Marxists And The Jewish Question The History Of A Debate 1843 1943:

The Marxists and the Jewish Question Enzo Traverso, 1994 The relationship of Marxism to the Jewish Question is far more complex than many have assumed Despite the Jewish backgrounds of several Marxists including Marx himself many showed a sense of indifference toward a sense of Jewishness Yet an increasingly virulent anti-Semitism affecting sections of the working class and culminating in the Holocaust and in the growing strength of Zionism became a problem that numerous Marxist thinkers were compelled to consider In addition to examining the works of Marx Karl Kautsky Leon Trotsky Ber Borokhov Abram Leon and figures associated with the Frankfurt School Traverso also investigates the actual policies in the socialist and communist movements and sensitively explores the unique history of the Jewish workers movement in various countries

Revisiting the Jewish Question Elisabeth Roudinesco, 2014-03-10 What does it mean to be Jewish What is an anti-Semite Why does the enigmatic identity of the men who founded the first monotheistic religion arouse such passions We need to return to the Jewish question We need first to distinguish between the anti-Judaism of medieval times which persecuted the Jews and the anti-Judaism of the Enlightenment which emancipated them while being critical of their religion It is a mistake to confuse the two and see everyone from Voltaire to Hitler as anti-Semitic in the same way Then we need to focus on the development of anti-Semitism in Europe especially Vienna and Paris where the Zionist idea was born Finally we need to investigate the reception of Zionism both in the Arab countries and within the Diaspora Re-examining the Jewish question in the light of these distinctions and investigations Roudinesco shows that there is a permanent tension between the figures of the universal Jew and the territorial Jew Freud and Jung split partly over this issue which gained added intensity after the creation of the State of Israel in 1948 and the Eichmann trial in 1961 Finally Roudinesco turns to the Holocaust deniers who started to suggest that the Jews had invented the genocide that befell their people and to the increasing number of intellectual and literary figures who have been accused of anti-Semitism This thorough re-examination of the Jewish question will be of interest to students and scholars of modern history and contemporary thought and to a wide readership interested in anti-Semitism and the history of the Jews

Jean-Paul Sartre and the Jewish Question Jonathan Judaken, 2006-12-01 Examines the image of the Jew in Sartre's work to rethink not only his oeuvre but also the role of the intellectual in France and the politics and ethics of existentialism This book explores how French identity is defined through the abstraction and allegorization of the Jew

Walter Benjamin Esther Leslie, 2000-05-20 Esther Leslie's path-breaking study of Walter Benjamin is unlike any other book presently available in English on Benjamin in seeking to make a case for a more politicised reading of Benjamin's oeuvre In looking at the entirety of Benjamin's work rather than the four or five essays available in English which tend to form the Benjamin canon Leslie offers powerful new insights into a key twentieth-century political thinker correcting the post-structuralist bias that has characterised so much Benjamin scholarship and repositioning Benjamin's work in its historical and political context In her examination of Benjamin's commentary on the politics and

aesthetics of technology from Benjamin's work on nineteenth century industrial culture to his analyses of the Nazi deployment of the bomber. Esther Leslie re-contextualises Benjamin's writings in a lucid and cogently argued new study.

Holocaust Film Terri Ginsberg, 2009-03-26 This timely new monograph takes as its starting point the provocative contention that Holocaust film scholarship has been marginalized academically despite the crucial role Holocaust film has played in fostering international awareness of the Nazi genocide and scholarly understandings of cinematic power. The book suggests political and economic motivations for this seeming paradox, the ideological parameters of which are evident in debates and controversies over Holocaust films themselves and around Holocaust culture in general. Lending particular attention to four exemplary Holocaust art films: *Korczak* (Poland, 1990), *The Quarrel* (Canada, 1990), *Entre Nous* (France, 1983) and *Balagan* (Germany, 1994), this book breaks disciplinary ground by drawing critical connections between public and scholarly debates over Holocaust representation and the often sophisticated cinematic structures lending aesthetic shape to them in today's global arena.

Israel and the European Left Colin Shindler, 2011-12-22 Why has the European Left become so antagonistic towards Israel? To answer this question, Colin Shindler looks at the struggle between Marxism-Leninism and Zionism from the October Revolution to today. Is such antagonism in opposition to the policies of successive Israeli governments? Or is it due to a resurgence of anti-Semitism? The answer is far more complex. Shindler argues that the new generation of the European Left was more influenced by the decolonization movement than by wartime experiences which led it to favor the Palestinian cause in the post-1967 period. Thus the Israeli drive to settle the West Bank after the Six Day war enhanced an already existing attitude but did not cause it. Written by a respected scholar, this accessible and balanced work provides a novel account and analytical approach to this important subject. *Israel and the European Left* will interest students in international politics, Middle Eastern studies as well as anyone who seeks to understand issues related to today's Left and the Arab-Israeli conflict.

Understanding the Nazi Genocide Enzo Traverso, 2018-04-27 This is a genuinely original contribution to our understanding. Students of the Holocaust sometimes worry that too much analysis may immunise us against its unbelievable horror. Traverso avoids that risk with great sensitivity and imagination. *Socialist Review*. In *Understanding the Nazi Genocide*, Enzo Traverso sustains a dialogue with writings on the Shoah from Hannah Arendt to Daniel Goldhagen by drawing on the critical and heretical Marxism of Walter Benjamin and the Frankfurt School which grasped late capitalism's pent-up capacity for destructive upheavals exacerbated by bureaucratic organisation and advanced technology. After Auschwitz, Hiroshima and the gulag, the old warning slogan 'socialism or barbarism' formulated by European Marxists at the beginning of the twentieth century needs to be seriously revised. The choice we face today is no longer between the progress of civilisation and a fall into ancient savagery but between socialism conceived as a new civilisation and the destruction of humankind. For Traverso, the Warsaw Ghetto uprising is an image of what should impel us to rebel, not a sense of inevitable victory but an ethical imperative.

The Artless Jew Kalman P. Bland, 2001-07-02 Conventional wisdom holds

that Judaism is indifferent or even suspiciously hostile to the visual arts due to the Second Commandment's prohibition on creating graven images the dictates of monotheism and historical happenstance This intellectual history of medieval and modern Jewish attitudes toward art and representation overturns the modern assumption of Jewish iconophobia that denies to Jewish culture a visual dimension Kalman Bland synthesizes evidence from medieval Jewish philosophy mysticism poetry biblical commentaries travelogues and law concluding that premodern Jewish intellectuals held a positive liberal understanding of the Second Commandment and did in fact articulate a certain Jewish aesthetic He draws on this insight to consider modern ideas of Jewish art revealing how they are inextricably linked to diverse notions about modern Jewish identity that are themselves entwined with arguments over Zionism integration and anti-Semitism Through its use of the past to illuminate the present and its analysis of how the present informs our readings of the past this book establishes a new assessment of Jewish aesthetic theory rooted in historical analysis Authoritative and original in its identification of authentic Jewish traditions of painting sculpture and architecture this volume will ripple the waters of several disciplines including Jewish studies art history medieval and modern history and philosophy *Jerusalem on the Amur* Henry Felix Srebrnik, 2008-10-03 The Canadian Jewish Communist movement an influential ideological voice within the Canadian left played a major role in the politics of Jewish communities in cities such as Montreal Toronto and Winnipeg as well as many smaller centres between the 1920s and the 1950s *Jerusalem on the Amur* looks at the interlocking group of left wing Jewish organizations that shared the political views of the Canadian Communist Party and were vocal proponents of policies perceived as beneficial to the Jewish working class Focusing on the Association for Jewish Colonization in Russia known by its transliterated acronym as the ICOR and the Canadian Ambijan Committee Henry Srebrnik uses Yiddish language books newspapers pamphlets and other materials to trace the ideological and material support provided by the Canadian Jewish Communist movement to Birobidzhan [Critical Theories of Anti-Semitism](#) Jonathan Judaken, 2024-06-04 Despite its persistence and viciousness anti-Semitism remains undertheorized in comparison with other forms of racism and discrimination How should anti-Semitism be defined What are its underlying causes Why do anti-Semites target Jews In what ways has Judeophobia changed over time What are the continuities and disconnects between medieval anti-Judaism and the Holocaust How does criticism of the state of Israel relate to anti-Semitism And how can social theory illuminate the upsurge in attacks on Jews today Considering these questions and many more this book is at once a philosophical reflection on key problems in the analysis of anti-Semitism and a history of its leading theories and theorists Jonathan Judaken explores the methodological and conceptual issues that have vexed the study of Judeophobia and calls for a reconsideration of the definitions categories and narratives that underpin overarching explanations He traces how a range of thinkers have wrestled with these challenges examining the theories of Jean Paul Sartre the Frankfurt School Hannah Arendt and Jean Francois Lyotard alongside the works of sociologists Talcott Parsons and Zygmunt Bauman and historians Leon Poliakov and

George Mosse Judaken argues against claims about the uniqueness of Judeophobia demonstrating how it is entangled with other racisms Islamophobia Negrophobia and xenophobia Critical Theories of Anti-Semitism not only urges readers to question how they think about Judeophobia but also draws them into conversation with a range of leading thinkers whose insights are sorely needed in this perilous moment
