Paul Lewis, Geoffrey Pridham

Marxist Local Government In Western Europe And Japan:

Marxist Local Governments in Western Europe and Japan Bogdan Szajkowski, 1986 **Ending the LDP**

Hegemony Ray Christensen, 2000-01-01 From its founding in 1955 and for the next thirty eight years Japan's conservative Liberal Democratic Party LDP won all but one national election and selected every prime minister and nearly every cabinet member Other democracies have had similarly dominant parties but none approaches the LDP for longevity in power and complete dominance of the political scene Then in 1993 a political earthquake transformed Japan from a country of unchanging one party rule into a nation of ever changing and free flowing political coalitions For the rest of the decade the LDP struggled to regain its position of dominance and for the most part succeeded At the end of the millennium the LDP lacked a majority in the House of Councillors the upper house of the Japanese Diet but it was nevertheless strong and confident once again while the opposition was in disarray The LDP's loss of control in 1993 however brief made obsolete much of what had been written on Japanese politics Ending the LDP Hegemony answers the need for an up to date analysis of the political scene providing both the information and framework needed to unravel the tangle of coalition politics in the 1990s and anticipate the composition and policies of future Japanese governments It is the first study in English to focus on and put into historical context interparty relations in Japan Western scholars and media heretofore have focused either on the LDP's successes or the peculiarities of the individual opposition parties ignoring interparty relations that are well known to the Japanese Ray Christensen offers here a new perspective on the interaction among members of the Democratic New Frontier Japan Socialist Japan Communist Democratic Socialist and Clean Government parties as well as on their general political orientation and tactics He challenges the assumption that the LDP's accomplishments can be attributed to its being the most efficient capable and intelligent party and describes in detail the strategies of the opponents demonstrating the political savvy of their leaders His analysis of key data on cooperation and elections reveals that opposition parties actually outperformed the LDP This study not only fills a gap in our understanding of modern Japanese politics it also adds a critical non European perspective to analyses of opposition politics and social democracy It argues that the Japanese experience requires a modification of analytical frameworks which are based almost exclusively on Western European examples and questions those who support a more authoritarian Asian model of democracy by revealing the vibrancy of the opposition in Japan and the technical reasons for the LDP's success Ending the LDP Hegemony amply demonstrates that democracy indeed Western style democracy can take root and flourish in the fertile soil of East Asia and offers the experience of Japan's opposition parties as crucial evidence of Japanese democracy It will be essential reading for all those interested in the functioning of democracy in Asia and other non Western settings Comrades! Robert Service, 2007 Service offers a history of communism drawing the uncomfortable conclusion that the poverty and injustice that enabled its rise are still dangerously alive Unsettling and compelling this is a comprehensive study of one of the most important movements of the modern world

Local Self-Government and the Right to the City Warren Magnusson, 2015-07-01 A timely exploration of the untapped potential for local democracy

Political Parties and Coalitional Behaviour in Italy Geoffrey Pridham, 2013-07-04 Coalitional behaviour is central to the Italian system of government but has been largely neglected by research As a result coalitions in post war Italy have been viewed as simply unstable short lived and incohesive In this book the author corrects this one sidedness by analysing Italian coalition politics as a continuous and dynamic process His comprehensive interpretative approach takes account of other new developments in coalition studies and relates his subject both to the literature on Italian politics and to the comparative study of party systems in liberal democracies An introductory section places Italian coalitional behaviour in a theoretical and comparative context This inductive framework is then used as a reference for examining the historical institutional motivational internal socio political and environmental dimensions of the phenomenon

Power and Politics in the City Janice Caulfield, John Wanna, 1995 This study of community power in Brisbane analyses the challenges posed by growth and the shifting of the balance of power from the country to the city Consists of a series of case studies focusing on discrete policy issues and key areas and exploring topics such as relations between state and city governments and between public and private sectors and their impact on the Brisbane community Caulfield is a lecturer in public administration at the University of Queensland and Wanna is a senior lecturer in politics and public policy at Griffith University

Policy Analysis in Japan Adachi, Yukio, Hosono, Sukehiro, 2018-03-01 While studies of policy analysis in other countries have assessed their needs and integrated them into training programmes for professional policy analysts Japanese studies have been very limited Policy analysis in Japan brings together for the first time a detailed examination of the theory and practice of policy analysis systems in Japan at different levels As part of the successful International Library of Policy Analysis series edited by Iris Geva May and Michael Howlett the book provides expert analysis to closely examine to what extent the Japanese government has succeeded in providing key policy actors with evidence informed policy options thereby improving the likelihood of better policies being adopted and implemented The book also assesses Japan's future policy directions allowing policy researchers and practitioners to draw a number of lessons from the Japanese experience The book includes empirical case studies to aid teaching and further research and will be a valuable resource for students and academics as well as policymakers Features of the ILPA series include a country specific systematic study of policy analysis systems by government and non governmental actors a history of the country's policy analysis empirical case studies and a comparative overview of alternative approaches a key reference collection for research and teaching in comparative policy analysis and policy studies

Stabilising Fragile Democracies Paul Lewis, Geoffrey Pridham, 2002-11-01 Political parties play a central if not the central political role in parliamentary democracies They are also likely to play a key role in the establishment of new parliamentary democracies This volume provides a systematic comparison of the democratic transitions in both Eastern and Southern Europe from this point of view There are four main

themes concerning the role of parties that are examined coping with the past party identities and inheritances the formation and performance of new democratic political elites parties and alliances and their electoral behaviour These themes guide the case studies which are written in comparative perspective in four countries in both Southern and Eastern Europe The countries covered include Italy Spain Greece Portugal Hungary Romania Poland and Bulgaria Democratization is a very complex process but what the study of political parties does is to focus on an area that links many of them This book is intended to be a guide to students wishing to make sense of democratization and the role of political parties in that process

Crisis and Compensation Kent E. Calder, 2021-04-13 Why does Japan with its efficiency oriented technocracy periodically adopt welfare oriented economically inefficient domestic policies In answering this question Kent Calder shows that Japanese policymakers respond to threats to the ruling party's preeminence by extending income compensation entitlements and subsidies with market oriented retrenchment coming as crisis subsides Quite simply the most ambitious and strongly argued interpretation of a key dimension of Japanese political life to appear in English this decade David Williams Japan Times Historically dense and conceptually rich Forces readers attention to the domestic underpinnings of Japanese foreign policy Donald S Zagoria Foreign Affairs Punctures the myth of Japan Inc as a cool rational monolith Kathleen Newland Millennium A bold reinterpretation of Japanese politics that will force us to rethink many of our current assumptions and will influence our research agenda Steven R Reed Journal of Japanese Studies Parties and the Party System in France A. Knapp, 2004-03-12 The French elections of 2002 broke all records for fragmentation abstention and far right protest voting yet returned incumbent President Chirac in triumph and gave him a solid basis of parliamentary support Parties and the Party System in France seeks to explain the paradox of France's current relationship to politics through a comprehensive analysis of French political parties and their interaction over the last fifty years set against the two contexts of French history and of contemporary theories of parties and party systems
