Pacific Air Combat Wwii Voices From The Past:

The Last Mission Jim Smith, Malcolm McConnell, 2007-12-18 A gripping account of the final American bombing mission of World War II and how it prevented a military coup that would have kept Japan in the war How close did the Japanese come to not surrendering to Allied forces on August 15 1945 The Last Mission explores this question through two previously neglected strands of late World War II history whose very interconnections could have caused a harrowing shift in the course of the postwar world On the final night of the war as Emperor Hirohito recorded a message of surrender for the Japanese people a band of Japanese rebels commanded by War Minister Anami s elite staff burst into the palace They had plotted a massive coup that aimed to destroy the recordings of the Imperial Rescript of surrender and issue false orders forged with the Emperor s seal commanding the widely dispersed Japanese military to continue the war If this rebellion had succeeded the military would have proceeded with large scale kamikaze attacks on Allied forces costing huge casualties and just possibly provoking the Americans to drop a third atomic bomb on Japan over Tokyo and continue to drop more bombs as Japanese resistance stiffened Meanwhile in the midst of an end of war celebration on Guam Air Force radio operator Jim Smith and his fellow crewmen received urgent orders for a bombing mission over Japan s sole remaining oil refinery north of Tokyo As a stream of American B 29B bombers approached Tokyo Japanese air defenses fearing the approaching planes signaled the threat of a third atomic bomb ordered a total blackout in Tokyo and the Imperial Palace completely disrupting the rebels plans Smith and his fellow crewmembers completed the mission and a few hours later the Emperor announced the surrender over Japan s airwaves dictating the end of the war The Last Mission is an insightful piece of speculative investigation that combines narrative storytelling with historical contingency and explores how two seemingly unrelated events could have profoundly changed the course of modern history

The Last Mission Malcolm McConnell, 2024-04-29 How close did the Japanese come to not surrendering to Allied forces on August 15 1945 The Last Mission explores this question through two previously neglected strands of late World War II history whose very interconnections could have caused a harrowing shift in the course of the postwar world On the final night of the war as Emperor Hirohito recorded a message of surrender for the Japanese people a band of Japanese rebels commanded by War Minister Anami s elite staff burst into the palace They had plotted a massive coup that aimed to destroy the recordings of the Imperial Rescript of surrender and issue false orders forged with the Emperor s seal commanding the widely dispersed Japanese military to continue the war If this rebellion had succeeded the military would have proceeded with large scale kamikaze attacks on Allied forces costing huge casualties and just possibly provoking the Americans to drop a third atomic bomb on Japan over Tokyo and continue to drop more bombs as Japanese resistance stiffened

Indestructible John R Bruning, 2016-10-11 In this remarkable WWII story by New York Times bestselling author John R Bruning a renegade American pilot fights against all odds to rescue his family imprisoned by the Japanese and revolutionizes modern warfare along the way From the knife

fights and smuggling runs of his youth to his fiery days as a pioneering naval aviator Paul Irving Pappy Gunn played by his own set of rules and always survived on his wits and fists But when he fell for a conservative Southern belle her love transformed him from a wild and reckless airman to a cunning entrepreneur whose homespun engineering brilliance helped launch one of the first airlines in Asia Pappy was drafted into MacArthur's air force when war came to the Philippines and while he carried out a top secret mission to Australia the Japanese seized his family Separated from his beloved wife Polly and their four children Pappy reverted to his lawless ways He carried out rescue missions with an almost suicidal desperation Even after he was shot down twice and forced to withdraw to Australia he waged a one man war against his many enemies including the American high command and the Japanese and fought to return to the Philippines to find his family Without adequate planes supplies or tactics the U S Army Air Force suffered crushing defeats by the Japanese in the Pacific Over the course of his three year quest to find his family Pappy became the renegade who changed all that With a brace of pistols and small band of loyal followers he robbed supply dumps stole aircraft invented new weapons and modified bombers to hit harder fly farther and deliver more destruction than anything yet seen in the air When Pappy's modified planes were finally unleashed during the Battle of the Bismarck Sea the United States scored one of the most decisive victories of World War II Taking readers from the blistering skies of the Pacific to the jungles of New Guinea and the Philippines to one of the war's most notorious prison camps Indestructible traces one man's bare knuckle journey to free the people he loved and the aerial revolution he sparked that continues to resonate across America's modern battlefields

Deadly Sky John C. McManus, 2016-08-02 From the training camps to the combat missions this is war from the perspective of the young Americans who lived through it the pilots the bombardiers the navigators and the gunners of all the combat services in both Europe and in the Pacific It is an engaging and vivid portrayal of war in the skies from 1941 to 1945 Craig L Symonds Author of World War II at Sea John C McManus author of The Dead and Those About to Die and September Hope reveals the terror and triumph that shared the fiery skies of World War II from the first dogfights over Europe to the last Kamikaze attacks over the Pacific This insightful chronicle takes readers inside the experiences of America's fighter pilots and bomber crews an incredible assortment of men who in nearly four years of warfare all over the globe suffered over 120 000 casualties with over 40 000 killed Their stories span the earth into every corner of the combat theaters in both Europe and the Pacific And the aircraft explored are as varied tough and legendary as the men who flew them from the indomitable heavy duty warhorse that was the B 17 Flying Fortress to the sleek lethal P 51 Mustang fighter In Deadly Sky master historian John C McManus goes beyond the familiar tales of aerial heroism capturing the sights and sounds the toil and fear the adrenaline and the pain of the American airmen who faced death with every mission In this important thoroughly researched work McManus uncovers the true nature of fighting and dying in the skies over World War II

Army, 1974 *The Changing Face of Aerial Warfare* Anthony Tucker-Jones,2018-10-29 Can air power alone win a war That has been the question since the Second World War Air attacks failed miserably in Vietnam Operation Linebacker had little effect while bombing Hanoi just increased hatred for America yet air strikes in both Iraq and Libya helped bring about regime changes No fly zones may have worked in the Balkans but they might as well not have been there for Saddam Hussein s Iraq From the Luftwaffe s massed attack on Britain to NATO s interventions in Libya aerial warfare has changed almost beyond recognition The piston engine has been replaced by the jet and in some cases the pilot has been completely replaced by the microchip Carpet bombing is now a global positioning system and laser pinpointed strikes using precision guided munitions Whereas a bomber s greatest enemies were once fighters and flak the threats have now morphed into smart missiles from half a world away In this compelling study celebrated defence expert Anthony Tucker Jones charts the remarkable evolution of aerial warfare from 1940 to the present day Killing the Rising Sun Bill O'Reilly,Martin Dugard,2016-09-13 Across the globe in Los Alamos New Mexico Dr J Robert Oppenheimer and his team of scientists are preparing to test the deadliest weapon known to mankind In Washington DC FDR dies in office and Harry Truman ascends to the presidency only to face the most important political decision in history whether to use that weapon And in Tokyo Emperor Hirohito who is considered a deity by his subjects refuses to surrender despite a massive and mounting death toll Told in the same page turning style of Killing Lincoln Killing Kennedy Killing Jesus Killing Patton and Killing Reagan this epic saga details the final moments of World War II like never before
