Marxist Anthropology:

Marxism and Anthropology Maurice Bloch, 2013-10-11 This book examines the uses made of anthropology by Marx and Engels and the uses made of Marxism by anthropologists Looking at the writings of Marx and Engels on primitive societies the book evaluates their views in the light of present knowledge and draws attention to inconsistencies in their analysis of pre capitalist societies These inconsistencies can be traced to the influence of contemporary anthropologists who regarded primitive societies as classless As Marxist theory was built around the idea of class without this concept the conventional Marxist analysis foundered First published in 1983 Marxist Perspectives in Archaeology Matthew Spriggs, 1984-02-23 Marxist theory has been an undercurrent in western social science since the late nineteenth century It came into prominence in the social sciences in the 1960s and 1970s and has had a profound effect on history sociology and anthropology This book represents an attempt to gather together Marxist perspectives in archaeology and to examine whether indeed they represent advances in archaeological theory The papers in this volume look forward to the growing use of Marxist theory by archaeologists as well as enriching archaeology as a discipline they have important implications for sociology and anthropology through the addition of a long term historical perspective This is a book primarily for undergraduates and research students and their teachers in departments of archaeology and anthropology but it should also be of interest to historians sociologists and geographers *History, Power, Ideology* Donald L. essays reflects both the unifying force of Marxist thought and the diversity of contemporary anthropology.
