why it differs so greatly from that of the United States one

must look beyond the political history of the region Howard J Wiarda explains in this comprehensive book A highly respected expert on Latin American politics Wiarda explores a sweeping array of Iberian and Latin American social economic institutional cultural and religious factors from ancient times to the twentieth century He illuminates the distinctive political attitudes and traditions of Latin America as well as the unique and not widely understood features of present day Latin American models of democracy While Ibero American and Western liberal traditions draw from the same classical thinkers they often emphasize different ideas and reach different conclusions Wiarda contends He traces the influences of Rome Islam medieval Christianity the Reconquest and Iberian feudalism and the powerful but largely unacknowledged effects of the Counter Reformation on Iberian and Latin American civilizations The author concludes with a discussion of recent changes in political culture and an assessment of the strength of democracy s hold in the nations of Latin America
